Globalisation and Labour Ronaldo Munck, 2002-07 Intellectual fashion likes to see us as consumers, but the world of production and services still needs workers. Globalization has been driven by the transnational corporations search for cheap labour, but little attention has been paid to the consequent changes in the world of work. Ronaldo Munck argues that the national period in labour history is decisively over.

Earth's Climate Response to a Changing Sun Katja Matthes, Thierry Dudok de Wit, Jean Lilensten, 2021 For centuries, scientists have been fascinated by the role of the Sun in the Earth's climate system. Recent discoveries, outlined in this book, have gradually unveiled a complex picture, in which our variable Sun affects the climate variability via a number of subtle pathways, the implications of which are only now becoming clear. This handbook provides the scientifically curious, from undergraduate students to policy makers with a complete and accessible panorama of our present understanding of the Sun-climate connection. 61 experts from different communities have contributed to it, which reflects the highly multidisciplinary nature of this topic. The handbook is organised as a mosaic of short chapters, each of which addresses a specific aspect, and can be read independently. The reader will learn about the assumptions, the data, the models, and the unknowns behind each mechanism by which solar variability may impact climate variability. None of these mechanisms can adequately explain global warming observed since the 1950s. However, several of them do impact climate variability, in particular on a regional level. This handbook aims at addressing these issues in a factual way, and thereby challenge the reader to sharpen his/her critical thinking in a debate that is frequently distorted by unfounded claims.

Sport, Culture and Society Grant Jarvie, 2006-04-18 This exciting, accessible introduction to the field of Sports Studies is the most comprehensive guide yet to the relationships between sport, culture and society. Taking an international perspective, Sport, Culture and Society provides students with the insight they need to think critically about the nature of sport, and includes: a clear and comprehensive structure unrivalled coverage of the history, culture, media, sociology, politics and anthropology of sport coverage of core topics and emerging areas extensive original research and new case study material. The book offers a full range of features to help guide students and lecturers, including essay topics, seminar questions, key definitions, extracts from primary sources, extensive case studies, and guides to further reading. Sport, Culture and Society represents both an important course resource for students of sport and also sets a new agenda for the social scientific study of sport.

The Myths We Live By Mary Midgley, 2011-04 With a new Introduction by the author 'An elegant and sane little book. – The New Statesman Myths, as Mary Midgley argues in this powerful book, are everywhere. In political thought they sit at the heart of theories of human nature and the social contract; in economics in the pursuit of self interest; and in science the idea of human beings as machines, which originates in the seventeenth century, is a today a potent force. Far from being the opposite of science, however, Midgley argues that myth is a central

part of it. Myths are neither lies nor mere stories but a network of powerful symbols for interpreting the world. Tackling a dazzling array of subjects such as philosophy, evolutionary psychology, animals, consciousness and the environment in her customary razor-sharp prose, *The Myths We Live By* reminds us of the powerful role of symbolism and the need to take our imaginative life seriously. Mary Midgley is a moral philosopher and the author of many books including *Wickedness*, *Evolution as a Religion*, *Beast and Man* and *Science and Poetry*. All are published in Routledge Classics.

Trap Door Reina Gossett, Eric A. Stanley, Johanna Burton, 2017-12-15 Essays, conversations, and archival investigations explore the paradoxes, limitations, and social ramifications of trans representation within contemporary culture. The increasing representation of trans identity throughout art and popular culture in recent years has been nothing if not paradoxical. Trans visibility is touted as a sign of a liberal society, but it has coincided with a political moment marked both by heightened violence against trans people (especially trans women of color) and by the suppression of trans rights under civil law. *Trap Door* grapples with these contradictions. The essays, conversations, and dossiers gathered here delve into themes as wide-ranging yet interconnected as beauty, performativity, activism, and police brutality. Collectively, they attest to how trans people are frequently offered “doors”—entrances to visibility and recognition—that are actually “traps,” accommodating trans bodies and communities only insofar as they cooperate with dominant norms. The volume speculates about a third term, perhaps uniquely suited for our time: the trapdoor, neither entrance nor exit, but a secret passageway leading elsewhere. *Trap Door* begins a conversation that extends through and beyond trans culture, showing how these issues have relevance for anyone invested in the ethics of visual culture. Discourse in Action Rodney H Jones, Sigrid Norris, 2005-09-21 From emails relating to adoption over the Internet to discussions in the airline cockpit, the spoken or written texts we produce can have significant social consequences. The area of Mediated Discourse Analysis considers texts in their social and cultural contexts to explore the actions individuals take with texts - and the consequences of those actions. *Discourse in Action*: brings together leading scholars from around the world in the area of Mediated Discourse Analysis reveals ways in which its theory and methodology can be used in research into contemporary social situations explores real situations and draws on real data in each chapter shows how analysis of texts in their social contexts broadens our understanding of the real world. Taken together, the chapters provide a comprehensive overview to the field and present a range of current studies that address some of the most important questions facing students and researchers in linguistics, education, communication studies and other fields.

