Informer 001 Yuri Druzhnikov, 2017-07-12 When Russia was in the throes of Joseph Stalin's campaign for the forced collectivization of Soviet agriculture, a young boy named Pavlik Morozov informed the OGPU (later called the KGB) that his father was an enemy of the regime. As a result, Pavlik's father was arrested and disappeared in a Soviet concentration camp. Enemies of the party later killed the boy, whereupon people proclaimed him a hero. After that, Pavlik Morozov's glory surpassed the fame of many Russian heroes. Hundreds of works have been published about the boy in various genres; his portrait has graced galleries, postcards, and postage stamps; ships and libraries have been dedicated in his honor. Informer 001 is the first independent study of the Morozov affair. Yuri Druzhnikov examined documents, visited museums, and interviewed everyone who knew Morozov during his short lifetime. In book after book, he discovered inconsistencies in every fact, from where Morozov was born to how old he was at the time of his death. As Druzhnikov pieced together the story about Morozov's life, death, and legacy, it became clear that the campaign to keep Morozov a hero was centrally directed. Informer hero number 001 remained a fearful reminder to all; to those who inform, and those who become the victims of denunciations. Informer 001 offers Western readers a unique glimpse into the behind-the-scenes operations of Soviet political history and will be fascinating for the general public, as well as for sociologists, historians, and Russian studies

specialists.

Informer 001 ¹

¹, 1997-01-01 Informer 001 is the first exhaustive, secret, independent study of the Morozov affair and is Yuri Druzhnikov's search for the truth about his life, death, and the perpetuation of his legacy. Druzhnikov examined documents, visited museums, and interviewed virtually everyone who knew Morozov during his short lifetime. In book after book, he discovered inconsistencies in every fact, from where Morozov was born to how old he was at the time of his death. Photographs of the hero, when compared, turned out to be of different people. Historical archives contained no documents of Morozov. Memorial museums displayed no personal relics; instead they contained pictures, books, and newspaper clippings. Attempts by Druzhnikov to interview living witnesses were met with resistance - he was even followed constantly. The subject of Pavlik Morozov was officially untouchable..

The Law Officer's Pocket Manual John G. Miles Jr., David B. Richardson, Anthony E. Scudellari, 2022-01-31 The Law Officer's Pocket Manual is a handy, pocket-sized, spiral-bound manual that highlights basic legal rules for quick reference and offers examples showing how those rules are applied. The manual provides concise guidance based on U.S. Supreme Court rulings on constitutional law issues and other legal

developments, covering arrest, search, surveillance, and other routine as well as sensitive areas of law enforcement. It includes more than 100 examples drawn from leading cases to provide guidance on how to act in a wide variety of situations. Some new material in the 2022 Edition: In a unanimous ruling, the U.S. Supreme Court curbed warrantless home entries. The court said that police can't automatically pursue fleeing misdemeanor suspects into a residence without a warrant. Whether exigent circumstances exist depends on the particular facts of each case. In another case, the high court ruled that when a police officer applies force to a suspect's body with intent to restrain, this is a seizure under the Fourth Amendment. The Supreme Court, in a unanimous ruling, bolstered home protections. It ruled that the community caretaking exception to the Fourth Amendment's warrant requirement doesn't extend to the home. The U.S. Supreme Court, in a unanimous decision, untangled some jurisdictional issues involving Native American, state, and federal enforcement officials. The court bolstered the authority of tribal police over non-American Indians traveling on public roads through reservations. In a pair of cases, the Court reinforced the court-made doctrine of qualified immunity. In both cases the high court said the law was not so clearly established as to allow litigation against the officers to move forward. In a civil rights case, the court sent the case back to the circuit court to determine if the suit can move forward.

