First 100 ,2023-05-24 Enjoy a Coffee Table Photo Book of My First 100 Photographs approved by Getty Images. I have a great appreciation for Nature and all it's beauty. You'll see Hawks, Flowers, Bees, and the gorgeous Rocky Mountain Range of Colorado. Sift through my photographic journey.

100 Anastasia Pottinger,2018-11 Anastasia Pottinger takes on centenarians - those who have lived 100 years and more - and uses her photography to capture the beauty, frailty, and history evident on the human body. With the close and almost abstract nature of these images, you're invited to look deeper into the story behind the image to discover there is beauty at every age.

Photograph Nishant Bhardwaj,2021-06-17 This is purely dedicated for the photography lovers, minimal design focusing only on the beauty of the pictures. Can be perfect gift for anyone who loves art and photography. A photograph of visual arts is an image created by its imaginative or aesthetic qualities. It is the opposite of documentary photography, which tries to capture people's lives, important events, memories or historical records. Fine Art Photography overlaps with many other forms of photography and can overlap with fashion photography and photojournalism but neither merits particular attention.

American Geography Matt Black,2021-12-07 Award-winning photographer Matt Black traveled over 100,000 miles to chronicle the reality of today's unseen and forgotten America. When Magnum photographer Matt Black began exploring his hometown in California's rural Central Valley—dubbed “the other California,” where one-third of the population lives in poverty—he knew what his next project had to be. Black was inspired to create a vivid portrait of an unknown America, to photograph some of the poorest communities across the US. Traveling across forty-six states and Puerto Rico, Black visited designated “poverty areas,” places with a poverty rate above 20 percent, and found that poverty areas are so numerous that they're never more than a two-hour's drive apart, woven through the fabric of the country but cut off from “the land of opportunity.” *American Geography* is a visual record of this five-year, 100,000-mile road trip, which chronicles the vulnerable conditions faced by America's poor. This compelling compilation of black-and-white photographs is accompanied by Black's own travelogue—a collection of observations, overheard conversations in cafe's and public transportation, diner menus, bus timetables, historical facts, and snippets from daily news reports. A future classic

of photography, this monograph is supported by an international touring exhibition and is a must-have for anyone with an interest in witnessing the reality of an America that's been excluded from the American Dream.

Vivian Maier John Maloof,2012-10-30 Please note that all blank pages in the book were chosen as part of the design by the publisher. A good street photographer must be possessed of many talents: an eye for detail, light, and composition; impeccable timing; a populist or humanitarian outlook; and a tireless ability to constantly shoot, shoot, shoot, shoot and never miss a moment. It is hard enough to find these qualities in trained photographers with the benefit of schooling and mentors and a community of fellow artists and aficionados supporting and rewarding their efforts. It is incredibly rare to find it in someone with no formal training and no network of peers. Yet Vivian Maier is all of these things, a professional nanny, who from the 1950s until the 1990s took over 100,000 photographs worldwide—from France to New York City to Chicago and dozens of other countries—and yet showed the results to no one. The photos are amazing both for the breadth of the work and for the high quality of the humorous, moving, beautiful, and raw images of all facets of city life in America's post-war golden age. It wasn't until local historian John Maloof purchased a box of Maier's negatives from a Chicago auction house and began collecting and championing her marvelous work just a few years ago that any of it saw the light of day. Presented here for the first time in print, Vivian Maier: Street Photographer collects the best of her incredible, unseen body of work.

The End of the Bronze Age Robert Drews, 2020-03-31 The Bronze Age came to a close early in the twelfth century b.c. with one of the worst calamities in history: over a period of several decades, destruction descended upon key cities throughout the Eastern Mediterranean, bringing to an end the Levantine, Hittite, Trojan, and Mycenaean kingdoms and plunging some lands into a dark age that would last more than four hundred years. In his attempt to account for this destruction, Robert Drews rejects the traditional explanations and proposes a military one instead.
