Ian Pickup

Action Adventure Ivan King, action
adventure, 2017-01-04 Ivan King is an Award Winning
and Best Selling Author of over 30 books. His #1
Book on Amazon, Breakfast With Jesus, has become a
major success internationally. Mr. King was born
in Rio de Janeiro, Brazil, in 1977, though his
stay in Rio was to be short lived. Adopted from an
orphanage, he was raised in Ipatinga's, Valley of
Steel. His favorite author is Hemingway; yet his
favorite book, is Steinbeck's Grapes of Wrath.
When he is not writing or reading, he plays chess
and the guitar. When Ivan was eight, he read his
first book, Judy Blume's Superfudge and the rest
is history. That's the story behind how the
passion for reading began; how it ends...has yet
to be written. Currently, he is working on a
couple dozen writing projects and turning some of
his novels into screenplays. Ivan's first
published work, Valley of Steel, is a Fiction
Novel loosely based on his life growing up in the
favelas, or slums, of Brazil. Favorite quote: "In
life, incredible things happen and unforgettable
moments do exist; but nothing compares to having
been loved by you, and though you rest in peace, I
will miss and love you always."

Reading, Literature, and Psychology in Action
Philip Davis, Rhiannon Corcoran, Josie
Billington, Arthur Frank, 2023-06-23 'Psychology in
Action' is a term coined by the Guest Editors from
the Centre for Research into Reading, Literature
and Society (CRILS), University of Liverpool, in
their work in filming, recording and analyzing
shared reading groups, led by The Reader

organization. It refers both to the work of psychology within literary texts and to the responses of multifarious reader-participants to literature read live and aloud in small community groups within a variety of settings. In particular, 'psychology in action' has meant seeing readers suddenly activated into deep personal thinking, responding to situations imaginatively simulated by reading literature in ways that trigger surprised and involuntary emotion, autobiographical memory and spontaneous empathy.

Causalism Carolina Sartorio, 2023-09-07 In this volume, Carolina Sartorio makes the case for big-picture causalism: a naturalistic conception of agency and free agency that unifies the two phenomena under a common thesis. This is the thesis that actions/free actions are behaviors that have the right kinds of causes or explanations. The book discusses how a causalist view of action and free action fit together--the latter as a natural extension of the former--and how they are motivated by similar considerations having to do with causal control. The result is a compelling package deal view of our practical agency, one that is put forth as the default view (the view that deserves to be regarded as the starting point of our theorizing). Sartorio examines both the skeleton of the causalist view as well as potential enrichments that result from exploiting the grounds of the relevant causal facts. The discussion is enriched by an account of the role played in causalism by key metaphysical notions such as causation, grounding, absences,

and powers.

Strong Towns Charles L. Marohn, Jr., 2019-10-01 A new way forward for sustainable quality of life in cities of all sizes **Strong Towns: A Bottom-Up Revolution to Build American Prosperity** is a book of forward-thinking ideas that breaks with modern wisdom to present a new vision of urban development in the United States. Presenting the foundational ideas of the Strong Towns movement he co-founded, Charles Marohn explains why cities of all sizes continue to struggle to meet their basic needs, and reveals the new paradigm that can solve this longstanding problem. Inside, you'll learn why inducing growth and development has been the conventional response to urban financial struggles—and why it just doesn't work. New development and high-risk investing don't generate enough wealth to support itself, and cities continue to struggle. Read this book to find out how cities large and small can focus on bottom-up investments to minimize risk and maximize their ability to strengthen the community financially and improve citizens' quality of life. Develop in-depth knowledge of the underlying logic behind the "traditional" search for never-ending urban growth Learn practical solutions for ameliorating financial struggles through low-risk investment and a grassroots focus Gain insights and tools that can stop the vicious cycle of budget shortfalls and unexpected downturns Become a part of the Strong Towns revolution by shifting the focus away from top-down growth toward rebuilding American prosperity **Strong Towns** acknowledges that there is a problem with the American approach to

growth and shows community leaders a new way forward. The Strong Towns response is a revolution in how we assemble the places we live.

Reading for Action Ashley S. Boyd, Janine J. Darragh, 2019-06-05 This book illuminates methods for drawing upon young adult literature to facilitate students' social action.

Reading Research in Action Peggy D. McCardle, Vinita Chhabra, Barbara A. Kapinus, 2008 Teachers know scientifically based reading research (SBRR) is important - but how can they use it in their everyday classroom instruction to improve students' literacy outcomes? They'll find the answers in this practical SBRR guide. Answers to these questions come complete with straightforward explanations of research and vignettes that demonstrate how to work research-based practices into classroom reading instruction.--BOOK JACKET.

