The City of Blue and White Anne Gerritsen,2020-05-07 A compelling examination of the ultimate global commodity, blue and white porcelain, from kiln to consumers across the globe.

Flatlantis Eric DuBay,2020-07-21 Flatlantis is an exploration into the history of Flat Earth, the mythology of Atlantis, and the mystery of Mount Meru, the alleged magnetic mountain ancient cultures worldwide believed existed at the North Pole. Beginning with a complete history of the geocentric flat Earth cosmology and subsequent gradual adoption of the heliocentric globe Earth model, Flatlantis then delves into ancient polar mythologies, early polar history/cartography, modern polar expeditions, and the myriad problems with claims made by Cook, Peary, Byrd, Scott, Amundsen, and other explorers. Finally, in a metaphysical twist, the book ends with research into Freemasonry, Christian esotericism, the Atlantean legend, Kundalini Yoga, ancient advanced civilizations and how they are all intimately connected to the North Pole.

The Flat-Earth Conspiracy Eric Dubay,2014-11-09 Wolves in sheep's clothing have pulled the wool over our eyes. For almost 500 years, the masses have been thoroughly deceived by a cosmic fairy-tale of astronomical proportions. We have been taught a falsehood so gigantic and diabolical that it has blinded us from our own experience and common sense, from seeing the world and the universe as they truly are. Through pseudo-science books and programs, mass media and public education, universities and government propaganda, the world has been systematically brain-washed, slowly indoctrinated over centuries into the unquestioning belief of the greatest lie of all time. A multi-generational conspiracy has succeeded, in the minds of the masses, to pick up the fixed Earth, shape it into a ball, spin it in circles, and throw it around the Sun! The greatest cover-up of all time, NASA and Freemasonry's biggest secret, is that we are living on a plane, not a planet, that Earth is the flat, stationary center of the universe.

The Atlantean Conspiracy (Final Edition) Eric Dubay,2013-11-24 The Atlantean Conspiracy Final Edition is the ultimate encyclopedia exposing the global conspiracy from Atlantis to Zion. Discover how world royalty through the Vatican and secret societies control literally every facet of our lives from behind the scenes and have done so for thousands of years. Topics covered include Presidential Bloodlines, The New World Order, Big Brother, FEMA Concentration Camps, Secret Societies, The Zionist Jew World Order, False Flags & The Hegelian Dialectic, The Lusitania & WWI, Pearl Harbor & WWII, Operation Northwoods, The Gulf of Tonkin & The Vietnam War, The Oklahoma City Bombing, The 9/11 Inside Job, Media Manipulation, The Health Conspiracy, Fluoride, Vaccines, Engineered AIDS, The Meat & Dairy Myth, The Cure for Everything, Masonic Symbolology, Numerology, Time Manipulation, The Christian Conspiracy, Astrotheology, Magic Mushrooms, Atlantis, Kundalini, Enlightenment, Geocentric Cosmology, The NASA Moon and Mars Landing Hoaxes, Aliens, Controlled Opposition, and much more

China's Porcelain Capital Maris Boyd Gillette,2016-08-11 Maris Boyd Gillette's groundbreaking study tells the story of Jingdezhen, China's porcelain capital, from its origins in 1004 in Song dynasty China to the present day. Gillette explores how Jingdezhen has been affected by state involvement in porcelain production, particularly during the long 20th century. She considers how the Chinese government has consumed, invested in, taxed and managed the local ceramics industry, and the effects of this state intervention on ceramists' lives, their local environment and the nature of the goods they produce. Gillette traces how Jingdezhen experienced the transition from imperial rule to state ownership under communism, the changing fortunes of the ceramics industry in the early 21st century, the decay and decline that accompanied privatisation, and a revival brought about by an entrepreneurial culture focusing on the manufacture of highly-prized 'art porcelain'.

Choicemaker Cilla Noyes,2022-01-15 Have you ever stood in a narrow canyon with a towering tumult of flood water rushing toward you? This is how Nebrina Sture feels as she faces two certainties: her mother will soon die and her detestable stepfather will then be her guardian. She cannot change her mother's fate, but she vows to herself she will never, ever live alone with the man she calls the 'Toad'. When her world crashes around

her, Nebrina faces life-changing choices. She decides she must 'disappear' until she is fourteen years old and able to legally choose her own guardian. But where can she hide for a year and a half? Following in the footsteps of her Anasazi ancestors, she finds a niche in their ancient cliffside pueblo in the Frijoles Canyon in New Mexico. The question now is how can she survive hidden away from the world in this harsh environment? Choicemaker is a modern survival story that will keep teen readers captivated to the surprise ending.

