The Millionaire Fastlane MJ DeMarco, 2011-01-04 10TH ANNIVERSARY EDITION Is the financial plan of mediocrity -- a dream-stealing, soul-sucking dogma known as The Slowlane your plan for creating wealth? You know how it goes; it sounds a lil something like this: Go to school, get a good job, save 10% of your paycheck, buy a used car, cancel the movie channels, quit drinking expensive Starbucks mocha lattes, save and penny-pinch your life away, trust your life-savings to the stock market, and one day, when you are oh, say, 65 years old, you can retire rich. The mainstream financial gurus have sold you blindly down the river to a great financial gamble: You've been hoodwinked to believe that wealth can be created by recklessly trusting in the uncontrollable and unpredictable markets: the housing market, the stock market, and the job market. This impotent financial gamble dubiously promises wealth in a

wheelchair -- sacrifice your adult life for a financial plan that reaps dividends in the twilight of life. Accept the Slowlane as your blueprint for wealth and your financial future will blow carelessly asunder on a sailboat of HOPE: HOPE you can find a job and keep it, HOPE the stock market doesn't tank, HOPE the economy rebounds, HOPE, HOPE, and HOPE. Do you really want HOPE to be the centerpiece for your family's financial plan? Drive the Slowlane road and you will find your life deteriorate into a miserable exhibition about what you cannot do, versus what you can. For those who don't want a lifetime subscription to settle-for-less and a slight chance of elderly riches, there is an alternative; an expressway to extraordinary wealth that can burn a trail to financial independence faster than any road out there. Why jobs, 401(k)s, mutual funds, and 40-years of mindless frugality will never make you rich young. Why most entrepreneurs fail and how to immediately put the odds in your favor. The real law of wealth: Leverage this and wealth has no choice but to be magnetized to you. The leading cause of poorness: Change this and you change everything. How the rich really get rich - and no, it has nothing to do with a paycheck or a 401K match. Why the guru's grand deity - compound interest - is an impotent wealth accelerator. Why the guru myth of do what you love will most likely keep you poor, not rich. And 250+ more poverty busting distinctions... Demand the Fastlane, an alternative road-to-wealth; one that actually ignites dreams and creates millionaires young, not old. Change lanes and find your explosive wealth

accelerator. Hit the Fastlane, crack the code to wealth, and find out how to live rich for a lifetime.

With a Little Help Cory Doctorow, 2015-07-16 With
a Little Help is my first serious experiment in
self-publishing. I've published many novels, short
story collections, books of essays and so on with
publishers, and it's all been very good and
satisfying and educational and so on, but it seems
like it's time to try something new. With a Little
Help consists of 12 stories, all reprints except
for Epoch (commissioned by Mark Shuttleworth).

Brands of Faith Mara Einstein, 2007-09-14 In a
society overrun by commercial clutter, religion
has become yet another product sold in the
consumer marketplace, and faiths of all kinds must
compete with a myriad of more entertaining and
more convenient leisure activities. Brands of
Faith argues that in order to compete effectively
faiths have had to become brands – easily
recognizable symbols and spokespeople with whom
religious prospects can make immediate connections
Mara Einstein shows how religious branding has

expanded over the past twenty years to create a blended world of commerce and faith where the sacred becomes secular and the secular sacred. In a series of fascinating case studies of faith brands, she explores the significance of branded church courses, such as Alpha and The Purpose Driven Life, mega-churches, and the popularity of the televangelist Joel Olsteen and television presenter Oprah Winfrey, as well as the rise of Kaballah. She asks what the consequences of this religious marketing will be, and outlines the possible results of religious commercialism – good and bad. Repackaging religion – updating music, creating teen-targeted bibles – is justifiable and necessary. However, when the content becomes obscured, religion may lose its unique selling proposition – the very ability to raise us above the market.

Sweet Jams & Jellies: Once you've turned out flawless favorites like Raspberry & Strawberry, try your hand at Blueberry Earl Grey Jam. Vegetable Pickles: Simply cooked in a vinegar brine or long-fermented, every pickle is perfectly crisp. Fruit in Syrup: Enjoy jewel-like fruit, from bite-size to whole, in a syrup made of the perfect ratio of water to sugar. Tomatoes: Intensify their flavor through roasting or lock in summer sweetness with fresh tomato sauce. Canning Books Are Hot More and more people are canning and preserving at home for the satisfaction of transforming raw height-of-season produce into jewel-like jars of jams, jellies, and condiments, or umami-packed pickles. Step-by-Step Instruction This is the first canning and preserving book from ATK; we take the mystery and fear away and provide detailed and illustrated instructions for every recipe. Timelines for Every Recipe It's helpful to have snapshot of the commitment involved in making the recipe—and when they're ready to eat. Lots of Options for Both Beginner and Experienced Canners There is a lot of interest in handcrafting small batches of fruits

and vegetables. The emphasis in this book is on small batch canning (2- or 4-jar yields) with double-it options for all the 4 jar recipes. Beautiful Package Completely illustrated with step photos of the recipes in progress and an easy-to follow design.

The Online Advertising Playbook Joe Plummer, Stephen D. Rappaport, Taddy Hall, Robert Barocci, 2007-07-20 Praise for The Online Advertising Playbook Finally, someone has documented all we know about online advertising and how to do it right. As much as this confirms that online advertising really works, we know that marketers don't always get it right. The ARF's The Online Advertising Playbook provides critical insight on what sticks and what doesn't in online advertising and marketing. —Greg Stuart, CEO and President, Interactive Advertising Bureau and coauthor of What Sticks The Online Advertising Playbook's principles, case studies, and strategic insights equip marketers with the best knowledge available. It will help your online advertising achieve the full range of marketing objectives, from lead generation and customer acquisition to driving trial and loyalty. —Tim Kopp, Vice President, Global Interactive Marketing, The Coca-Cola Company To grow interactive marketing from here we need to institutionalize our wisdom and experience about what works. This book explains, in a disciplined way, what marketers have learned from a decade of massive change. —Ted McConnell, Interactive Innovation Director, Procter & Gamble

The Online Advertising Playbook is a milestone in the maturation of interactive advertising, but also an invaluable go-to guide for managers trying to make smart decisions with their advertising budgets. –Van Riley, Vice President of Research, AOL

The best marketing communication is spawned from what I call 'informed intuition.' After reading The Online Advertising Playbook, I am far better informed on how to optimize the online channel in our advertising and promotional programs. It's a perfect blend of case studies and research-backed learning. –Rod DeVar, Manager, Advertising and Promotion, United States Postal Service

Savvy marketers should take advantage of The Online Advertising Playbook's findings and principles to get real results. –Chris Theodoros, Director of Industry Relations, Google

A work of wisdom and rigor in the digital space that is as relevant for the newbie as it is for the digerati. –Mike Donahue, Executive Vice President, American Association of Advertising Agencies

This is a must-read for any marketing executive involved in online advertising. It's high time that a book looks at online advertising in the context of an integrative promotional strategy, one meant to set objectives, establish creative strategies, and measure results. The book nicely ties the various components of online advertising to relevant case studies, and the emphasis on measurement and results is refreshing. Not only is it relevant for marketing executives, it would also be a good basic text for any Internet advertising course and a good adjunct to any Internet marketing course. –Henry Assael, Professor of Marketing, Stern
