**Vol. 25** Shawn M. Tomlinson, 2019-07-09 We're photographers. Our photographs mean everything to us. It's time to stop just hoping nothing crashes taking those photos in the abyss. It's time to create our own multiply redundant photo archive. We're not made of money, though. We need our photos to be safe, but we need to keep them safe at the lowest possible reasonable cost. Not a problem. We can do this. Even with minimal computer experience, even with no computer networking experience. We can do this. No time to waste. Let's get going!

**Photo Restoration** Robert Correll, 2015-05-15 In *Photo Restoration: From Snapshots to Great Shots*, author Robert Correll carefully guides you through the process of restoring your photos, teaching you the most effective techniques to preserve and repair your damaged or aging images. Organized based on a helpful photo restoration workflow, the book will feature Adobe Photoshop as the primary software solution of choice, with coverage of Photoshop Elements and Lightroom as well. Read the book from start to finish or quickly access the information you need for the specific photo problems at hand. The book will start by covering the basics, such as how to evaluate how a photo is damaged and then move to the appropriate solution; how to properly handle and scan/import your photos; and how to use Photoshop as a photo retouching tool, with information on how Photoshop Elements and Lightroom can also play a role in restoring your images. The book then dives into specific issues that arise with old or damaged

photos, such as removal of dust, scuff marks, and stains; repairing actual damage such as creases or missing corners; correcting color-related problems like blue or yellow-tinted images and oversaturation; and improving the contrast and brightness of both color and black-and-white images. Finally, the book finishes up by showing you how to add a special touch of greatness and creativity to your photos, in addition to printing and archiving.

**25 Under 25** Sylvia Plachy, 2008-05-13 A CDS Book  
25 Under 25: Up-and-Coming American Photographers, Volume 2 showcases 25 more of America's most promising photographers, 25 years old and younger. Illuminating and sometimes startling, the collection presents work by an emerging generation of photographers at the start of their careers. The first book in the series, published in 2003 by powerHouse Books and CDS Books, was selected as a Best Book of 2003 by Photo District News. This new volume of 25 Under 25 features photographs selected by renowned photographer Sylvia Plachy that explore the theme of transitions: what it means to be in-between, in flux, at odds, in a new state of being-personally, locally, nationally, or internationally. The photographers, who must have been born on or after April 28, 1980, were drawn from a widely publicized, nationwide competition run by CDS. 25 Under 25 presents a wide array of photographs reflecting the world as seen through young but sophisticated eyes-the devastation from Hurricane Katrina; the battle-weary soldiers and civilian casualties of the Iraq War; explicit explorations of sexuality; urban and suburban

landscapes. These images, whether of people or of what people leave behind, show us that the human imprint is everywhere, moving, altering, desiring, aspiring to permanence. What we search for is a secret, like the pearl in the ocean, not easily found or given up. We are curious, driven, sometimes outgoing, sometimes introverted; much of who we are is visible in our pictures, Sylvia Plachy writes in her introduction. Too often, in the service of politics and commerce, photographs are inadequate or false. But here, we project ourselves into these images filled with insight and compassion and enter their collective memory as a continuation in the history of photography. All of these photographers, each in their own perceptive way, surprise us with their finds.

A color portfolio highlights the work of internationally known artists such as Robert Rauschenberg, Todd Walker, and most recently Doug and Mike Starn, and an invaluable list of supply sources (including e-mail addresses) from throughout North America and Europe is included at the end of the book. **25 Under 25** Iris Tillman Hill, 2008

Hillhaven Lodge , 2003 Red-hot Hollywood director Brett Ratner (Rush Hour I and II, Red Dragon and the forthcoming Superman), lives in Ingrid Bergman's old Hillhaven Lodge, where he houses his old-fashioned b/w photo booth. Into this booth Ratner has enticed a cornucopia of white-hot celebrities, personalities and legends, all of whom voluntarily vlogged, posed and made silly faces without the help of stylists and makeup artist. The result is a hilarious and revealing look at such people as Michael Jackson, Britney Spears, Liv Tyler, Colin Farrell, Mariah Carey, Edward Norton and Salma Hayek and more.

*Bernie* Jared Polin, 2021-11-15 This Photo Book will take you behind the scenes with unprecedented access to Bernie Sanders as he campaigns to become the Democratic presidential nominee. The photographic journey starts with a 48-hour sprint

with multiple stops across Iowa, before we boarded a jet to Denver, where the Senator spoke to a crowd of 10,000 people. My photographic journey could have ended right there, but it didn't. I found myself flying out to LA to join the campaign for a massive rally on Venice Beach with Bernie and AOC. My final stop brought me back to where this Photographic Journey started, Iowa, for the all-important Iowa Caucus. In total, I captured over 3,000 images and was able to edit it down to the best-of-the-best with honors sir. The final book will include roughly 100 photos from the road. Have you ever found yourself turning through the pages of a photo book and wanting to know more about the photo, or what the photographer was thinking? only to realize that info is nowhere to be found? I'm right there with you. I always want to know more. I want to know what the photographer was thinking in that moment. I want to know what was going on behind the scenes, I want to go inside their mind. That's why I've decided to include a page-by-page audio commentary by me, that you can access via a QR code, which will allow you to download as a podcast or stream from anywhere in the world, at any time.