One for the Road Bjørn Christian Tørrissen, 2008-11-10 Building on experience from 60 countries worth of independent travel, the author takes you on three journeys to places you may never have considered visiting, although you probably should and you definitely could. Learn about a low-budget cruise to Antarctica, understand what the Trans-Siberian Railway really is like, enjoy the natural wonders of Southern Africa. The book is a fun read, but you will also learn about far-away destinations and about how to travel independently anywhere. It's not a travel guide or a travel journal, it's both! More details, including free downloads, available from <http://bjornfree.com/>

Recent Advances in Natural Language Processing Ruslan Mitkov, Nicolas Nicolov, 1997-01-01 This volume is based on contributions from the First International Conference on [Recent Advances in Natural Language Processing] (RANLP'95) held in Tzigrich Chark, Bulgaria, 14-16 September 1995. This conference was one of the most important and competitively reviewed conferences in Natural Language Processing (NLP) for 1995 with submissions from more than 30 countries. Of the 48 papers presented at RANLP'95, the best (revised) papers have been selected for this book, in the hope that they reflect the most significant and promising trends (and latest successful results) in NLP. The book is organised thematically and the contributions are grouped according to the traditional topics found in NLP: morphology, syntax, grammars, parsing, semantics, discourse, grammars, generation, machine translation, corpus processing and multimedia. To help the reader find his/her way, the authors have prepared an extensive index which contains major terms used in NLP; an index of authors which lists the names of the authors and the page numbers of their paper(s); a list of figures; and a list of tables. This book will be of interest to researchers, lecturers and graduate students interested in Natural Language Processing and more specifically to those who work in Computational Linguistics, Corpus Linguistics and Machine Translation.

Global Nomads Anthony D'Andrea, 2007-01-24 Global Nomads provides a unique introduction to the globalization of countercultures, a topic largely unknown in and outside academia. Anthony D'Andrea examines the social life of mobile expatriates who live within a global circuit of countercultural practice in paradoxical paradises. Based on nomadic fieldwork across Spain and India, the study analyzes how and why these post-metropolitan subjects reject the homeland in order to shape an alternative lifestyle. They become artists, therapists, exotic traders and bohemian workers seeking to integrate labor, mobility and spirituality within a cosmopolitan culture of expressive individualism. These countercultural formations, however, unfold under neo-liberal regimes that appropriate utopian spaces, practices and imaginaries as commodities for tourism, entertainment and media consumption. In order to understand the paradoxical globalization of countercultures, Global Nomads develops a dialogue between global and critical studies by introducing the concept of 'neo-nomadism' which seeks to overcome some of the shortcomings in studies of globalization. This book is an essential aide for undergraduate, postgraduate and research students of Sociology, Anthropology of Globalization, Cultural Studies and Tourism Studies.

Highway-rail Grade Crossing Surfaces Hoy A. Richards, 1998 This synthesis will be of interest to state and local highway personnel who are responsible for the design, construction, and maintenance of road surfaces and to

railroad personnel with similar responsibilities associated with highway-rail grade crossings. It will also be of interest to manufacturers and suppliers of pavement and track materials for crossings. It presents information on the current practices related to highway-rail grade crossing surfaces, including the design and selection of crossing surface materials. This report of the Transportation Research Board describes the various types of highway- rail crossing surfaces, and the issues related to design, operation, and maintenance. Design elements include intersection geometry; drainage; special users, such as bicyclists; and descriptions of failures and their causes. Information is presented on crossing material selection factors, including life-cycle costs and on state practices in selection. Funding issues are also discussed.

The Coming Collapse of China Gordon G. Chang, 2001-09-15 China is hot. The world sees a glorious future for this sleeping giant, three times larger than the United States, predicting it will blossom into the world's biggest economy by 2010. According to Chang, however, a Chinese-American lawyer and China specialist, the People's Republic is a paper dragon. Peer beneath the veneer of modernization since Mao's death, and the symptoms of decay are everywhere: Deflation grips the economy, state-owned enterprises are failing, banks are hopelessly insolvent, foreign investment continues to decline, and Communist party corruption eats away at the fabric of society. Beijing's cautious reforms have left the country stuck midway between communism and capitalism, Chang writes. With its impending World Trade Organization membership, for the first time China will be forced to open itself to foreign competition, which will shake the country to its foundations. Economic failure will be followed by government collapse. Covering subjects from party politics to the Falun Gong to the government's insupportable position on Taiwan, Chang presents a thorough and very chilling overview of China's present and not-so-distant future.

