📖 **Personal Finances** Larry Burkett,1998-08-01 Do I really need a budget? How can I get out of debt? Should I give my kids an allowance? Should Christians lend money and charge interest? These questions and many others were often asked of respected Christian financial counselor Larry Burkett. To answer them in a direct and brief way and help you discover the way to financial wisdom, Larry wrote Personal Finances. To build a sturdy house, a builder needs a blueprint. To find his way, a traveler needs a map. And to manage your finances correctly, you need a budget. Without a plan, the house will collapse, the traveler will get lost, and your finances will eventually fail. Get on board with the basics of wise financial planning. 📖 **You and Your Money** Henry E. Riggs,2013-03-19 This book addresses the very many considerations persons face in handling their income, savings, investing, borrowing, protecting against risks, and tax planning. Somewhat surprisingly our educational system, at the high school level and beyond, rarely addresses this myriad of issues both problems and opportunities -- that can be categorized as personal finances. Our schools lecture ceaselessly about the challenges of drugs, sex, alcohol, smoking, social media and wellness -- and appropriately so, since young people are exposed to endless opportunities to make poor and harmful decisions regarding each of those matters. But so also are adults at all ages teenagers to senior citizens confronted by a host of challenges and opportunities as to how to manage their personal finances -- from before they receive their first paychecks and continuing on through retirement and death. As we proceed through high school, college, and even graduate school, we may take courses in accounting, finance, economics, and taxation, all of which offer tidbits of advice on handling our personal finances, but none are comprehensive in addressing personal finance. This book seeks to fill that void.

📖 **The Personal Finance Cookbook** Nick Meyer,2024-01-31 A fun and straightforward approach to learning personal finance and budgeting In The Personal Finance Cookbook, Certified Financial Planner™ certificant and celebrated social media creator Nick Meyer delivers a fun and engaging toolkit for a variety of personal finance tasks, including budgeting, investing, and buying a house. In the book, you'll find a cookbook-style collection of "recipes" detailing the steps you need to take to complete various common and important money-related tasks. You'll learn how to avoid the "paralysis by analysis" that often traps people into doing very little about their personal finances before it's too late. You'll also discover how to take meaningful, concrete steps toward change and positive action. The book includes: Strategies for household budgeting and how to start investing your money The best ways to start saving for your first home and your first car The steps you should take before and while applying for your first credit card and strategies for building your credit rating An invaluable resource for young families, new professionals just beginning their career journeys, and people starting to get ready for retirement, The Personal Finance Cookbook is the perfect book for everyone hoping to get a strong grip of their money situation once and for all.
