Surgery for Sleep Disordered Breathing Karl Hörmann,Thomas Verse,2010-03-01 Nasal continuous positive airway pressure ventilation is the gold standard in the treatment of obstructive sleep apnea. Long-term compliance rates are about 60%. Therefore, several alternative treatment options are of special interest. Beside conservative therapies, various surgical concepts exist. The field of surgery for sleep disordered breathing has rapidly grown with new instrumentation and surgical techniques in the last 10 years. Surgeons in these fields have to attend scientific meetings, participate in workshops, and read the literature to stay up to date. In our sleep laboratories we conduct 30 polysomnographies each night. Each year, we perform almost 1,000 surgical procedures for sleep disordered breathing apart from numerous other conservative and apparative treatment modalities. Referring to our experience and the present literature, we tried to give new information on surgical techniques in this second edition. The chapters are grouped in different anatomical fields of interest. We wanted to give general advice and specific new hints for the surgery of sleep disordered breathing so that the reader learns basic techniques followed by more advanced surgery. In addition to the illustrated surgical descriptions, the chapters contain informations about indications and contraindications of each surgical procedure and the postoperative care. Special interest has been dedicated to evidence-based medicine. So in each chapter, there is a table of references summarizing the effectiveness of the procedure and EBM grade.

The Deep Dark Descending Allen Eskens,2017-10-03 A homicide detective hunts down his wife's killers while struggling between his thirst for revenge and a twinge of conscience forbidding him to take the law into his own hands. Homicide Detective Max Rupert never fully accepted his wife's death, even when he believed that a reckless hit-and-run driver was to blame. Haunted by memories both beautiful and painful, he is plagued by feelings of unfinished business. When Max learns that, in fact, Jenni was murdered, he must come to terms with this new information—and determine what to do with it. Struggling to balance his impulses as a vengeful husband with his obligations as a law enforcement officer, Max devotes himself to relentlessly hunting down those responsible. For most of his life, he has thought of himself as a decent man. But now he's so consumed with anguish and thoughts of retribution that he finds himself on the edge, questioning who he is and what he stands for. On a frozen lake at the US–Canadian border, he wrestles with decisions that could change his life forever, as his rage threatens to turn him into the kind of person he has spent his entire career bringing to justice.

Weapons of Mass Instruction John Taylor Gatto,2010-04-01 The transformation of schooling from a twelve-year jail sentence to freedom to learn. John Taylor Gatto's *Weapons of Mass Instruction* , now available in paperback, focuses on mechanisms of traditional education which cripple imagination, discourage critical thinking, and create a false view of learning as a byproduct of rote-memorization drills. Gatto's earlier book, *Dumbing Us Down* , introduced the now-famous expression of the title into the common vernacular. *Weapons of Mass Instruction* adds another chilling metaphor to the brief against conventional schooling. Gatto demonstrates that the harm school inflicts is rational and deliberate. The real function of pedagogy, he argues, is to render the common population manageable. To that end, young people must be conditioned to rely upon experts, to remain divided from natural alliances and to accept disconnections from their own lived experiences. They must at all costs be discouraged from developing self-reliance and independence. Escaping this trap requires a strategy Gatto calls open source learning which imposes no artificial divisions between learning and life. Through this alternative approach our children can avoid being indoctrinated-only then can they achieve self-knowledge, good judgment, and courage.
