The Split Kurt Schlichter,2021-07-19 First, there was People's Republic, then Indian Country, then Wildfire, and Collapse. Then in Crisis, America split into two nations, red and blue, side by side, and at each other's throats. Now comes The Split, the sixth novel in the bestselling thriller series that began as fiction and every day looks more and more like reality. With the USA ripped apart by the hatred and corruption of the left, red America is building a country based on the principles of the Constitution, while in the People's Republic of North America, the brakes are off as blue America hurtles toward total social justice tyranny. With the election to replace a senile president approaching, political players within the new blue America jockey for power regardless of the cost. Into this maelstrom, Kelly Turnbull is given a simple job - bring out a half-mad mathematical genius whose computer program could control the outcome of the election. But nothing is ever simple. From a mission into Cuba to an infiltration from Canada, from guerilla war in the Adirondacks to an impossible heist in which Kelly must team up with a renegade radio host and pack of Boston mobsters, the action never stops. With his trusty Wilson Combat CQB .45 and his bad attitude, Kelly Turnbull again does what he does best - lay waste to leftists. You don't assign Kelly Turnbull a mission. You unleash him. This time, he's got a score to settle - and he intends to do it with extreme prejudice.
