Essentials of Assessment Report Writing W. Joel Schneider,Elizabeth O. Lichtenberger,Nancy Mather,Nadeen L. Kaufman,2018-09-19 The bestselling guide to reporting writing, updated and reworked for today's practice Essentials of Assessment Report Writing offers effective solutions to the creation of reader-friendly, yet targeted, psychological, and educational assessment reports. Parents, clinicians, clients, and other readers need more than test-by-test descriptions—they need an accessible analysis of the entire situation to determine their next steps. This book provides clear guidance for busy practitioners seeking ways to improve their report writing skills. With a focus on current practice, this new second edition covers DSM-5 updates and the latest assessment instruments including the WJ IV, WISC-V, WAIS-IV, KTEA-3, and the CAS2. New discussion includes advice on tailoring the report to the audience, and annotated case reports provide illustrative models of effective report styles, interpretation, and analysis. Key concepts are highlighted for quick reference throughout, and end-of-chapter questions help reinforce understanding. Reporting styles vary widely within the field, in both content and style; there is no definitive standard, but many reports fail to reflect best practices and therefore prove less than useful to the reader. This book provides expert guidance throughout the reporting process to help practitioners provide high-quality, accessible reports. Integrate assessment results to provide a person-centered report Identify and navigate critical decision points in the interpretive process Write efficiently yet effectively while enhancing the reader's experience Provide an accurate, informative, and readable assessment report Incorporate practical recommendations to address the referral concerns Expertly-conducted assessments should culminate with a carefully constructed analysis that provides direction via clear communication. Because this report will be used to inform treatment, intervention, and ultimately, the client's quality of life—it is critical that it provides clear, informative guidance in a way that readers can understand. Essentials of Assessment Report Writing provides comprehensive guidelines for navigating through the report writing process.

Policing Protest Paul A. Passavant, 2021-06-28 In *Policing Protest* Paul A. Passavant explores how the policing of protest in the United States has become increasingly hostile since the late 1990s, moving away from strategies that protect protesters toward militaristic practices designed to suppress protests. He identifies reactions to three interrelated crises that converged to institutionalize this new mode of policing: the political mobilization of marginalized social groups in the Civil Rights era that led to a perceived crisis of democracy, the urban fiscal crisis of the 1970s, and a crime crisis that was associated with protests and civil disobedience of the 1960s. As Passavant demonstrates, these reactions are all haunted by the figure of black insurrection, which continues to shape policing of protest and surveillance, notably in response to the Black Lives Matter movement. Ultimately, Passavant argues, this trend of violent policing strategies against protesters is evidence of the emergence of a post-democratic state in the United States.
