Schoolgirls Peggy Orenstein,2013-02-06 A NEW YORK TIMES NOTABLE BOOK OF THE YEAR When Peggy Orenstein's now-classic examination of young girls and self-esteem was first published, it set off a groundswell that continues to this day. Inspired by an American Association of University Women survey that showed a steep decline in confidence as girls reach adolescence, Orenstein set out to explore the obstacles girls face--in school, in the home, and in our culture. For this intimate, girls' eye view of the world, Orenstein spent months observing and interviewing eighth-graders from two ethnically disparate communities, seeking to discover what was causing girls to fall into traditional patterns of self-censorship and self-doubt. By taking us into the lives of real young women who are struggling with eating disorders, sexual harassment, and declining academic achievement, Orenstein brings the disturbing statistics to life with the skill and flair of an experienced journalist. Uncovering the adolescent roots of issues that remain important to American women throughout their lives, this groundbreaking book challenges us to change the way we raise and educate girls.

Condensed Matter Theories S. Fantoni,S. Rosati,2012-12-06 The XIV International Workshop on Condensed Matter Theories has been held at the Elba International Physics Center (EIPC), Marciana Marina, Isola d'Elba, Italy, from 18-23 June, 1990. The Workshop started in 1977 in Sao Paulo, Brazil, as the 1st Pan American Workshop on Condensed Matter Theories, with the purpose of bringing together scientists from the Western countries, working in many different topics of Condensed Matter Theories, to facilitate exchanges of ideas and technologies from different areas as well as collaborations among the scientists. The next five Workshops were held at Trieste, Italy (1978), in Buenos Aires, Argentina (1979), in Caracas, Venezuela (1980), in Mexico City, Mexico (1981) and in St. Louis, Missouri, U. S. A. (1982). Given the international dimension reached by the Workshop, it was decided to extend it into an International Workshop, which was held for the first time in Altenberg, Germany (1983). The next editions took place in Granada, Spain (1984), San Francisco, California, U. S. A. (1985), Argonne, Illinois, U. S. A. (1986), Oulu, Finland (1987), Taxco, Mexico (1988) and Campos do Jordao, Brasil (1989). Many scientists have contributed to the development of the various editions of the Workshop. However, a particular mention has to be made to Profs. Manuel de Llano and Angel Plastino who initially proposed the Workshop and carried it forward, and to Prof. J . W. Clark, whose efforts have been of immense help to its recent developments.

Becoming Lincoln William W. Freehling,2018-09-25 Shortlisted for the 2018 Lincoln Prize Previous biographies of Abraham Lincoln—universally acknowledged as one of America’s greatest presidents—have typically focused on his experiences in the White House. In *Becoming Lincoln*, renowned historian William Freehling instead emphasizes the prewar years, revealing how Lincoln came to be the extraordinary leader who would guide the nation through its most bitter chapter. Freehling’s engaging narrative focuses anew on Lincoln’s journey. The epic highlights Lincoln’s difficult family life, first with his father and later with his wife. We learn about the staggering number of setbacks and recoveries Lincoln experienced. We witness Lincoln’s famous embodiment of the self-made man (although he sought and received critical help from others). The book traces Lincoln from his tough childhood through incarnations as a bankrupt with few prospects, a superb lawyer, a canny two-party politician, a great orator, a failed state legislator, and a losing senatorial candidate, to a winning presidential contender and a besieged six weeks as a pre-war president. As Lincoln’s individual life unfolds, so does the American nineteenth century. Few great Americans have endured such pain but been rewarded with such success. Few lives have seen so much color and drama. Few mirror so uncannily the great themes of their own society. No one so well illustrates the emergence of our national economy and the causes of the Civil War. The book concludes with a substantial epilogue in which Freehling turns to Lincoln’s wartime presidency to assess how the preceding fifty-one years of experience shaped the Great Emancipator’s final four years. Extensively illustrated, nuanced but swiftly paced, and full of examples that vividly bring Lincoln to life for the modern reader, this new biography shows how an ordinary young man from the Midwest prepared to become, against almost absurd odds, our most tested and successful president.

Missing Joseph Elizabeth George, 2008-04-15 Deborah and Simon St. James have taken a holiday in the winter landscape of Lancashire, hoping to heal the growing rift in their marriage. But in the barren countryside awaits bleak news: The vicar of Wimsloagh, the man they had come to see, is dead—a victim of accidental poisoning. Unsatisfied with the inquest ruling and unsettled by the close association between the investigating constable and the woman who served the deadly meal, Simon calls in his old friend Detective Inspector Thomas Lynley. Together they uncover dark, complex relationships in this rural village, relationships that bring men and women together with a passion, with grief, or with the intention to kill. Peeling away layer after layer of personal history to reveal the torment of a fugitive spirit, *Missing Joseph* is award-winning author Elizabeth George's greatest achievement.

The Future of Nursing 2020-2030 National Academies of Sciences Engineering and Medicine, Committee on the Future of Nursing 2020-2030, 2021-09-30 The decade ahead will test the nation's nearly 4 million nurses in new and complex ways. Nurses live and work at the intersection of health, education, and communities. Nurses work in a wide array of settings and practice at a range of professional levels. They are often the first and most frequent line of contact with people of all backgrounds and experiences seeking care and they represent the largest of the health care professions. A nation cannot fully thrive until everyone - no matter who they are, where they live, or how much money they make - can live their healthiest possible life, and helping people live their healthiest life is and has always been the essential role of nurses. Nurses have a critical role to play in achieving the goal of health equity, but they need robust education, supportive work environments, and autonomy. Accordingly, at the request of the Robert Wood Johnson Foundation, on behalf of the National Academy of Medicine, an ad hoc committee under the auspices of the National Academies of Sciences, Engineering, and Medicine conducted a study aimed at envisioning and charting a path forward for the nursing profession to help reduce inequities in people's ability to achieve their full health potential. The ultimate goal is the achievement of health equity in the United States built on strengthened nursing capacity and expertise. By leveraging these attributes, nursing will help to create and contribute comprehensively to equitable public health and health care systems that are designed to work for everyone. *The Future of Nursing 2020-2030: Charting a Path to Achieve Health Equity* explores how nurses can work to reduce health disparities and promote equity, while keeping costs at bay, utilizing technology, and maintaining patient and family-focused care into 2030. This work builds on the foundation set out by *The Future of Nursing: Leading Change, Advancing Health* (2011) report.
