Hoping for Peace in Afghanistan Nick Hunter,2012-08-01 Our impressions of the War in Afghanistan usually consist of images we see on TV of soldiers, tanks, and debris. We hear numbers: of people dying, damaged buildings, and dates promising an end to the violence. However, in every war-torn country, there are ordinary people trying to live as normally as possible and survive amidst the danger, sadness, and chaos. Readers closely examine the war that has raged in Afghanistan since 2001—learning about the people on each side and the causes and consequences of the conflict. This account stands apart from other social studies texts with its inclusion of a fictional correspondence between two girls, one in Afghanistan and one in the United States. The captivating letters weaved throughout the nonfiction narrative bring to light the many commonalities between two young people who at first seem worlds apart.

Gravity-Defying Animals Natalie Lunis,2014-01-01 Gravity is an invisible yet powerful force that pulls people, animals, and objects down to the ground so that they don't float into the air. Others shoot out from under the water. Still others stick to ceilings without any glue. In

this book, young readers will discover eight of these extraordinary animals—and the secrets behind their gravity-defying powers. Eye-popping photos and clear, simple text bring these one-of-a-kind creatures to vivid life.

Invasive Species in the Air Richard Spilsbury, 2014-12-15 The wide, expansive sky is a highway for many beautiful, flying creatures. Though they have wings to help them escape danger, they're not safe from the invasive species in the air that try to take over their territory. Age-appropriate

Axed Phil Barker, 2022-06-01 Axed charts the dramatic decline of the magazine industry in Australia from the million-selling highs of the 1990s to the recent round of mergers, closures and mass-redundancies. What went wrong? Australian magazines once boasted the highest circulation per capita in the world. Former magazine editor Phil Barker follows the story from this golden age to today, showing how mismanagement, unchecked spending and the challenge presented by the rise of the internet all combined to undermine the previously unassailable position magazines held in the Australian consciousness. Prominent magazine executives and editors who witnessed the industry's decline and failure to capitalise on digital opportunities have gone on the record for the first time. Featuring in-depth analysis of archival reporting and brand-new interviews with key players, Axed lifts the lid on the scandals behind the industry's swan dive. But Phil also talks to the people who have managed to pivot in a fast-moving media landscape and believe magazines are a part of Australia's future. Are magazines really dead, or is there still some hope for survival?
