Bad Influence Charleigh Rose, 2019-06-13 Allie When I moved to River's Edge, dating was the last thing on my mind. I definitely didn't expect to fall for him. Jesse Shepherd. Popular. Star athlete. Cocky as hell. You know the type. But as time passed, I realized there was more lurking beneath that gorgeous exterior. Secretive. Angry. A little bit broken. The more I peeled back his layers, the deeper I fell. Until I slammed headfirst into his sea of lies. Jesse blew my shot. Pissed everything away—college, lacrosse, my future—only to end up right back where I started in River's Edge. I was content to revel in my misery, spending my days drowning in a bottomless pit of booze and girls. Until I saw her. Allison Parrish. Beautiful. Sarcastic. Perpetual bad attitude. The pretty little distraction from the shit show that was my life. But the sins of my past were closing in on me, and I learned the hard way that nothing gold can stay.

A Day So Gray Marie Lamba, 2019 A winter's day is transformed from bleak to beautiful by warm friendship and a new perspective in a gentle story that encourages the appreciation and celebration of cozy pleasures and quiet joys.

Vita Nostra Marina & Sergey Dyachenko, 2018-11-13 “Vita Nostra” – a cross between Lev Grossman’s “The Magicians” and Elizabeth Kostova’s “The Historian” [...] is the anti-Harry Potter you didn’t know you wanted.” -- The Washington Post “Vita Nostra has become a powerful influence on my own writing. It’s a book that has the potential to become a modern classic of its genre, and I couldn’t be more excited to see it get the global audience in English it so richly deserves.” -- Lev Grossman Best Books of November 2018 -- Paste Magazine The definitive English language translation of the internationally acclaimed Russian novel—a brilliant dark fantasy combining psychological suspense, enchantment, and terror that makes us consider human existence in a fresh and provocative way. Our life is brief . . . Sasha Samokhina has been accepted to the Institute of Special Technologies. Or, more precisely, she’s been chosen. Situated in a tiny village, she finds the students are bizarre, and the curriculum even more so. The books are impossible to read, the lessons obscure to the point of maddening, and the work refuses memorization. Using terror and coercion to keep the students in line, the school does not punish them for their transgressions and failures; instead, it is their families that pay a terrible price. Yet despite her fear, Sasha undergoes changes that defy the dictates of matter and time; experiences which are nothing she has ever dreamed of . . . and suddenly all she could ever want. A complex blend of adventure, magic, science, and philosophy that probes the mysteries of existence, filtered through a distinct Russian sensibility, this astonishing work of speculative fiction—brilliantly translated by Julia Meitov Hersey—is reminiscent of modern classics such as Lev Grossman’s *The Magicians*, Max Barry’s *Lexicon*, and Katherine Arden’s *The Bear and the Nightingale*, but will transport them to a place far beyond those fantastical worlds.

10 PRINT CHR\$(205.5+RND(1)); : GOTO 10 Nick Montfort,Patsy Baudoin,John Bell,Ian Bogost,Jeremy Douglass,2012-11-23 A single line of code offers a way to understand the cultural context of computing. This book takes a single line of code—the extremely concise BASIC program for the Commodore 64 inscribed in the title—and uses it as a lens through which to consider the phenomenon of creative computing and the way computer programs exist in culture. The authors of this collaboratively written book treat code not as merely functional but as a text—in the case of 10 PRINT, a text that appeared in many different printed sources—that yields a story about its making, its purpose, its assumptions, and more. They consider randomness and regularity in computing and art, the maze in culture, the popular BASIC programming language, and the highly influential Commodore 64 computer.

