Cracking the code UNESCO, 2017-09-04 This report aims to 'crack the code' by deciphering the factors that hinder and facilitate girls' and women's participation, achievement and continuation in science, technology, engineering and mathematics (STEM) education and, in particular, what the education sector can do to promote girls' and women's interest in and engagement with STEM education and ultimately STEM careers.

Makeology Kylie Peppler, Erica Rosenfeld Halverson, Yasmin B. Kafai, 2016-05-20 Makeology introduces the emerging landscape of the Maker Movement and its connection to interest-driven learning. While the movement is fueled in part by new tools, technologies, and online communities available to today's makers, its simultaneous emphasis on engaging the world through design and sharing with others harkens back to early educational predecessors including Froebel, Dewey, Montessori, and Papert. Makers as Learners (Volume 2) highlights leading researchers and practitioners as they discuss and share current perspectives on the Maker movement and research on educational outcomes in makerspaces. Each chapter closes with a set of practical takeaways for educators, researchers, and parents.

Engineering Unesco, 2010-01-01 This report reviews engineering's importance to human, economic, social and cultural development and in addressing the UN Millennium Development Goals. Engineering tends to be viewed as a national issue, but engineering knowledge, companies, conferences and journals, all demonstrate that it is as international as science. The report reviews the role of engineering in development, and covers issues including poverty reduction, sustainable development, climate change mitigation and adaptation. It presents the various fields of engineering around the world and is intended to identify issues and challenges facing engineering, promote better understanding of engineering and its role, and highlight ways of making engineering more attractive to young people, especially women.--Publisher's description.

The Ghosts of Songs Kodwo Eshun, Anjalika Sagar, 2007 This eagerly awaited book is the first to assess the oeuvre of the Black Audio Film Collective (BAFC), one of Britain's most influential artistic groups. It reconsiders the entire corpus of the seven-person London-based group from inception in 1982 to its disbandment in 1998.

Property And Persuasion Carol M Rose, 2019-09-05 With socialism largely discredited in recent years, the moral and legal status of private property has become an increasingly important area for discussion in contemporary political and social thought. Offering a contribution to legal theory, and to political and social philosophy, this work examines the two currently dominant traditions - those of neo-conservative utilitarianism and liberal communitarianism - emphasizing the strengths of both approaches and laying the groundwork for a theory to bridge the gap between them.

Design, Make, Play Margaret Honey, 2013-03-12 Design, Make, Play: Growing the Next Generation of STEM Innovators is a resource for practitioners, policymakers, researchers and program developers that illuminates creative, cutting edge ways to inspire and motivate young people about science and technology learning. The book is aligned with the National Research Council's new Framework for Science Education, which includes an explicit focus on engineering and design content, as well as integration across disciplines. Extensive case studies explore real world examples of innovative programs that take place in a variety of settings, including schools, museums, community centers, and virtual spaces. Design, Make, and Play are presented as learning methodologies that have the power to rekindle children's intrinsic motivation and innate curiosity about STEM (science, technology, engineering, and mathematics) fields. A digital companion app showcases rich multimedia that brings the stories and successes of each program--and the students who learn there--to life.

The Complete Guide to Flipping Properties Steve Berges, 2008-01-02 Now in a newly updated second edition, this guide covers all the ins and outs of buying, renovating, and reselling distressed properties at big profits. Berges shows investors how to excel at every aspect of flipping, from finding great deals to analyzing property values, negotiating sales, and closing deals.

In the Line of Fire Pervez Musharraf, 2008-09-04 It is almost unprecedented for a head of state to publish a memoir while still in office. But Pervez Musharraf is no ordinary head of state. As President of Pakistan since 1999, his is one of the most dangerous jobs in the world, and he continues to play a crucial role in the global war on terror. A one-time supporter of the Taliban, a general who fought in several wars, President Musharraf took a decisive turn against militant Islam in 2001. Since then he has survived two assassination attempts; rooted out militants in his own government; helped direct countless raids against al-Qaeda both in his cities and in the mountains; and tracked Osama bin Laden with technical and human intelligence. IN THE LINE OF FIRE is astonishingly revealing and honest about dozens of topics of intense interest to the world. Among its many revelations: exactly how Pakistani authorities tracked down and smashed three major al-Qaeda control centres in the mountains; how al-Qaeda's many-layered structure was revealed after the assassination attempts; Bin Laden's current position within the al-Qaeda hierarchy; what it has been like to deal with Bush and Blair; how Pakistan and India have avoided nuclear confrontation; and much more. The terrible earthquake of 2005, killing nearly 40,000 Pakistanis, is just one chapter in a life and career that has been filled with danger and drama. The worldwide launch of President Musharraf's memoir promises to be a sensation.

Kentucky Federal Writers' Project of the Work Projects Administration for the State of Kentucky, 1954 During the Great Depression of the 1930s thousands of writers were hired by the Works Project Administration to create hundreds of guidebooks on all of the states in the U.S. These volumes that were produced became known as the American Guide Series. This series has been described as the biggest, fastest and most original research job in the history of the world. No library collection in Kentucky would be complete without a copy of Kentucky: A Guide To The Bluegrass State.

The Matter of Piety Ruben Suykerbuyk, 2020-07-27 The Matter of Piety provides the first in-depth study of Zoutleeuw's exceptionally well-preserved pilgrimage church in a comparative perspective, and reevaluates religious art and material culture in Netherlandish piety from the late Middle Ages through the crisis of iconoclasm and the Reformation to Catholic restoration. Analyzing the changing functions, outlooks, and meanings of devotional objects - monumental sacrament houses, cult statues and altarpieces, and small votive offerings or relics - Ruben Suykerbuyk revises dominant narratives about Catholic culture and patronage in the Low Countries. Rather than being a paralyzing force, the Reformation incited engaged counterinitiatives, and the vitality of late medieval devotion served as the fertile ground from which the Counter-Reformation organically grew under Protestant

impulses.

Societies, Social Inequalities and Marginalization Raghbir Chand, Etienne Nel, Stanko Pelc, 2017-04-04 This book provides an overview of marginality or marginalization, as a concept, characterizing a situation of impediments – social, political, economic, physical, and environmental – that impact the abilities of many people and societies to improve their human condition. It examines a wide range of examples and viewpoints of societies struggling with poverty, social inequality and marginalization. Though the book will be especially interesting for those looking for insights into the situation and position of ethnic groups living in harsh mountainous conditions in the Himalayan region, examples from other parts of the world such as Kyrgyzstan, Israel, Switzerland and Finland provide an opportunity for comparison of marginality and marginalization from around the world. Also addressed are issues such as livelihood, outmigration and environmental threats, taking into account the conditions, scale and perspective of observation. Throughout the text, particular attention is given to the context and concept of ‘marginalization’, which sadly remains a persistent reality of human life. It is in this context that this book seeks to advance our global understanding of what marginalization is, how it is manifested and what causes it, while also proposing remedial strategies.