Shut Up and Listen! Tilman Fertitta, 2019-09-17 *Shut Up and Listen!* is a true leadership roadmap to the summit of career success and satisfaction, featuring concise principles for entrepreneurs and business leaders at any level. Tilman Fertitta, also known as the Billion Dollar Buyer, started his hospitality empire thirty years ago with just one restaurant. Over the years, he's stayed true to the principles that helped him build the largest single-shareholder company in America, with over \$4 billion in revenue, including hundreds of restaurants (Landry's Seafood, Bubba Gump Shrimp Company, Morton's Steakhouse, Mastro's, Rainforest Café, and over forty more restaurant concepts) and five Golden Nugget Casinos. He's also sole owner of the NBA's Houston Rockets. This book shares the key insights that made it all possible. In *Shut Up and Listen!*, Fertitta shares straight-talk "Tilmanisms" around six key action items that any entrepreneur can adopt today: Be the Bull No Spare Customers Change, Change, Change Know Your Numbers Follow the 95/5 Rule Take No Out of Your Vocabulary For aspiring entrepreneurs or people in business, this guide will help you take your company to the next level. When you put this book down, you'll know what you're doing right and what you're doing wrong to operate your business, and if you're just getting started, it will help set you up for success. A groundbreaking, no-holds-barred book, *Shut Up and Listen!* offers practical, hard-earned wisdom from one of the most successful business owners in the world.

Using Econometrics A. H. Studenmund, Henry J. Cassidy, 1997 A. H. Studenmund's practical introduction to econometrics combines single-equation linear regression analysis with real-world examples and exercises. *Using Econometrics: A Practical Guide* provides a thorough introduction to econometrics that avoids complex matrix algebra and calculus, making it the ideal text for the beginning econometrics student, the regression user looking for a refresher or the experienced practitioner seeking a convenient reference.--BOOK JACKET.

Heterotopia and the City Michiel Dehaene, Lieven De Cauter, 2008-05-15 Heterotopia, literally meaning 'other place', is a rich concept in urban design that describes a space that is on the margins of ordered or civil society, and one that possesses multiple, fragmented or even incompatible meanings. The term has had an impact on architectural and urban theory since it was coined by Foucault in the late 1960s but it has remained a source of confusion and debate since. *Heterotopia and the City* seeks to clarify this concept and investigates the heterotopias which exist throughout our contemporary world: in museums, theme parks, malls, holiday resorts, gated communities, wellness hotels and festival markets. With theoretical contributions on the concept of heterotopia, including a new translation of Foucault's influential 1967 text, *Of Other Space* and essays by well-known scholars, the book comprises a series of critical case studies, from Beaubourg to Bilbao, which probe a range of (post)urban transformations and which redirect the debate on the privatization of public space. Wastelands and terrains vagues are studied in detail in a section on urban activism and transgression and the reader gets a glimpse of the extremes of our dualized, postcivil condition through case studies on Jakarta, Dubai, and Kinshasa. *Heterotopia and the City* provides a collective effort to reposition heterotopia as a crucial concept for contemporary urban theory. The book will be of interest to all those wishing to understand the city in the emerging postcivil society and post-historical era. Planners, architects, cultural theorists, urbanists and academics will find this a valuable contribution to current critical argument.

Mobile Technologies of the City Mimi Sheller, John Urry, 2006-04-18 Mobile communications technologies are taking off across the world, while urban transportation and surveillance systems are also being rebuilt and updated. Emergent practices of physical, informational and communicational mobility are reconfiguring patterns of movement, co-presence, social exclusion and security across many urban contexts. This book brings together a carefully selected group of innovative case studies of these mobile technologies of the city, tracing the emergence of both new socio-technical practices of the city and of a new theoretical paradigm for mobilities research.

Mobile Interfaces in Public Spaces Adriana de Souza e Silva, Jordan Frith, 2012-04-23 Mobile phones are no longer what they used to be. Not only can users connect to the Internet anywhere and anytime, they can also use their devices to map their precise geographic coordinates – and access location-specific information like restaurant reviews, historical information, and locations of other people nearby. The proliferation of location-aware mobile technologies calls for a new understanding of how we define public spaces, how we deal with locational privacy, and how networks of power are developed today. In *Mobile Interfaces in Public Spaces*, Adriana de Souza E. Silva and Jordan Frith examine these social and spatial changes by framing the development of location-aware technology within the context of other mobile and portable technologies such as the book, the Walkman, the iPod, and the mobile phone. These technologies work as interfaces to public spaces – that is, as symbolic systems that not only filter information but also reshape communication relationships and the environment in which social interaction takes place. Yet rather than detaching people from their surroundings, the authors suggest that location-aware technologies may ultimately strengthen our connections to locations.
