**Napkin Finance** Tina Hay, 2019-12-30 WALL STREET JOURNAL BESTSELLER “An incredible, compelling read. It covers an astonishing amount of ground with basic simplicity and good humor. A masterful starting point for any investor. Tina Hay is a wizard.”—Ben Stein, economist, author, actor and commentator A handy crash course in personal finance, Napkin Finance is the groundbreaking guide everyone needs to help them manage their money and feel more secure. Surveys have found that two thirds of Americans can’t pass a basic financial literacy test, and nine in ten believe personal finance should become a required high school course. Tina Hay understands the confusion. While attending Harvard Business School, she struggled to keep up with classmates—many of whom came from the banking world—when it came to understanding jargon and numbers-heavy concepts. Tina developed a visual learning strategy using sketches and infographics that helped her succeed in her studies and master even the most complex financial topics. Since then, Tina founded Napkin

Finance, a thriving company built on the concept of taking seemingly overwhelming topics—such as budgeting, investments, and retirement accounts—and turning them into simple, skimmable explanations. Now, she’s synthesized the most important content into this personal finance handbook. Napkin Finance includes dozens of individual learning modules, on topics ranging from credit scores to paying off student loans to economics and blockchain. The first illustrated guide that makes finance fun and accessible, Napkin Finance can help even the most numbers-phobic reader learn about complex financial topics without dying of boredom.

successful weight loss journey, financial planner Shannon McLay realized that while there are a number of resources available to people who want to become physically fit, there are far fewer for those looking to become financially fit. Many personal finance books tend to put the cart before the horse when it comes to financial planning, prompting McLay to ask, "How can you discuss retirement or investment options, when you don't have any money to begin with? Most people don't even know what financial fitness looks like, let alone how to achieve it. We can measure and weigh ourselves to quantify physical health, but how do we evaluate our financial health? McLay, an advisor who works with individuals everyday on their financial health, has created an innovative quiz to help you learn whether you're "financially skinny," financially fat," or "financially fit." From there, she provides exercises and advice to help you achieve, or sustain, a financially fit lifestyle. As with physical health and fitness, financial fitness is a goal that anyone can achieve. The journey is very similar: you need a plan and the right tools to accomplish your goals. This book will give you the resources you need along your journey to financial fitness, all you have to do is follow it just like any other training.
