The Assassins Jan Young,2010-12-14 Forty-six historic tales of murder and mayhem on a global scale: This book contains true stories, authenticated through the use of both modern and contemporary sources. They range from the year 1337 BCE through 2006 CE, from the United States and Europe to the Mid-east and the Orient. The murderers range from incompetent to highly competent and from despicable to glorious. The victims were prominent politically and, in some cases, financially. Some deserved to die, most did not. All four assassinations of US Presidents are included, as are three attempted Presidential assassinations. Although the stories make interesting reading by themselves, the grouping of them in a single volume gives breadth and allows the reader to understand the scope of the assassination phenomenon, to see trends and to assess their value.