A Year with Swollen Appendices Brian Eno,2020-11-17 The diary and essays of Brian Eno republished twenty-five years on with a new introduction by the artist in a beautiful hardback edition.'One of the seminal books about music . . . an invaluable insight into the mind and working practices of one of the industry's undeniable geniuses.'GUARDIANAt the end of 1994, Brian Eno resolved to keep a diary. His plans to go to the cinema, theatre and galleries fell quickly to the wayside. What he did do - and write - however, was astonishing: ruminations on his collaborative work with David Bowie, U2, James and Jah Wobble, interspersed with correspondence and essays dating back to 1978. These 'appendices' covered topics from the generative and ambient music Eno pioneered to what he believed the role of an artist and their art to be, alongside adroit commentary on quotidian tribulations and happenings around the world.This beautiful 25th-anniversary hardcover edition has been redesigned in the same size as the diary that eventually became this book. It features two ribbons, pink paper delineating the appendices (matching the original edition) and a two-tone paper-over-board cover, which pays homage to the original design.An intimate insight into one of the most influential creative artists of our time, A Year with Swollen Appendices is

an essential classic.

Touching Photographs Margaret Olin, 2012-05-21 Photography does more than simply represent the world. It acts in the world, connecting people to form relationships and shaping relationships to create communities. In this beautiful book, Margaret Olin explores photography's ability to "touch" us through a series of essays that shed new light on photography's role in the world. Olin investigates the publication of photographs in mass media and literature, the hanging of exhibitions, the posting of photocopied photographs of lost loved ones in public spaces, and the intense photographic activity of tourists at their destinations. She moves from intimate relationships between viewers and photographs to interactions around larger communities, analyzing how photography affects the way people handle cataclysmic events like 9/11. Along the way, she shows us James VanDerZee's Harlem funeral portraits, dusts off Roland Barthes's family album, takes us into Walker Evans and James Agee's photo-text *Let Us Now Praise Famous Men*, and logs onto online photo albums. With over one hundred illustrations, *Touching Photographs* is an insightful contribution to the theory of photography, visual studies, and art history.

Never Seduce a Scot Maya Banks, 2012-09-25 Maya Banks, the New York Times bestselling author of romance and romantic suspense has captivated readers with her steamy Scottish historical novels, perfect for fans of Julie Garwood. *Never Seduce a Scot* features a remarkable woman whose rare gift teaches a gruff Scottish warrior how to listen with his heart. Eveline Armstrong is fiercely loved and protected by her powerful clan, but outsiders consider her "touched." Beautiful, fey, with a level, intent gaze, she doesn't speak. No one, not even her family, knows that she cannot hear. Content with her life of seclusion, Eveline has taught herself to read lips and allows the outside world to view her as daft. But when an arranged marriage into a rival clan makes Graeme Montgomery her husband, Eveline accepts her duty—unprepared for the delights to come. Graeme is a rugged warrior with a voice so deep and powerful that his new bride can hear it, and hands and kisses so tender and skilled that he stirs her deepest passions. Graeme is intrigued by the mysterious Eveline, whose silent lips are ripe with temptation and whose bright, intelligent eyes can see into his soul. As intimacy deepens, he learns her secret. But when clan rivalries and dark deeds threaten the wife he has only begun to cherish, the Scottish warrior will move heaven and earth to save the woman who has awakened his heart to the beautiful song of a rare and magical love.

But even as Willa and Shane's fiery natures draw them together, their pasts threaten to rip them apart. Can Shane

Deception Point Dan Brown, 2019-07-30 From the #1 New York Times bestselling author of *The Da Vinci Code*, *Angels & Demons*, and *Inferno* and the “master of smart thrills” (People) comes a “rocket-fast thriller” (Vince Flynn) about an astonishing NASA discovery that unravels a deadly conspiracy that leads all the way to the White House. When a NASA satellite spots evidence of an astoundingly rare object buried deep in the Arctic ice, the floundering space agency proclaims a much-needed victory—one that could have profound implications for US space policy and the impending presidential election. With his re-election hanging in the balance, the President sends White House Intelligence analyst Rachel Sexton to the Milne Ice Shelf to verify the authenticity of the find. Accompanied by a team of experts, including the charismatic academic Michael Tolland, Rachel uncovers the unthinkable: evidence of scientific trickery. Before she can contact the President, she and Michael are attacked by a deadly team of assassins controlled by a mysterious power broker who will stop at nothing to hide the truth. Fleeing for their lives in an environment as desolate as it is lethal, their only hope for survival is to find out who is behind this masterful ploy. The truth, they will learn, is the most shocking deception of all in this “taut, fast-paced, barn-burner of a book” (St. Petersburg Times).