The Stasi Files Unveiled Barbara Miller, 2022-01-26 In 1992 the massive files of East Germany's infamous Ministry for State Security, the Stasi, were made publicly available and thousands of former East Germans began to confront their contents. Finally it was possible for ordinary citizens to ascertain who had worked for the Stasi, either on a full-time basis or as an unofficial employee, the Stasi's term for an informer. The revelations from these documents sparked feuds old and new among a population already struggling through enormous social and political upheaval. Drawing upon the Stasi files and upon interviews with one-time informers, this book examines the impact of the Stasi legacy in united Germany. Barbara Miller examines such aspects of the informer's experience as: the recruitment procedure; daily life and work; motivation and justification. She goes on to consider the dealings of politicians and the courts with the Stasi and its employees. Her analysis then turns to the way in which this aspect of recent German history has been remembered, and the phenomenal impact of the opening of the files on such perceptions of the past. *The Stasi Files Unveiled: Guilt and Compliance in a Unified Germany* offers important new perspectives on the nature of individual and collective memory and is a fascinating investigation of modern German society. Barbara Miller graduated from the University of Glasgow in 1991 with a degree in German and psychology. She taught and researched in Germany and Austria

before completing her doctoral thesis in Glasgow in 1997. She is now based in Sydney, Australia.

Marginal Spaces and Cultures of Dissent in Socialist Romania's Black Sea Ruxandra-Iuliana Canache, 2023-09-05 This book analyzes two Romanian villages – 2 Mai and Vama Veche – as spaces of relative freedom during the last decades of socialist rule. This microhistorical study refutes simplistic views of the communist past which focus on political figures and events, and instead explores ordinary people and everyday life. Taking a multidisciplinary approach, it considers a broad range of sources, including official Communist Party documents, secret police files, personal memoirs, oral history interviews, ethnographic films, songs, and artistic performances. This book intertwines three narrative threads: that of the visitors (mainly members of the Romanian intelligentsia, young people, and hippies); that of the local inhabitants; and that of 'authority' (local and central state agents actively engaged in surveillance and supervision). In doing so, it interrogates the spectrum of consent/dissent and resistance/collaboration hitherto neglected in scholarship.

Informers Roger Billingsley, Teresa Nemitz, Philip Bean, 2013-01-11 The police rely heavily on paid and unpaid informers: without them clear-up rates would plummet, and many crimes would remain undetected. Yet little is known about the informer system and how it works, for example: who are these informers? how are they recruited? how are they handled? who handles them? what sort of information do they provide? Recent high profile

cases have drawn attention to the use of informers, there has been a growing debate about the subject, and many feel that stricter controls are needed - but how is this to be achieved without undermining the effectiveness of the system? This is the first book of its kind on informers in Britain, providing an invaluable source of information and analysis from key authorities in the field.

Model Jury Instructions in Criminal Antitrust Cases, 2009 Recently, the profile of criminal antitrust matters has changed dramatically. In many ways, this area of antitrust practice has changed more than any other. This book presents a complete treatment of model jury instructions in the complex area of criminal antitrust law. Compatibility of Transactional Resolutions of Antitrust Proceedings with Due Process and Fundamental Rights & Online Exhaustion of IP Rights Bruce Kilpatrick, Pierre Kobel, Pranvera Këllezi, 2016-06-08 This book provides an unparalleled comparative analysis of two hot topics in the field of antitrust and unfair competition laws with regard to a number of key countries. The first part of the book examines the consistency and compatibility of transactional resolutions of antitrust proceedings (such as settlement procedures, leniency programmes and

commitments) with due process and the fundamental rights of the parties. This is a particularly important topic, given the widespread adoption of these procedures by anti-trust authorities worldwide. The individual chapters consider how the leniency, settlement and commitments procedures have developed across a range of jurisdictions, and discuss the extent to which checks and balances have been applied in those national procedures in order to safeguard the fundamental rights of the parties involved. A detailed international report identifies general trends and highlights the differences between and most interesting features of national regulations. The second part of the book gathers contributions from various jurisdictions on the unfair competition-related question of the online exhaustion of IP rights. As commerce is increasingly moving online, the respective chapters consider the extent to which exhaustion and similar concepts have adapted to these rapid changes. The comprehensive and insightful international report brings together these reflections by comparing various national positions. The book also includes the resolutions passed by the General Assembly of the LIDC following a debate on each of these topics, which include proposed solutions and recommendations. The international League of Competition Law (LIDC) is a long-standing international association that focuses on the interface between competition law and intellectual property law, including unfair competition issues.
