M-libraries 2 Mohamed Ally, Gill Needham, 2010 Interest in m-library services has grown exponentially in the last five years, as libraries are recognizing the potential of ubiquitous and increasingly sophisticated mobile devices. Building on the highly regarded *M-Libraries: libraries on the move* to provide virtual access, this new book brings together research and case studies from all corners of the globe on the development and delivery of library services and content to mobile devices. Based on the proceedings of the Second International M-Libraries Conference held in Vancouver, this new collection of contributions from authorities in the field serves to demonstrate the ingenuity and creativity of developers and service providers in this area, ranging from the innovative application of basic mobile phone technology to provide information services in remote parts of the globe lacking internet access, to the development of new tools and technologies which harness the full functionality of popular mobile phones. Key topics include: enhancing library access through the use of mobile technology the university library digital reading room mobile access for workplace and language training the role of an agent supplying content on mobile devices cyberlearning and reference services via mobile devices podcasting as an outreach tool service models for information therapy services delivered to mobiles bibliographic ontology and e-books health literacy and healthy action in the connected age a collaborative approach to support flexible, blended and technology-enhanced learning The collection demonstrates the emergence of an evidence base for m-libraries, with a number of contributions presenting the results of user surveys and studies of user behaviour. Readership: This highly topical book should be read by information professionals in all sectors, and by policy makers, researchers, developers, publishers and suppliers. It will also be of great interest to library and information studies students and newcomers to the profession.

M-Libraries 3 Mohamed Ally, Gill Needham, 2012-01-23 This title draws together international authorities to explore the variety of work that libraries are doing across the world to deliver resources to users via mobile and hand-held devices. Based on the proceedings of the Third International M-Libraries Conference held in Brisbane in May 2011, this draws together cutting-edge international contributions from the leading authorities in the field. The main strands of discussion include: • mobile services and their development • mobile users, their behaviour and requirements • emerging technical developments including new platforms, devices and applications • strategy and infrastructure developments at national level • reflections and feedback on new service models • local innovation. Readership: Information professionals in all sectors, policy makers, researchers, developers, publishers, suppliers, LIS students and new professionals.

Games in Libraries Breanne A. Kirsch, 2014-01-28 Librarians are beginning to see the importance of game based learning and the incorporation of games into library services. This book is written for them--so they can use games to improve people's understanding and enjoyment of the library. Full of practical suggestions, the essays discuss not only innovative uses of games in libraries but also the game making process. The contributors are all well versed in games and game-based learning and a variety of different types of libraries are considered. The essays will inspire librarians and educators to get into this exciting new area of patron and student services.

Cutting-Edge Research in Developing the Library of the Future Bradford Lee Eden, 2015-05-06 Cutting-Edge Research in the 21st-Century Academic Library: New Paths for Building Future Services explores examples of exciting new library services and workflows and provides opportunities for the rest of the library profession to model and adapt for their own communities and patrons.

The Library of Musical Instruments Kim Jung-

hyuk,2016-11-23 The second short-story collection by Kim Jung-hyuk, the author of Penguin News, features a total of eight short stories, including "Syncopation D" which won the 2nd Kim You-jeong Literary Award in 2008. They represent the many sounds sampled by the author when he recorded over 600 kinds of musical instruments. Like instruments coming together in a symphony, the stories combine to make an opus consisting of variations on a theme. While the stories begin in an upbeat fashion and work to a crescendo, they end with notes in a minor key filling the vacuum. The Library of Musical Instruments is a collection to contemplate on more than one occasion.

