- Haiti and the United States Brenda Gayle Plummer, 1992 Stressing the importance of domestic policy and the character of civil society in the formation of foreign policy, Plummer illuminates the various factors that figured in the relationship between the two countries throughout the nineteenth century. She discusses the aspirations of Haiti's founders in building a self-governing black society, Haitian responses to the transatlantic abolition movement, the development of Haiti's creole culture, and the country's shrewd negotiations with the United States over commercial and strategic issues. The late 1800s, Plummer shows, proved a turning point in Haitian-U.S. relations as Washington's assumption of regional hegemony changed the balance of power for a Haiti long committed to a multilateralist diplomacy. In the twentieth century, tensions between traditional and reformist elements in Haitian society erupted in a crisis that brought U.S. intervention and long-term military occupation. Plummer examines the consequences of this intervention as they were incorporated into the later interactions between the United States and Haiti and shows how these troubled relations contributed to the rise of the repressive Duvalier regime. The recent fall of that regime, Plummer suggests, now presents the psychological moment to which Elihu Root referred so many years ago..
