Sweating Bullets Robert Gaskins,2012-04-20 PowerPoint was the first presentation software designed for Macintosh and Windows, received the first venture capital investment ever made by Apple, then became the first significant acquisition ever made by Microsoft, who set up a new Graphics Business Unit in Silicon Valley to develop it further. Now, twenty-five years later, PowerPoint is installed on more than one billion computers, worldwide. In this book, Robert Gaskins (who invented the idea, managed its design and development, and then headed the new Microsoft group) tells the story of its first years, recounting the perils and disasters narrowly evaded as a startup, dissecting the complexities of being the first distant development group in Microsoft, and explaining decisions and insights that enabled PowerPoint to become a lasting success well beyond its original business uses.

Bedsit Disco Queen Tracey Thorn,2013-02-07 I was only sixteen when I bought an electric guitar and joined a band. A year later, I formed an all-girl band called the

Marine Girls and played gigs, and signed to an indie label, and started releasing records. Then, for eighteen years, between 1982 and 2000, I was one half of the group Everything But the Girl. In that time, we released nine albums and sold nine million records. We went on countless tours, had hit singles and flop singles, were reviewed and interviewed to within an inch of our lives. I've been in the charts, out of them, back in. I've seen myself described as an indie darling, a middle-of-the-road nobody and a disco diva. I haven't always fitted in, you see, and that's made me face up to the realities of a pop career – there are thrills and wonders to be experienced, yes, but also moments of doubt, mistakes, violent lifestyle changes from luxury to squalor and back again, sometimes within minutes.
