Charles Moore

Margaret Thatcher Charles Moore, 2015-10-06 In June 1983 Margaret Thatcher won the biggest increase in a government's Parliamentary majority in British electoral history. Over the next four years, as Charles Moore relates in this central volume of his uniquely authoritative biography, Britain's first woman prime minister changed the course of her country's history and that of the world, often by sheer force of will. The book reveals as never before how she faced down the Miners' Strike, transformed relations with Europe, privatized the commanding heights of British industry and continued the reinvigoration of the British economy. It describes her role on the world stage with dramatic immediacy, identifying Mikhail Gorbachev as 'a man to do business with' before he became leader of the Soviet Union, and then persistently pushing him and Ronald Reagan, her great ideological soulmate, to order world affairs according to her vision. For the only time since Churchill, she ensured that Britain had a central place in dealings between the superpowers. But even at her zenith she was beset by difficulties. The beloved Reagan two-timed her during the US invasion of Grenada. She lost the minister to whom she was personally closest to scandal and almost had to resign as a result of the Westland affair. She found herself isolated within her own government over Europe. She was at odds with the Queen over the Commonwealth and South Africa. She bullied senior colleagues and she set in motion the poll tax. Both these last would later return to wound her, fatally. In all this,

Charles Moore has had unprecedented access to all Mrs Thatcher's private and government papers. The participants in the events described have been so frank in interview that we feel we are eavesdropping on their conversations as they pass. We look over Mrs Thatcher's shoulder as she vigorously annotates documents, so seeing her views on many particular issues in detail, and we understand for the first time how closely she relied on a handful of trusted advisors to help shape her views and carry out her will. We see her as a public performer, an often anxious mother, a workaholic and the first woman in western democratic history who truly came to dominate her country in her time. In the early hours of 12 October 1984, during the Conservative party conference in Brighton, the IRA attempted to assassinate her. She carried on within hours to give her leader's speech at the conference (and later went on to sign the Anglo-Irish agreement). One of her many left-wing critics, watching her that day, said 'I don't approve of her as Prime Minister, but by God she's a great tank commander.' This titanic figure, with all her capacities and all her flaws, storms from these pages as from no other book.

The Photographic Experience, 1839-1914: Images and Attitudes , The Photographic Experience deals with episodes and issues relating to the spread and practice of photography from its beginnings to World War I. Bridget and Heinz Henisch concern themselves with the reception accorded to the new art by professionals, amateurs, and the general public. They examine reactions to the new invention in the press, literature, poetry, music, and fashion; the response of intellectuals and painters; and the beliefs held by prominent photographers concerning the nature of the medium and its mission. With a wide array of images - many never before published - they illustrate the photograph's use as a record of public and private moments in life.

The War in Our Backyard Margit V. Wunsch Gaarmann, 2015-02-18 The War in Our Backyard is a novel study of the German press' textual and visual coverage of the wars in Bosnia (1992–1995) and Kosovo (1998–1999). Key moments from both wars have been selected and analysed using a broad range of publications reaching from far-right to far-left and including broadsheets, a tabloid and a news magazine. Two sections with parallel chapters form the core of the book: the first part dealing with the war in Bosnia and the second with Kosovo. Each section contains one chapter on the initial phase of the conflict, one chapter on an important atrocity – namely the Srebrenica Massacre in Bosnia and the Račak incident in Kosovo – and, lastly, a chapter

each on the international involvement which ended the immediate violence. The book examines how the various events were covered, what sources were used and what insights these examples of the German press conveyed. Special attention has been paid to four key themes, which emerged from the research. Firstly, the changing perceptions of the Serbian President Slobodan Milošević and the issue of who was to blame for the conflicts; secondly, how various armed forces, including the Yugoslav Peoples' Army and the Kosovo Liberation Army were presented in the German press; thirdly, the persistent presence of the Second World War and the Holocaust in the coverage of the wars in Bosnia and Kosovo and how they shaped the press' interpretation of the violence; and lastly, how Germany's role in the Balkans – both in the realms of diplomacy and military intervention – was evaluated by the national press. Pictures and cartoons accompanying the textual coverage have been included to present a more rounded picture of press coverage.

The Long Shadow David Reynolds,2013-11-07 In Britain we have lost touch with the Great War. Our overriding sense now is of a meaningless, futile bloodbath in the mud of Flanders -- of young men whose lives were cut off in their prime for no evident purpose. But by reducing the conflict to personal tragedies, however moving, we have lost the big picture: the history has been distilled into poetry. In TheLong Shadow, critically acclaimed author David Reynolds seeks to redress the balance by exploring the true impact of 1914-18 on the 20th century. Some of the Great War's legacies were negative and pernicious but others proved transformative in a positive sense. Exploring big themes such as democracy and empire, nationalism and capitalism and re-

examining the differing impacts of the War on Britain, Ireland and the United States, *The Long Shadow* throws light on the whole of the last century and demonstrates that 1914-18 is a conflict that Britain, more than any other nation, is still struggling to comprehend. Stunningly broad in its historical perspective, *The Long Shadow* is a magisterial and seismic re-presentation of the Great War.

Inspiring Walt Disney: The Animation of French Decorative Arts Wolf

Burchard, 2021-12-06 Pink castles, talking sofas, and objects coming to life: what may sound like the fantasies of Hollywood dream-maker Walt Disney were in fact the figments of the colorful salons of Rococo Paris. Exploring the novel use of French motifs in Disney films and theme parks, this publication features forty works of eighteenth-century European design—from tapestries and furniture to Boulle clocks and Sèvres porcelain—alongside 150 Disney film stills, drawings, and other works on paper. The text connects these art forms through a shared dedication to craftsmanship and highlights references to European art in Disney films, including nods to Gothic Revival architecture in *Cinderella* (1950); bejeweled, medieval manuscripts in *Sleeping Beauty* (1959); and Rococo-inspired furnishings and objects brought to life in *Beauty and the Beast* (1991). Bridging fact and fantasy, this book draws remarkable new parallels between Disney's magical creations and their artistic inspirations.

Callan Park: 'The Jewel of the West' Edward Moxon,2022-04-19 This book is a record of events that happened at Callan Park before 1960. It is a journey of discovery that uncovers facts and manoeuvring not published before. In time dramatic changes did happen; there was a paradigm shift from mothering to encouraging independence. The government's predominant focus, through its bureaucrats, was on costs, structure, and process. Others had different ideas. The change came through a handful of unlikely people; a female psychiatrist and her friends, two young nurses, one psychopathic doctor, a patient's brother, a few buck-passing bureaucrats, a newspaper, and a Royal Commission. This story involves the CIA. Sexual favours; one doctor proudly claimed that there were three things necessary for a happy life, "...to eat in style, to drive in style and to f... in style." The use of spies to gather information for personal gain or write headlines for a paper. Political gameplay and deals. Lies and empire builders, hatchet people and scapegoats. Callan Park is littered with the refuse of dedicated staff who succumbed to suicide, alcoholism, PTSD, depression, and family breakdown—written off as collateral damage. Treatments for psychiatric conditions are continually changing, not necessarily due to scientific advances. A popular treatment in the 1920s was isolation, an aperient in the 1940s and 50s, brain surgery, psychotropic drugs and LSD in the 1950s and 60s. The stage was set to usher in a revolution in the care and treatment of people with a mental health

problem and to experience the worse of political intervention. Volume two explores these two concepts.
