*We Are Here to Stay: Voices of Undocumented Young Adults* Susan Kuklin,2019-01-08 With refreshing candor, photos and interviews usher us into the lives of eleven undocumented young people bravely speaking out. “Maybe next time they hear someone railing about how terrible immigrants are, they'll think about me. I’m a real person.” Meet nine courageous young adults who have lived in the United States with a secret for much of their lives: they are not U.S. citizens. They came from Colombia, Mexico, Ghana, Independent Samoa, and Korea. They came seeking education, fleeing violence, and escaping poverty. All have heartbreaking and hopeful stories about leaving their homelands and starting a new life in America. And all are weary of living in the shadows. *We Are Here to Stay* is a very different book than it was intended to be when originally slated for a 2017 release, illustrated with Susan Kuklin’s gorgeous full-color portraits. Since the last presidential election and the repeal of DACA, it is no longer safe for these young adults to be identified in photographs or by name. Their photographs have been replaced with empty frames, and their names are represented by first initials. We are honored to publish these enlightening, honest, and brave accounts that encourage open, thoughtful conversation about the complexities of immigration — and the uncertain future of immigrants in America.

**Meaningful Making 2** Paulo Blikstein,Sylvia Libow Martinez,Heather Allen Pang,2019-03-08 Meaningful Making 2 is a second volume of projects and strategies from the Columbia University FabLearn Fellows. This diverse group of leading K-12 educators teach in Fab Labs, makerspaces, classrooms, libraries, community centers, and museums--all with the goal of making learning more meaningful for every child. A learning revolution is in the making around the world. Enthusiastic educators are using the new tools and technology of the maker movement to give children authentic learning experiences beyond textbooks and tests. The FabLearn Fellows work at the forefront of this movement in all corners of the globe. In this book, the FabLearn Fellows share all new inspirational lesson ideas, strategies, and recommended projects across a broad range of age levels. Illustrated with color photos of real student work, the Fellows take you on a tour of the future of learning, where children make sense of the world by making things that matter to them and their communities. To read this book is to rediscover learning as it could be and should be--a joyous, mindful exploration of the world, where the ultimate discovery is the potential of every child.

**Down with the Poor!** Shumona Sinha,2023-07-18 ‘Through the poetic force of her writing, Sinha brings a broken world to burning point.’ —Le Monde Over the course of a night in police custody, a young woman tries to understand the rage that led her to assault a refugee on the Paris metro. She too is a foreigner, now earning a living as an interpreter for asylum seekers in the outskirts of the city. *Down With the Poor!*, which borrows its title from a poem by Baudelaire, is the story of a woman who, little by little, is contaminated by the violence of the world.

*The Flat-Earth Conspiracy* Eric Dubay,2014-11-09 Wolves in sheep's clothing have pulled the wool over our eyes. For almost 500 years, the masses have been thoroughly deceived by a cosmic fairy-tale of astronomical proportions. We have been taught a falsehood so gigantic and diabolical that it has blinded us from our own experience and common sense, from seeing the world and the universe as they truly are. Through pseudo-science books and programs, mass media and public education, universities and government propaganda, the world has been systematically brain-washed, slowly indoctrinated over centuries into the unquestioning belief of the greatest lie of all time. A multi-generational conspiracy has succeeded, in the minds of the masses, to pick up the fixed Earth, shape it into a ball, spin it in circles, and throw it around the Sun! The greatest cover-up of all time, NASA and Freemasonry's biggest secret, is that we are living on a plane, not a planet, that Earth is the flat, stationary center of the universe.

**Flatlantis** Eric DuBay,2020-07-21 Flatlantis is an exploration into the history of Flat Earth, the mythology of Atlantis, and the mystery of Mount Meru, the alleged magnetic mountain ancient cultures worldwide believed existed at the North Pole. Beginning with a complete history of the geocentric flat Earth cosmology and subsequent gradual adoption of the heliocentric globe Earth model, Flatlantis then delves into ancient polar mythologies, early polar history/cartography, modern polar expeditions, and the myriad problems with claims made by Cook, Peary, Byrd, Scott, Amundsen, and other explorers. Finally, in a metaphysical twist, the book ends with research into Freemasonry, Christian esotericism, the Atlantean legend, Kundalini Yoga, ancient advanced civilizations and how they are all intimately connected to the North Pole.

**The Exodus from Egypt and the Desert of Amenta** Gerald Massey,2008-11-01 When roughly classed, the myths and legends generally show two points of departure for migrations of the human race, as these were rendered in the stellar and solar mythology. One is from the summit of the celestial mount, the other from the hollow underworld beneath the mount or inside the earth. The races that descended from the mount were people of the pole whose starting-point in reckoning time was from one or other station of the pole-star, determinable by its type, whether as the tree, the rock, or other image of a first point of departure. Those who ascended from the nether-world were of the solar race who came into existence with the sun as it is represented in the legendary lore... from The Exodus from Egypt and the Desert of Amenta It goes unappreciated by modern Egyptologists, but it is embraced by those who savor the concept of a hidden history of humanity, and those who approach all human knowledge from the perspective of the esoteric. Gerard Massey 's massive Ancient Egypt: The Light of the World first published in 1907 and the crowning achievement of the self-taught scholar redefines the roots of Christianity via Egypt, proposing that Egyptian mythology was the basis for Jewish and Christian beliefs. Here, Cosimo proudly presents Book 8 of Ancient Egypt, in which Massey roots the story of the Hebrew exodus deep in Egyptian legend. From wilderness deserts and promised lands of plenty to magical rods and twelve tribes, Massey explains how the Hebrew tale descended from the story of Ra. Peculiar and profound, this work will intrigue and delight readers of history, religion, and mythology. British author GERALD MASSEY (1828 1907) published works of poetry, spiritualism, Shakespearean criticism, and theology, but his best-known works are in the realm of Egyptology, including A Book of the Beginnings and The Natural Genesis.
