A Dictionary of Hallucinations Jan Dirk Blom,2023-06-23 The Dictionary of Hallucinations, second edition, is an alphabetical listing of issues pertaining to hallucinations and other misperceptions. They can be roughly divided into four categories: 1. Definitions of individual hallucinatory symptoms 2. Medical conditions and substances associated with the mediation of hallucinations 3. Historical figures who are known to have experienced hallucinations 4. Miscellaneous issues Each of the definitions of individual hallucinatory symptoms includes: a definition of the term its etymological origin the year of introduction (if known) a reference to the author or authors who introduced the term (if known) a description of the current use a brief explanation of the etiology and pathophysiology of the symptom at hand (if known) references to related terms references to the literature The second edition of *A Dictionary of Hallucinations* serves as a reference manual for neuroscientists, psychiatrists, psychiatric residents, psychologists, neurologists, historians of psychiatry, general practitioners, and academics dealing professionally with concepts of hallucinations and other sensory deceptions. This new edition provides updated information and references, and includes newly discovered hallucinations, bringing together contributions by other authorities within the field, with all the entries edited by Prof. Blom.

Literature 1974, Part 2 S. Böhme,U. Esser,W. Fricke,U. Güntzel-Lingner,F. Henn,D. Krahn,H. Scholl,G. Zech,2013-11-11 Astronomy and Astrophysics Abstracts, which has appeared in semi-annual volumes since 1969, is devoted to the recording, summarizing and indexing of astronomical publications throughout the world. It is prepared under the auspices of the International Astronomical Union (according to a resolution adopted at the 14th General Assembly in 1970). Astronomy and Astrophysics Abstracts aims to present a comprehensive documentation of literature in all fields of astronomy and astrophysics. Every effort will be made to ensure that the average time interval between the date of receipt of the original literature and publication of the abstracts will not exceed eight months. This time interval is near to that achieved by monthly abstracting journals, compared to which our system of accumulating abstracts for about six months offers the advantage of greater convenience for the user. Volume 12 contains literature published in 1974 and received before March 15, 1975; some older literature which was received late and which is not recorded in earlier volumes is also included. Beginning with volume 11 some minor changes of our classification scheme have been made. We acknowledge with thanks contributions to this volume by Dr. J. Bouska, who surveyed journals and publications in the Czech language and supplied us with abstracts in English, and by the Commonwealth Scientific and Industrial Research Organization (C.S.I.R.O.), Sydney, for providing titles and abstracts of papers on radio astronomy.

Life Experiences and Recollections of Mary Basits Kuhns Bradley W. Kuhns, Ph.D., O.M.D.,2011-02-04 This book is the life and times of Mary Basits Steinhauer from her birth in 1899 to her death in 1989. Mary

sat down at age 85 years old and typed out over 200 pages (single spaced) of memories relating to her life. Following her death, her son, Bradley W. Kuhns put the pages into a book. He used all the same typos, and grammar errors that she had put down on paper so as to not take away from her authentic writings. It is worth reading the life of this wonderful ladies trials and tribulation as described by her through her eyes and writing.

Life Experiences & Recollections Of "Mary" Bradley W. Kuhns, Ph.D., O.M.D., Bradley W. Kuhns, son of Mary Basits took this wonderful ladies notes that she put on paper at the age 85 year- old. At 85-years-old she sat down and wrote approximately 200 (single-spaced pages on a Smith Corona typewriter. They were discovered after her death in 1989. So, Bradley decided to organize them as she put them down on paper (without) changing typos or grammar so as not to take away from the elderly woman's presence.

Financial Times Guide to the Financial Markets Glen Arnold,2012-05-14 From bestselling author Glen Arnold, this is a jargon-busting book that describes how financial markets work, where they are located and how they impact on everyday life. It assumes no specialised prior knowledge of finance theory and provides an authoritative and comprehensive run-down of the workings of the modern financial system. Using real world examples from media such as the Financial Times, Arnold gives an international perspective on the financial markets with frequent comparisons in the workings of major financial centres such as the Bank of England and the City, the Federal Reserve System and Wall Street, the Japanese Central Bank, the European Central Bank and IMF and World Bank.
