Algae Laura Barsanti,Paolo Gualtieri,2005-11-14 An exhaustive review on all things algae would require a multi-volume encyclopedic work. Even then, such a tome would prove to be of limited value, as in addition to being quite complex, it would soon be outdated, as the field of phycology is full of continual revelations and new discoveries. *Algae: Anatomy, Biochemistry, and Biotechnology*

Algal Biorefineries Aleš Prokop,Rakesh K. Bajpai,Mark E. Zappi,2016-08-23 Algae offer potential to produce renewable chemicals and fuels using solar energy and carbon dioxide from atmosphere or in flue gases while simultaneously reducing the generation of greenhouse gases. Since these can be grown on marginal lands with micronutrients and macronutrients often present in waste streams, algae-based chemicals and fuels do not compete with foods. Still large-scale production of algae-based fuels and chemicals faces considerable technological and economical challenges and it would by necessity require a biorefinery approach wherein all the possible algal components are converted into value-added compounds. The present series on algal biorefineries represents a forum for reporting the state of the art of different technologies as well as the latest advances in this field. The volume II of this series complements the volume I in terms of the current state of the art. Different chapters in this volume address diverse issues ranging from genetically modified algae to new products to life-cycle analysis of algal products.

The Story of the Jewish People Martin Gilbert, 2014-06-05 A history of Judaism written in letters from historian Martin Gilbert to his acquaintance in India, who wants to learn more about her ancestry. At her ninetieth birthday celebration in New Delhi, "Auntie Fori" revealed to her longtime acquaintance, Sir Martin Gilbert, that she was not of Indian birth but actually Hungarian—and Jewish. She did not know what this Jewish identity involved, historically or spiritually, and asked him to enlighten her. In response, Gilbert embarked on the series of letters that have been gathered to form this book, shaping each one as a concise, individually formed story. He presents Jewish history as the narrative expression—the timeline—of the Jewish faith, and the faith as it is informed by the history. In Sir Martin's hands, these stories are rich in incident and achievement, starting with Adam and Eve through the Biblical and post-Biblical periods, to the long history of the Jews in the Diaspora, and ending with an unexpected visit to an outpost of Jewry in Anchorage, Alaska. Ranging through almost every country in the world—including China and India—he maintains a chronological structure, weaving in the history of other peoples and faiths, to give Auntie Fori, and us, a sense of the larger stage on which Jewish history has played out. "Compact, breezy, and thoroughly enjoyable . . . For those, like Auntie Fori, hoping to understand the Jewish past and present, this book is a treasure." —Booklist

Taste Makers: Seven Immigrant Women Who Revolutionized Food in America Mayukh Sen, 2021-11-16 A New York Times Editors' Choice pick Named a Best Book of the Year by NPR, Los Angeles Times, Vogue, Wall Street Journal, Food Network, KCRW, WBUR Here & Now, Emma Straub, and Globe and Mail One of the Millions's Most Anticipated Books of 2021 America's modern culinary history told through the lives of seven pathbreaking chefs and food writers. Who's really behind America's appetite for foods from around the globe? This group biography from an electric new voice in food writing honors seven extraordinary women, all immigrants, who left an indelible mark on the way Americans eat today. Taste Makers stretches from World War II to the present, with absorbing and deeply researched portraits of figures including Mexican-born Elena Zelayeta, a blind chef; Marcella Hazan, the deity of Italian cuisine; and Norma Shirley, a champion of Jamaican dishes. In imaginative, lively prose, Mayukh Sen—a queer, brown child of immigrants—reconstructs the lives of these women in vivid and empathetic detail, daring to ask why some were famous in their own time, but not in ours, and why others shine brightly even today. Weaving together histories of food, immigration, and gender, Taste Makers will challenge the way readers look at what's on their plate—and the women whose labor, overlooked for so long, makes those meals possible.