Reading as Collective Action Nicholas Hengen Fox, 2017-10-01 Literature is powerful. It offers respite. It provides access to beauty and horror, to new places, new people, and new ideas. It can, as the phrase goes, change your life. Good things, all of them. But also somewhat limited goods: they're all pretty passive, pretty private—you might even say self-centered. Reading as Collective Action shifts our focus outward, to another of literature's powers: the power to reshape our world in very public, very active ways. In this book, you will encounter readers who criticized the Bush administration's war on terror by republishing poems by writers ranging from Shakespeare to Amiri Baraka everywhere from

lampposts to the New York Times. You will read about people in Michigan and Tennessee, who leveraged a community reading program on John Steinbeck's *The Grapes of Wrath* to organize support for those in need during the Great Recession and to engage with their neighbors about immigration. You will meet a pair of students who took to public transit to talk with strangers about working-class literature and a trio who created a literary website that reclaimed the working-class history of the Pacific Northwest. This book challenges dominant academic modes of reading. For adherents of the "civic turn," it suggests how we can create more politically effective forms of service learning and community engagement grounded in a commitment to tactical, grassroots actions. Whether you're a social worker or a student, a zine-maker, a librarian, a professor, or just a passionate reader with a desire to better your community, this book shows that when we read texts as tactics, "that book changed my life" can become "that book changed our lives."

Seifert Fiberings Kyung Bai Lee, Frank Raymond, 2010-11-24 Seifert fiberings extend the notion of fiber bundle mappings by allowing some of the fibers to be singular. Away from the singular fibers, the fibering is an ordinary bundle with fiber a fixed homogeneous space. The singular fibers are quotients of this homogeneous space by distinguished groups of homeomorphisms. These fiberings are ubiquitous and important in mathematics. This book describes in a unified way their structure, how they arise, and how they are

classified and used in applications. Manifolds possessing such fiber structures are discussed and range from the classical three-dimensional Seifert manifolds to higher dimensional analogues encompassing, for example, flat manifolds, infranil-manifolds, space forms, and their moduli spaces. The necessary tools not covered in basic graduate courses are treated in considerable detail. These include transformation groups, cohomology of groups, and needed Lie theory. Inclusion of the Bieberbach theorems, existence, uniqueness, and rigidity of Seifert fiberings, aspherical manifolds, symmetric spaces, toral rank of spherical space forms, equivariant cohomology, polynomial structures on solv-manifolds, fixed point theory, and other examples, exercises and applications attest to the breadth of these fiberings. This is the first time the scattered literature on singular fiberings is brought together in a unified approach. The new methods and tools employed should be valuable to researchers and students interested in geometry and topology.

Geometry of Manifolds with Non-negative Sectional Curvature Owen Dearricott,Fernando Galaz-García, Lee Kennard, Catherine Searle, Gregor Weingart, Wolfgang Ziller,2014-07-22 Providing an up-to-date overview of the geometry of manifolds

with non-negative sectional curvature, this volume gives a detailed account of the most recent research in the area. The lectures cover a wide range of topics such as general isometric group actions, circle actions on positively curved four manifolds, cohomogeneity one actions on Alexandrov spaces, isometric torus actions on Riemannian manifolds of maximal symmetry rank, n -Sasakian manifolds, isoparametric hypersurfaces in spheres, contact CR and CR submanifolds, Riemannian submersions and the Hopf conjecture with symmetry. Also included is an introduction to the theory of exterior differential systems.

Go in Action Erik St. Martin, William Kennedy, Brian Ketelsen, 2015-11-04 Summary Go in Action introduces the Go language, guiding you from inquisitive developer to Go guru. The book begins by introducing the unique features and concepts of Go. Then, you'll get hands-on experience writing real-world applications

including websites and network servers, as well as techniques to manipulate and convert data at speeds that will make your friends jealous. Purchase of the print book includes a free eBook in PDF, Kindle, and ePub formats from Manning Publications. About the Technology Application development can be tricky enough even when you aren't dealing with complex systems programming problems like web-scale concurrency and real-time performance. While it's possible to solve these common issues with additional tools and frameworks, Go handles them right out of the box, making for a more natural and productive coding experience. Developed at Google, Go powers nimble startups as well as big enterprises—companies that rely on high-performing services in their infrastructure. About the Book Go in Action is for any intermediate-level developer who has experience with other programming languages and wants a jump-start in learning Go or a more thorough understanding of the language and its internals. This book provides an intensive, comprehensive, and idiomatic view of Go. It focuses on the specification and implementation of the language, including topics like language syntax, Go's type system, concurrency, channels, and testing. What's Inside Language specification and implementation Go's type system Internals of Go's data structures Testing and benchmarking About the Reader This book assumes you're a working developer proficient with another language like Java, Ruby, Python, C#, or C++. About the Authors William Kennedy is a seasoned software developer and author of the blog GoingGo.Net.

The Metaphysics of Self-realisation and Freedom
Colin Tyler, 2017-03-22 This first part of Colin Tyler's new critical assessment of the social and political thought of T.H. Green (1836–1882) explores the grounding that Green gives to liberal socialism. Tyler shows how, for Green, ultimately, personal self-realisation and freedom stem from the innate human drive to construct a bedrock of fundamental values and commitments that can define and give direction to the individual's most valuable potentials and talents. This book is not only a significant contribution to British idealist scholarship. It highlights also the enduring philosophical and ethical resources of a social democratic tradition that remains one of the world's most important social and political movements, and not least across Britain, Europe, North America, India and Australia. Dr Colin Tyler is Reader in Politics at the University of Hull and joint convenor of the Centre for British Idealism.
