Digital Culture & Society (DCS) Ramón Reichert, Annika Richterich, Pablo Abend, Mathias Fuchs, Karin Wenz, 2016-12-31 »Digital Culture & Society« is a refereed, international journal, fostering discussion about the ways in which digital technologies, platforms and applications reconfigure daily lives and practices. The third issue »Politics of Big Data« edited by Mark Coté, Paolo Gerbaudo, and Jennifer Pybus, critically examines the political and economic dimensions of Big Data and thus details its contestation. The contributions focus on the materialities and processes which manifest Big Data and explore forms of value beyond the state and capital. These range from open data initiatives, social media metrics, machine learning algorithms, data visualisation to data dashboards, critical data analysis, and new modes of data action research and practice.

Maker Literacy Lynn Pawloski, Cindy Wall, 2016-11-07 This book takes the creativity and inventiveness of the maker movement and applies that energy in a new way to help children learn across all subject areas as well as broaden their world view. Traditional library literacy programs have helped many children foster a love of reading, but to prepare this next generation of learners, this programming needs to be modified to include technology. The inherent creativity and inventiveness of the Maker Movement, embracing both classic and innovative technological activities, provides the perfect bridge to invigorate, expand, and update these programs. This alternative to conventional library literacy programming will help children learn throughout all subject areas, see additional possibilities, and make connections in the world around them. With this guide, readers can discover how to apply maker literacy to introduce connections that help children better understand that their experiences in life are interrelated—that art can be made on a 3D printer and that science and technology are an essential part of design. This holistic approach provides a myriad of creative opportunities for both teaching staff and the children they serve. A great resource for youth services librarians in public libraries, this guide to infusing library programs with technology and maker activities to motivate learning will also appeal to preschool and elementary librarians, educators, and parents.

Create Your Own Photo Book Petra Vogt, 2012-05-25 These days, photographs live on hard drives and DVDs in the company of several thousand other images, coming to light on a computer screen only for a short moment, if ever. In that respect our computer is a one-image-at-a-time exhibition of our photographic work. But as photographers, we like to print our best images, frame and show them at home or at an exhibition, or present a collection of prints in a portfolio. This book will guide you through the process of creating a printed and bound portfolio of your photographs, or even a bookstore-quality coffee table book. Learn about every step of the process, from selecting a book publishing service all the way through designing and proofing your photo book. You'll get practical advice on how to work with software provided by services such as Blurb or VioVio, and will learn about relevant concepts of book design, color management, and digital printing. *Create your Own Photo Book* is the perfect guide for the aspiring amateur photographer as well as the seasoned pro.

SoulCollage Seena B. Frost,2001 SoulCollage™ is a process through which you contact your intuition and create an incredible deck of cards which have deep personal meaning and which will help you with life's questions. Following the simple SoulCollage directions, your hands move fragments of cut-out magazine pictures around, fitting them together in a surprising new way and gluing them down on a card. Cards containing the images you select -- or the images that select you -- come straight through your Soul, bypassing the mind. This is a multi-leveled, creative process which anyone can do. All you need is a good pair of scissors, pre-cut mat board cards, glue, and images you can cut out from magazines, greeting cards, personal photos, postcards, catalogues, and calendars. It is wonderful to have other people with whom to share the process. The cards are fun to take to a friend's house, to work with in therapy or support groups, or to keep on your coffee table.--Publisher description.

Teaching English culture through CALL Oana Samson, Generally, in language teaching, the emphasis is on the development of four separate skills: listening comprehension, reading comprehension, writing, and speaking. However, language teachers and scholars often refer to a fifth skill, which is culture. It is difficult to imagine language teaching without referring in one way or another to the target culture; therefore, culture has always been present in the teaching process. But what does this skill imply and how should it be included into the teaching-learning process? Compared to grammar or vocabulary, culture is more difficult to define; therefore, it is not clear what and how it should be taught. “TEACHING ENGLISH CULTURE THROUGH C.A.L.L.” se adreseaza studentilor,cadrelor didactice inscrie la diverse examene de perfectionare sau interesate de alternative in predare.Lucrarea este unica prin multitudinea de situatii prezentate, abordarea unei teme de actualitate in contextul predarii prin intermediul calculatorului si al integrarii culturii in predarea limbii engleze precum si prin utilitatea planurilor de lectii ce insotesc partea aplicativa.
