**Hans Hollein and Postmodernism** Eva Branscome,2017-12-14 Set within the broader context of post-war Austria and the re-education initiatives set up by the Allied forces, particularly the US, this book investigates the art and architecture scene in Vienna to ask how this can inform our broader understanding of architectural Postmodernism. The book focuses on the outputs of the Austrian artist and architect, Hans Hollein, and on his appropriation as a Postmodernist figure. In Vienna, the circles of radical art and architecture were not distinct, and Hollein’s claim that ‘Everything is Architecture’ was symptomatic of this intermixing of creative practices. Austria's proximity to the so-called ‘Iron Curtain’ and its post-war history of four-power occupation gave a heightened sense of menace that emerged strongly in Viennese art in the Cold War era. Seen as a collective entity, Hans Hollein’s works across architecture, art, writing, exhibition design and publishing clearly require a more diverse, complex and culturally nuanced account of architectural Postmodernism than that offered by critics at the time. Across the five chapters, Hollein's outputs are viewed not as individual projects, but as symptomatic of Austria's attempts to come to terms with its Nazi past and to establish a post-war identity.

**The Perfect Medium** Clément Chéroux,Andreas Fischer,Pierre Apraxine,Denis Canguilhem,Sophie Schmit,2005-01-01 In the early days of photography, many believed and hoped that the camera would prove more efficient than the human eye in capturing the unseen. Spiritualists and animists of the nineteenth century seized on the new technology as a method of substantiating the existence of supernatural beings and happenings.

This fascinating book assembles more than 250 photographic images from the Victorian era to the 1960s, each purporting to document an occult phenomenon: levitations, apparitions, transfigurations, ectoplasms, spectres, ghosts, and auras. Drawn from the archives of European and American occult societies and private and public collections, the photographs in many cases have never before been published. The Perfect Medium studies these rare and remarkable photographs through cultural, historical, and artistic lenses. More than mere curiosities, the images on film are important records of the cultural forces and technical methods that brought about their production. They document in unexpected ways a period when developing photographic technology merged with a popular obsession with the occult to create a new genre of haunting experimental photographs.

Radical Intimacy in Contemporary Art Keren Moscovitch,2023-09-07 Radical Intimacy in Contemporary Art focuses on practices that operate at the edges of sexuality and its socially sanctioned expressions. Using psychoanalysis and object-oriented feminism, Keren Moscovitch focuses on the work of several contemporary, provocative artists to initiate a dialogue on the role of intimacy in challenging and reimagining ideology. Moscovitch suggests that intimacy has played an under-appreciated role in the shifting of social and political consciousness. She explores the work of Leigh Ledare, Genesis P-Orridge, Ellen Jong, Barbara DeGenevieve, Joseph Maida and Lorraine O'Grady, who, through their radical practices, engage in such consciousness shifting in elegant, surprising, and provocative ways. Guided by the feminist psychoanalytic canon of Julia Kristeva throughout, as well as being informed by the philosophy of Luce Irigaray and the critical theory of Judith Butler, Moscovitch situates these artists in the emerging lineage of feminist new materialism. She argues that the instability of intimacy leads to radical and performative objecthood in their work that acts as a powerful expression of revolt. Through this line of argumentation, Moscovitch joins a growing group of philosophers exploring object-oriented theories and practices as a new language for a new era. In this era, the hegemony of subjectivity has been toppled, and a new world of human ontology is built creatively, expressively and in the spirit of revolt.

**After the Machine** Miles Orvell,1995 How the vision of the artist & the edges of modern culture have been changed by the environment of technology.

American Dreams Ian Brown,2020-08-25 A powerful, moving collection of 170 portraits of Americans and their handwritten statements about what the American dream means to them. Shot by one photographer over twelve years, fifty states, and eighty thousand miles, American Dreams is a poignant, defining look at people from every walk of life and a remarkable exploration of what it means to be an American. Long fascinated by the idea of the “American Dream,” Canadian photographer Ian Brown set out to document, in photographs and words, what that dream means to Americans of all ages, races, identities, classes, religions, and ideologies. Over the course of twelve years, Brown traveled more than eighty thousand miles in an old truck, visiting all fifty states and connecting with hundreds of Americans. He knocked on people's doors; met them at town halls, diners, and factories; and approached them on main streets in small towns. He shot their portraits and asked them to write down their own American dreams. Their dreams and stories—which range from hopeful, moving, and optimistic to defiant, bitter, and heartbreaking—offer a fascinating, unparalleled perspective of the striking diversity and deep nuance of the American experience.

Wood Carving Basics David Sabol,Kam Ghaffari,2008 Book of projects designed to give beginners the experience of work in a wide number of carving styles.

Three Roads to Magdalena David Wallace Adams,2016-06-03 “Someday,” Candelaria Garcia said to the author, “you will get all the stories.” It was a tall order, in Magdalena, New Mexico, a once booming frontier town where Navajo, Anglo, and Hispanic people have lived in shifting, sometimes separate, sometimes overlapping worlds for well over a hundred years. But these were the stories, and this was the world, that David Wallace Adams set out to map, in a work that would capture the intimate, complex history of growing up in a Southwest borderland. At the intersection of memory, myth, and history, his book asks what it was like to be a child in a land of ethnic and cultural boundaries. The answer, as close to “all the stories” as one might hope to get, captures the diverse, ever-changing experience of a Southwest community defined by cultural borders---and the nature and role of children in defending and crossing those borders. In this book, we listen to the voices of elders who knew Magdalena nearly a century ago, and the voices of a younger generation who negotiated the community’s shifting boundaries. Their stories take us to sheep and cattle ranches, Navajo ceremonies, Hispanic fiestas, mining camps, First Communion classes, ranch house dances, Indian boarding school drill fields, high school social activities, and children’s rodeos. Here we learn how class, religion, language, and race influenced the creation of distinct identities and ethnic boundaries, but also provided opportunities for cross-cultural interactions and intimacies. And we see the critical importance of education, in both reinforcing differences and opening a shared space for those differences to be experienced and bridged. In this, Adams’s work offers a close-up view of the transformation of one multicultural community, but also of the transformation of childhood itself over the course of the twentieth century. A unique blend of oral, social, and childhood history, Three Roads to Magdalena is a rare living document of conflict and accommodation across ethnic boundaries in our ever-evolving multicultural society.
