Leonard Trelawny Hobhouse

Split Lee Kofman,2019-05-20 In this compelling anthology of personal essays, curated by award-winning author Lee Kofman, some of Australia's most beloved writers reveal, for the first time, powerful, occasionally funny and often heartbreaking stories of significant endings and their aftermath. Graeme Simsion, author of The Rosie Project, shares how he discarded his past – perhaps autistic – self, while comedian Sami Shah writes about his public split from Islam, the religion of his birth. Ramona Koval delves into the bittersweet end to her career at the ABC and Fiona Wright explores how her anorexia has affected her romantic relationships. Whereas Kate Holden suggests that for some, splitting – whether from memorabilia, books or lovers – is unimaginable. Join eighteen acclaimed storytellers in their candid and courageous reflections on the intrinsic human experience of loss and leaving, that acknowledge the price we can often pay for a much-needed end, or new beginning.

*The Split Economy* Nimi Wariboko,2020-11-01 Starting with Marx and Freud, scholars have attempted to identify the primary ethical challenge of capitalism. They have named injustice, inequality, repression, exploitative empires, and capitalism's psychic hold over all of us, among other ills. Nimi Wariboko instead argues that the core ethical problem of capitalism lies in the split nature of the modern economy, an economy divided against itself. Production is set against finance, consumption against saving, and the future against the present. As the rich enjoy their lifestyle, their fellow citizens live in servitude. The economy mimics the structure of our human subjectivity as Saint Paul theorizes in Romans 7: the law constitutes the subject as split, traversed by negativity. The economy is split, shot through with a fundamental antagonism. This fundamental negativity at the core of the economy disturbs its stability and identity, generating its destructive drive. The Split Economy develops a robust theoretical framework at the intersection of continental philosophy, psychoanalytic theory, theology, and political economy to reveal a fundamental dynamic at the heart of capitalism.

Each technology is explained by examining the overall system and its components, planning, operation, maintenance, installation and economics. Information is given on both heat and combined heat and power. In addition, international legal framework and data on selected regional, national and international support programmes are provided. In short, this book describes the key features of different bioenergy technologies and offers professionals expert guidance for installation. It will be a cherished resource for engineers and architects alike who are working in new projects, farmers keen to explore this technology and practitioners or students with a specialized and practical interest in this field.

Split Ben Tippet,2020 In 1990, John Major hailed 'the classless society'; in 1997, New Labour announced that 'we're all middle class now', yet we live in an age where food banks, pay day lenders and zero-hour contracts proliferate: it's clear that class matters. Foregrounding the economic nature of class, Split challenges the idea that class can be reduced to the cultural. From precarious labour to rising debt; from the housing crisis to environmental catastrophe; from an inflated prison population to the welfare state; Ben Tippet traces the class divide at the heart of all exploitation. Myth-busting meritocracy, he exposes the role that tax havens, colonialism and inheritance play in the wealth of the elite. Split highlights the potential for a diverse and eclectic working-class bloc to fight back in an age of austerity and uncertainty.

**The Way of Nothing** Paramananda Ishaya,2014-01-31 Though it is simple and obvious, you may not understand the incredible importance of the way of nothing. When you do see the way, you will wonder, Can it really be this easy and simple? And seeing that there was never anything in the way of freedom can almost be embarrassing. How could I have never seen it? you'll ask. The Way of Nothing: Nothing in the Way explores the obstacles that stop you from reaching your highest desires: enlightenment, eternal peace, or simply ordinary contentment. These obstacles are nothing more than concepts you have that seem real, yet they vanish with insight into the way. It is a wonderful surprise to discover that there has always been nothing in the way of what you want. Best of all, there is really nothing to it! ,