The Pilgrim Art Robert Finlay, 2010-02-17 Illuminating one thousand years of history, The Pilgrim Art explores the remarkable cultural influence of Chinese porcelain around the globe. Cobalt ore was shipped from Persia to China in the fourteenth century, where it was used to decorate porcelain for Muslims in Southeast Asia, India, Persia, and Iraq. Spanish galleons delivered porcelain to Peru and Mexico while aristocrats in Europe ordered tableware from Canton. The book tells the fascinating story of how porcelain became a vehicle for the transmission and assimilation of artistic symbols, themes, and designs across vast distances—from Japan and Java to Egypt and England. It not only illustrates how porcelain influenced local artistic traditions but also shows how it became deeply intertwined with religion, economics, politics, and social identity. Bringing together many strands of history in an engaging narrative studded with fascinating vignettes, this is a history of cross-cultural exchange focused on an exceptional commodity that illuminates the emergence of what is arguably the first genuinely global culture.

Nicholas of Cusa and the Making of the Early Modern World, 2019-01-14 The authors focus on four major thematic areas - the reform of church, the reform of theology, the reform of perspective, and the reform of method - which together encompasses the breadth and depth of Cusanus' own reform initiatives.

Authenticity Thomas Dubay, 2009-12-17 Most people assume that the way to mend divisions and factions in our world - marriages, parishes, dioceses, religious orders - is to engage in civil discussions, attend local, regional or national meetings, draw up committee reports and recommendations. To a point this may help, but sad experience makes clear that these approaches alone never heal the polarization problems which plague our civil and ecclesial life. The Biblical therapy is radically different - and it achieves results. This book explores the divine strategy in detail. Research discovers in Scripture 40 or 50 themes that bear on discovering truth and recognizing that it has been solidly found. We learn how we discern whether we are being led by the Holy Spirit or by our own unredeemed inclinations and desires, whether it is the spirit of God or the prince of darkness that is operating in our disagreements and programs. We find in these themes clear responses to key questions: Why are there divisions and factions in the Church? How are these polarizations to be healed? What are the sure signs that some people have truth, while others are in error? What are the conditions for finding and maintaining a shared vision in marriage, parishes, dioceses, religious orders, the universal Church?

Is the Bible from Heaven? Is the Earth a Globe? Alex Gleason, 2017-11-06 2017 Reprint of the original from 1893. Is the Bible from Heaven? Is the Earth a Globe? In Two Parts - Does Modern Science and the Bible Agree? Also, an Accurate Chronology of All Past Time Containing a Classification of All the Eclipses from Creation. Alexander Gleason, creator of the Gleason New Standard Map of the World, makes the case for a flat earth. Includes an accurate chronology of all past time containing a classification of all the eclipses from creation. Over 400 pages of Gleason's original text and illustrations. From the Preface: 'It shall not be the object of this work to promulgate the creeds of men, but such truth as shall prove to be according to that which we shall, without doubt, find to be the standard, regardless of whatever has been our preconceived opinions. If, in the course of this work, we shall show, that there is a God, a Divine ruler and maker of all things, and that the book which we call the Bible is His will and word to you and to all; then do not chide me if I shall depart from the text or title of this work to show some of the mistakes of men.'

Zetetic Cosmogony: That The World Is Not A Rotating Revolving Globe Thomas Winship, 2018-02-18 To fanciful minds and theoretical speculators, the so-called science of modern astronomy furnishes a field, unsurpassed in any science for the unrestrained license of the imagination, and the building up of a complicated conjuration of absurdities such as to overawe the simpleton and make him gape with wonder; to deceive even those who truly believe their assumptions to be facts, and to make men doubt Divine Revelation with as little discrimination as they were formerly called upon to believe, If the reader will carefully follow and weigh the evidence in the following chapters, he cannot fail to be delivered from the thralldom of popular credulity and led to seek the truth himself.

Knowledge and the Early Modern City Bert De Munck, Antonella Romano, 2019-08-20 Knowledge and the Early Modern City uses case studies from the sixteenth to the eighteenth centuries to examine the relationships between knowledge and the city and how these changed in a period when the nature and conception of both was drastically transformed. Both knowledge formation and the European city were increasingly caught up in broader institutional structures and regional and global networks of trade and exchange during the early modern period. Moreover, new ideas about the relationship between nature and the transcendent, as well as technological transformations, impacted upon both considerably. This book addresses the entanglement between knowledge production and the early modern urban environment while incorporating approaches to the city and knowledge in which both are seen as emerging from hybrid networks in which human and non-human elements continually interact and acquire meaning. It highlights how new forms of knowledge and new conceptions of the urban co-emerged in highly contingent practices, shedding a new light on present-day ideas about the impact of cities on knowledge production and innovation. Providing the ideal starting point for those seeking to

understand the role of urban institutions, actors and spaces in the production of knowledge and the development of the so-called 'modern' knowledge society, this is the perfect resource for students and scholars of early modern history and knowledge.