On the Go with Senior Services Phyllis

Goodman,2020-02-06 Not only does this book offer insights into how to better serve all seniors, but it also provides complete step-by-step instructions for dozens of exciting and engaging programs that can be held both onsite and offsite. While serving the senior population is a standard service in public libraries, it has traditionally focused on in-house programs and homebound services. On the Go with Senior Services is different. With this inspiring and practical guide, your library can rejuvenate its in-house services with new programs and also take them on the road—to retirement and assisted living communities, adult day care programs, and nursing homes and rehab centers. With such diversity in the senior population, this book describes strategies for designing senior programs that fit your community's needs. It offers a trove of templates for programs that range from crafts, word games, pop culture, pets, holidays, humor, mysteries, technology, and music. It offers tips and suggestions on how to interact with seniors, including those who may have a variety of physical and cognitive needs. There are also guidelines for working with individuals suffering from dementia. A robust list of further resources is provided. The growing population of seniors presents librarians with new challenges and opportunities, and this book is

a valuable guide to navigating and embracing them.

iPhone: The Missing Manual David Pogue, 2014-11-05 With the iOS 8.1 software and the new iPhone 6 and 6 Plus, Apple has taken its flagship products into new realms of power and beauty. The modern iPhone comes with everything—camera, music player, Internet, flashlight—except a printed manual. Fortunately, David Pogue is back with this expanded edition of his witty, full-color guide: the world's most popular iPhone book. The iPhone 6 and 6 Plus. This book unearths all the secrets of the newest iPhones. Bigger screens, faster chips, astonishing cameras, WiFi calling, Apple Pay, crazy thin. The iOS 8.1 software. Older iPhone models gain predictive typing, iCloud Drive, Family Sharing, Hey Siri, the Health app, and about 195 more new features. It's all here, in these pages. The apps. That catalog of 1.3 million add-on programs makes the iPhone's phone features almost secondary. Now you'll know how to find, exploit, and troubleshoot those apps. The iPhone may be the world's coolest computer, but it's still a computer, with all of a computer's complexities. *iPhone: The Missing Manual* is a funny, gorgeously illustrated guide to the tips, shortcuts, and workarounds that will turn you, too, into an iPhone master.

Get the scoop on Google Voice typing. If you want to learn the ins and outs of your new Android phone in order to get things done, you've come to the right place!

The Library Mobile Experience Bohyun Kim, 2013 How are libraries meeting the evolving needs of mobile users? According to comScore, the smartphone is in the "late majority stage of technology adoption curve." And people don't turn to their devices only for quick facts when on the move: 93 percent of mobile users access the Internet from home on their devices; what's more, Pew reports that 63 percent of Americans age 16 and over would use app-based access to library materials and programs if they were available. In this issue of Library Technology Reports, Kim shows how leading libraries are meeting these evolving needs. Topics include: 6 steps to improving your mobile website Analysis of the advantages and challenges of the responsive Web Comparison of user perceptions of web apps and native apps Visual review of the changes in the libraries mobile web implementation since 2010 Results of MIT surveys of more than 15,000 patrons in 2008 and 2011 Tips for simplifying mobile's complexity

Mobile Library Services Charles Harmon, Michael Messina, 2013 With the rapidly increasing use of smartphones and tablets in the library to access information; as well as the growing role of social media, blogging, and e-learning instruction, the identity of libraries themselves are being transformed. Every function of the library, such as customer service, can be improved with technology. Why reinvent the wheel? Instead, you can now implement or expand

services while knowing how other libraries have met their user needs.

Designing Mobile Apps Javier Cuello, José Vittone, 2013-11-20

Windows Phone 8 Superguide , Windows Phone 8 is unlike any of Microsoft's previous mobile operating systems, and users recognize it. The OS is a very different beast than Apple's iOS or Google's Android system, and has a lot of great things going for it: a fluid and gorgeous user interface, great starter apps, and intuitive features you won't find elsewhere. It can show you all of your social media updates in one screen, it's almost endlessly customizable, and it smoothly integrates with your other machines, be they desktops, smartphones, or tablets. Windows Phone 8 is a major upgrade from the previous incarnation, and it continues to gain fans and supporters because it does things in a distinctly different way than other mobile operating systems. As the OS matures, Microsoft is adding more and more functionality and apps, and more and more people are realizing there's definitely a space for it in the smartphone market. We hope you enjoy our Superguide, but, more importantly, we hope you'll enjoy Windows Phone 8 as much as we do. It's a unique OS, and we're

pleased to recommend it.
