Pro Business Applications with Silverlight 4 Chris Anderson, 2010-09-19 Silverlight 4 has the potential to revolutionize the way we build business applications. With its flexibility, web deployment, cross-platform capabilities, rich .NET language support on the client, rich user interface control set, small runtime, and more, it comes close to the perfect platform in which to build business applications. It's a very powerful technology, and despite its youth, it's moving forward at a rapid pace and is gaining widespread adoption. This book will guide you through the process of designing and developing enterprise-strength business applications in Silverlight 4 and C#. You will learn how to take advantage of the power of Silverlight to develop rich and robust business applications, from getting started to deployment, and everything in between. In particular, this book will serve developers who want to learn how to design business applications, and introduce the patterns to use, the issues that you'll face, and how to resolve them. Chris Anderson, who has been building line-of-business applications for years, demonstrates his experience through a candid presentation of how to tackle real-life issues, rather than just avoid them. Developers will benefit from his hard-won expertise through business application design patterns that he shares throughout the book. With this book in hand, you will Create a fully functional business application in Silverlight Discover how to satisfy all of the general requirements that most business applications need Develop a business application framework

Dictionary of Electronics, Computing and Telecommunications/Wörterbuch der Elektronik, Datentechnik und Telekommunikation Vittorio Ferretti, 2012-12-06 Since the first edition was published, new technologies have come up, especially in the area of convergence of Computing and Communications, accompanied by a lot of new technical terms. This second expanded and updated edition has been worked out to cope with this situation. The number of entries has been incremented by 35%. With about 159,000 entries, this dictionary offers a valuable guide to navigate through the entanglement of German and English terminology. The

lexicographic concept (indication of the subject field for every term, short definitions, references to synonyms, antonyms, general and derivative terms) has been maintained, as well as the tabular layout.

Organize Your Digital Life Aimee Baldrige, 2009-01-06 Now that digital cameras and music players have become so incredibly widespread, a forest of sound and imagery is blossoming in our homes. We've got digital pictures in the camera, scans on the computer, JPEGs attached to e-mails, and tunes on tiny players. But there's also the old-fashioned stuff: photos in shoeboxes, videos in the attic, documents in desk drawers, songs on tape and vinyl. How do you transform all of these different elements into a convenient archive you can store in your computer, easily reach, and actually enjoy? This book delivers basic step-by-step instruction on streamlining and organizing your digital life so you can find what you need instantly and create presentations your friends and family will love. In addition, you'll be amazed at the decrease in household clutter and paper waste. For everyone—from teenagers who thrive on the technical to families with overflowing photo albums and seniors who'd love to collate decades' worth of letters and pictures—this reader-friendly source has all the answers. These easy-to-follow solutions can truly enhance and simplify the hectic, over-saturated lives so many of us find ourselves leading today.
