**Condition Assessment Scheme** International Maritime Organization,2005 The Condition Assessment Scheme (CAS) for oil tankers was adopted in 2001 and is applicable to all single-hull tankers of 15 years or older. Although the CAS does not specify structural standards in excess of the provisions of other IMO conventions, codes and recommendations, its requirements stipulate more stringent and transparent verification of the reported structural condition of the ship and that documentary and survey procedures have been properly carried out and completed. The Scheme requires that compliance with the CAS is assessed during the Enhanced Survey Program of Inspections concurrent with intermediate or renewal surveys currently required by resolution A.744(18), as amended.--Publisher's description.

**Ship Design** Apostolos Papanikolaou,2014-09-16 This book deals with ship design and in particular with methodologies of the preliminary design of ships. The book is complemented by a basic bibliography and five appendices with useful updated charts for the selection of the main dimensions and other basic characteristics of different types of ships (Appendix A), the determination of hull form from the data of systematic hull form series (Appendix B), the detailed description of the relational method for the preliminary estimation of ship weights (Appendix C), a brief review of the historical evolution of shipbuilding science and technology from the prehistoric era to date (Appendix D) and finally a historical review of regulatory developments of ship's damage stability to date (Appendix E). The book can be used as textbook for ship design courses or as additional reading for university or college students of naval architecture courses and related disciplines; it may also serve as a reference book for naval architects, practicing engineers of related disciplines and ship officers, who like to enter the ship design field systematically or to use practical methodologies for the estimation of ship's main dimensions and of other ship main properties and elements of ship design.

**Distress Investing** Martin J. Whitman,Fernando Diz,2009-04-13 Financial innovation, new laws and regulations, and the financial meltdown of 2007-2008 are just a few of the forces that have shaped, and continue to shape, today's distress investment environment. Combine this with the fact that the discipline of distress investing doesn't always follow what conventional wisdom says, and you can see why it is one of the most challenging areas in finance. Nobody understands this better than Martin Whitman—the legendary founder of Third Avenue Management LLC and a pioneer in the field of distressed markets—and leading academic Dr. Fernando Diz of Syracuse University. That's why they decided to write *Distress Investing*. As an outgrowth of annual distress and value investing seminars the two have taught together at Syracuse University's Martin J. Whitman School of Management, this reliable resource will help you gain a better understanding of the essential principles and techniques associated with distress investing and show you how to effectively apply them in the real world. Divided into four comprehensive parts—the General Landscape of Distress Investing, Restructuring Troubled Issuers, the Investment Process, and Cases and Implications for Public Policy—this book comprehensively covers the practice of buy-and-hold investing in distressed credits, whether it be performing loans or the reinstated issues of a reorganized issuer. From the recent changes to U.S. bankruptcy code and creditor rights to cash bailouts, you'll quickly learn how to analyze distressed situations such as pricing issues, arbitrage opportunities, tax disadvantages, and the reorganization of funding plans. Along the way, case studies of both large and small distress investing deals—from Kmart to Home Products International—will give you a better perspective of the business. Critical topics addressed throughout these pages include: Chapter 11 bankruptcy and why it's not considered an ending, but rather a beginning when it comes to distress investing The Five Basic Truths of distress investing The difficulty of due diligence for distressed issues Distress investing risks—from reorganization risk to risk associated with the alteration of priority of payments in bankruptcy Valuing companies by both going concern as well as their resource conversion attributes In today's turbulent economic environment, distress investing presents some enticing opportunities. Put yourself in a better position to excel at this endeavor with *Distress Investing* as your guide.

**The Feeling of Being Loved** Raviraj Mishra,2020-01-16 Shruti, a software engineer has a wish to be truly loved by someone. In her journey, she has two companions - Meera and her talking rational mind. Her idea of love and respect guides her to take some strong decisions. The feeling of being loved is the story of those rational decisions taken by a distracted mind to make things alright.

If you are an educator, you can request an evaluation copy by sending us an email to [online.books999@gmail.com](mailto:online.books999@gmail.com)

**Synergy of Community Policing and Technology** Georgios Leventakis,M. R. Haberfeld,2019-02-05 This brief examines the interaction and synergy between the philosophical concepts embedded in the ideas of Community Oriented Policing (C.O. P.) and urban security aided by technological innovations. While the philosophy of C.O.P. stresses the importance of collaboration between members of the public and its police forces technology that is becoming rapidly integrated in various police tactics creates new legal challenges and operational hurdles. This approach, coined as “Next Generation Community Policing”, is discussed through the chapters of the brief and illustrated with examples from a number of different countries and their approaches to this topic. This Brief will be of interest to researchers in criminology and criminal justice, particularly in police studies, as well as related fields such as urban security planning and sociology.
