Classic Home Video Games, 1972–1984 Brett Weiss,2011-12-20 This reference work provides a comprehensive guide to popular and obscure video games of the 1970s and early 1980s, covering virtually every official United States release for programmable home game consoles of the pre-Nintendo NES era. Included are the following systems: Adventure Vision, APF MP1000, Arcadia 2001, Astrocade, Atari 2600, Atari 5200, Atari 7800, ColecoVision, Fairchild Channel F, Intellivision, Microvision, Odyssey, Odyssey2, RCA Studio II, Telstar Arcade, and Vectrex. Organized alphabetically by console brand, each chapter includes a history and description of the game system, followed by substantive entries for every game released for that console, regardless of when the game was produced. Each video game entry includes publisher/developer information and the release year, along with a detailed description and, frequently, the author's critique. An appendix lists "homebrew" titles that have been created by fans and amateur programmers and are available for download or purchase. Includes glossary, bibliography and index.

Adventure: The Atari 2600 at the Dawn of Console Gaming Jamie Lendino,2018-06-04 The sprawl of Adventure. The addictiveness of Breakout. The intensity of Space Invaders. Once upon a time, you could only experience this kind of excitement at the arcade. But in 1977 that changed forever. You, and maybe a friend or a sibling, could instantly teleport from your own living room to a dazzling new world—with nothing more than a small plastic cartridge. This was the promise of the Atari 2600—and it was delivered in ways no one ever expected. No, the games it put on your TV weren't what you saw when you plunked in your quarters at the convenience store or in the noisy, smoky business on the other side of town. But they brought the arcade home—and it hasn't left since. With *Adventure: The Atari 2600 at the Dawn of Console Gaming*, Jamie Lendino takes you to the front lines of the home gaming revolution, exploring the history of the world-changing console and delves into the coin-op ports and original titles that still influence gaming today. Before your next trip to a magical universe with your Xbox One, PlayStation 4, or Nintendo Switch, see how the home gaming industry truly began.

Set Your Phaser to Stun Steve Pearse,2011-08-22 Book Summary This book is a scientific investigation into the Extraterrestrial Hypothesis, which demonstrates beyond a reasonable doubt that we are being visited by extraterrestrial Beings from another World. This story involves two unrelated cases of abduction. The first case is the well known Betty and Barney Hill case that was published in *The Interrupted Journey* in 1961, and *Captured* in 2007. The second case involves a married couple named Kay and Erik Wilson whose experiences were published in *The Alien Jigsaw* in 1993 and its accompanying *Researchers Supplement* in 1994. Information from both of these cases have been merged together to prove that the star map that Betty Hill drew was not only real, but it was actually Earth based. The Wilson case proved to be the key in unlocking the door. Like Betty Hill, once again, a brave soul had the courage to ask the Beings where they come from; and as a result of this unique one on one conversation between Erik Wilson and a Grey, without realizing it, he was given major clues to find their home world. *Set Your Phaser To Stun!* reveals that Bettys star map is real and the Extraterrestrial Hypothesis has been purposely skewed to deceive the public. When Carl Sagan involved himself in this dispute many years ago, he claimed Bettys star map only showed meaningless random dots, which were not specific points of reference for any known stars. This book proves that Sagan was wrong and was involved in what some people claim to be scientific misconduct relating to the UFO subject. The stars that Betty Hill drew of the star map she was shown in 1961 are anything but random. *Set Your Phaser To Stun!* takes a fresh new look at the Betty and Barney Hill case and examines previous interpretations of the star map, with particular emphasis on Marjorie Fishs Zeta Reticuli Interpretation. This new research, which began in the year 2000, uncovers the fact that some of our closest neighborhood stars are linked in a network of trade and exploration by a highly advanced extraterrestrial civilization that is less than 50 light years away from us. The real shock is the location of Sol, our sun, and the role humans play in the aliens agenda. For far too long the establishment has systematically denied the Extraterrestrial Hypothesis has any substance. This opinionated stance has been based on the urgent need to control the dissemination of news that they feared would ultimately damage the fabric of our society should it be released. An extreme political drama of the highest order has been blocking disclosure. The Military Industrial Complex has been unwilling to relinquish control to civilian authorities and there is a grave fear that disclosure will have a severe, negative impact on our Religious Institutions worldwide. They fear allowing the public access to information which would severely challenge the traditional belief that humanity is unique and has a special relationship to God. The official position on this subject is based upon the idea that society is not prepared to handle the psychological impact of the knowledge that we are not alone in the universe. They have even gone so far as resorting to scientific misconduct because they are deeply afraid of possible societal upheaval. Fortunately, in May of 2008, a remarkable turn of events occurred within the Catholic Church when astronomer Father Gabriel Funes wrote in the Vatican

Newspaper that intelligent beings created by God could exist in outer space. He moved further toward official legitimization of the acceptance of other life by calling the aliens our Brothers and Sisters. This was the beginning of a slow and well planned acclimation process of one billion Catholics worldwide. It has often been stated that we would have to rewrite history if contact with an alien civilization ever took place. Set Your Phaser To Stun!- is the beginning of that process.
