**Mastering Portrait Photography** P. Wilkinson,Sarah Plater,2015-11  
Photographic portraits should not be the formal, corporate-style poses of yesteryear, which reveal nothing of the subject's emotion, personality or mood - so believe Sarah Plater and Paul Wilkindon. Theirs is a modern, fresh and vibrant approach that aims to capture a moment in the lifestyle of the person or persons in the picture. This authoritative guide contains clear, concise and jargon-busting text that discusses the essential technical aspects of photography from choosing a camera and equipment to an appreciation of exposure, aperture, metering, shutter speed, depth of field and white balance settings, in addition to how natural light, colour and movement affect a photograph. A guide to posing helps to ensure dynamic and

arresting images

**Photography** David Bate, 2020-09-25 Providing a thorough and comprehensive introduction to the study of photography, this second edition of Photography: The Key Concepts has been expanded and updated to cover more fully contemporary changes to photography. Photography is a part of everyday life; from news and advertisements, to data collection and surveillance, to the shaping of personal and social identity, we are constantly surrounded by the photographic image. Outlining an overview of photographic genres, David Bate explores how these varied practices can be coded and interpreted using key theoretical models. Building upon the genres included in the first edition – documentary, portraiture, landscape, still life, art and global photography – this second edition includes two new chapters on snapshots and the act of looking. The revised and expanded chapters are supported by over three times as many photographs as in the first edition, examining contemporary practices in more detail and equipping students with the analytical skills they need, both in their academic studies and in their own practical work. An indispensable guide to the field, Photography: The Key Concepts is core reading for all courses that consider the place of photography in society, within photographic practice, visual culture, art, media and cultural studies.
