Queering Contemporary Asian American Art Laura Kina,Jan Christian Bernabe,2017-05-16 Queering Contemporary Asian American Art takes Asian American differences as its point of departure, and brings together artists and scholars to challenge normative assumptions, essentialisms, and methodologies within Asian American art and visual culture. Taken together, these nine original artist interviews, cutting-edge visual artworks, and seven critical essays explore contemporary currents and experiences within Asian American art, including the multiple axes of race and identity, queer bodies and forms, kinship and affect, and digital identities and performances. Using the verb and critical lens of “queering” to capture transgressive cultural, social, and political engagement and practice, the contributors to this volume explore the connection points in Asian American experience and cultural production of surveillance states, decolonization and diaspora, transnational adoption, and transgender bodies and forms, as well as heteronormative respectability, the military, and war. The interdisciplinary and theoretically informed frameworks in the volume engage readers to understand global and historical processes through contemporary Asian American artistic production.

Social Value Investing Howard W. Buffett,William B. Eimicke,2018-05-29 Social Value Investing presents a new way to approach some of society’s most difficult and intractable challenges. Although many of our world’s problems may seem too great and too complex to solve — inequality, climate change, affordable housing, corruption, healthcare, food insecurity — solutions to these challenges do exist, and will be found through new partnerships bringing together leaders from the public, private, and philanthropic sectors. In their new book, Howard W. Buffett and William B. Eimicke present a five-point management framework for developing and measuring the success of such partnerships. Inspired by value investing — one of history’s most successful investment paradigms — this framework provides tools to maximize collaborative efficiency and positive social impact, so that major public programs can deliver innovative, inclusive, and long-lasting solutions. It also offers practical insights for any private sector CEO, public sector administrator, or nonprofit manager hoping to build successful cross-sector collaborations. Social Value Investing tells the compelling stories of cross-sector partnerships from around the world — Central Park and the High Line in New York City, community-led economic development in Afghanistan, and improved public services in cities across Brazil. Drawing on lessons and observations from a broad selections of collaborations, this book combines real life stories with detailed analysis, resulting in a blueprint for effective, sustainable partnerships that serve the public interest. Readers also gain access to original, academic case material and professionally produced video documentaries for every major partnerships profiled — bringing to life the people and stories in a way that few other business or management books have done.

The Locker Next 2 Mine Jonathan Dorf,2013-06-07 For Alisa, it's already tough being a mid-year arrival in her junior year. To make matters worse, her locker is next to a sprawling shrine for Beth Turner, a lacrosse player who died a year earlier. While Alisa tries to eke out space for her books, the popular M Squad harasses the rest of the school into a state of non-stop remembrance for Beth. But when Alisa befriends Brady, a former student reporter, she discovers another recent death that was completely overshadowed by Beth's, leaving many students feeling isolated. Can the students band together to acknowledge these losses and begin to heal?

Media, Surveillance and Affect Nicole Falkenhayner,2018-12-21 Surveillance has become a part of everyday life: we are surrounded by surveillance technologies in news media, when we go down the street, in the movies, and even carry them in our own pockets in the form of smartphones. How are we constructing imaginaries of our realities and of ourselves as living in structures of control? What affects, emotions and feelings do we develop in societies of control, and how do we narrate them? Media, Surveillance and Affect represents a big step in revealing the depth of the entanglement of surveillance technology not only with our everyday lives, but with our imaginaries and affective experiences. Combining insights from affect studies with narratological and visual cultural studies approaches, the case studies in this book focus on how surveillance cameras and surveillance camera images have been used to narrate affective stories of Great Britain. Cases discussed include the memory work surrounding the murder of James Bulger in 1993 and of Lee Rigby in 2011, but also novels and artworks. With a multidisciplinary approach Media, Surveillance and Affect will appeal to students, scholars and specialists interested in fields such as media and cultural studies, literary studies, cultural sociology and surveillance studies.

Fastest, Highest, Strongest Rob Beamish,Ian Ritchie,2006-09-27 *Fastest, Highest, Strongest* presents a comprehensive challenge to the dominant orthodoxy concerning the use of performance-enhancing drugs in sport. Examining the political and economic transformation of the Olympic Movement during the twentieth century, the authors argue that the realities of modern sport require a serious reassessment of current policies, in particular the ban on the use of certain substances and practices. The book includes detailed discussion of: * The historical importance of World War II and the Cold War in the development of a high-performance culture in sport * The changing Olympic project: from amateurism to a fully professionalized approach * The changing meaning of sport * The role of sport science, technology and drugs in pursuing ever-better performance * The major ethical and philosophical arguments used to support the ban on performance-enhancing substances in sport. *Fastest, Highest, Strongest* is a profound critical examination of modern sport. Its straightforward style will appeal to under- and post-graduate students as well as scholars of sports ethics and history, policy makers and all those interested in the changing nature of sport.