Beauty Andrea Lipps, Ellen Lupton, 2016 Beauty celebrates design objects and practices that are exuberant, ethereal, atmospheric, experiential, exceptional or sublime. Objects of beauty provoke immediate reactions and demand judgment - asking us to redefine what is lovely or grotesque, formed or malformed, virtuous or subversive. They exalt experience as a living, unfolding exchange between people and things. Beauty honours the voices of designers from 26 countries around the world by conducting original interviews about their works and processes - showing that aesthetic innovation can drive change, whether materially, structurally or ethically. Beauty is an object to be touched, smelled and savoured. Each of the book's seven sections is printed on a luxurious Japanese matte paper with its own fifth accent colour. A smaller signature of pages - printed on its own creamy pink paper at the centre of the book - is called the heart. It contains front and back matter and the responses from designers to the questions: What comes to mind when you hear the word beauty? What is the most beautiful time of day? What is the most beautiful place you've visited? The authors/editors selected the designers for the book and exhibition with a group of international curatorial advisors: Adélia Borges (Brazil), Claire Catterall (England), Kenya Hara (Japan), Mugendi M'Rithaa (South Africa), Sarah Scaturro (United States), Annemartine van Kesteren (Netherlands) and Suvi Saloniemi (Finland).

The Predator RuNyx, 2020-12 What happens when an unstoppable force meets an immovable object in the field of death? In the dark underbelly of the mob, Tristan Caine has been an anomaly. As the only non-blooded member in the high circle of the Tenebrae Outfit, he is an enigma to all - his skills unparalleled, his morality questionable, and his motives unknown. He is lethal and he knows it. As does Morana Vitalio, the genius extraordinaire daughter of the rival family. What Caine does with weapons, Morana does with computers. When a twenty-year old mystery

resurfaces, Morana infiltrates Caine's house, intent on killing him, unaware of a tie that binds them together. Hate, heat, and history clash together with unexpected sparks. But something bigger, something worse is happening in their world. And despite their animosity, only they can fight it down. The Predator is an enemies-to-lovers, dark, contemporary romance set in a fictional universe with mafia, passion and incredible storytelling.

Archaeology Anthropology and Interstellar Communication Douglas A. Douglas A. Vakoch, 2015-03-24 Addressing a field that has been dominated by astronomers, physicists, engineers, and computer scientists, the contributors to this collection raise questions that may have been overlooked by physical scientists about the ease of establishing meaningful communication with an extraterrestrial intelligence. These scholars are grappling with some of the enormous challenges that will face humanity if an information-rich signal emanating from another world is detected. By drawing on issues at the core of contemporary archaeology and anthropology, we can be much better prepared for contact with an extraterrestrial civilization, should that day ever come.

Lyrics of a Small Town Abbi Glines, 2021-07-16 One last thing, if you do fall in love with him, please go slowly.

Be careful. Trust your gut and know not all things are easy. Damaged things can become beautiful if they're placed in the right hands. -Love, Gran

A small town where pickup trucks rule, the farmer's market is bigger than the grocery store, and just about everyone goes to church on Sunday is the last place Henley Warren expects to find herself three months after her grandmother's death. But Gran left a list of things she needed Henley to do after she died, and fulfilling those wishes means spending a summer in the same place her mom fled from when she was only seventeen years old. With each task that is ticked off the list, events are set in motion that uncover secrets surrounding Henley's life. Although Henley may have arrived on the shores of Alabama's Gulf Coast feeling alone and lost in a world without her Gran, things soon change. The small town holds more than she realized—including a broody, gorgeous, potentially dangerous guy who is always showing up when she needs him the most. Henley fears her heart isn't ready to trust someone so unpredictable but he makes her feel things deeper than she thought possible. So, when Henley discovers the twisted, dark world he is living in, will it be too late to save her heart? Or has her heart been beyond saving from the moment he stepped out of his truck on that very first day?
