War on Film: Military History Education, Video Tapes, Motion Pictures, and Related Audiovisual Aids ,1987 This bibliography is a listing of selected, unclassified government and commercially produced motion picture films, videotapes and related audiovisual materials that support the teaching of American military history. It is designed to serve as a resource tool to assist instructors within the TRADOC Military History Education Program. Partial contents: General Military history; Military technology; Military Commanders and personalities; Unit histories; Colonial America to 1861; Civil War and Spanish-American War; World War I and between the wars; World War II; Korean War and the Cold war; Vietnam War to the Present; Hollywood Films.

**History of United States Naval Operations in World War II** Samuel Eliot Morison,2002-02 Volume 15: Supplement and General Index, chronicles the postwar operations of the U.S. Navy in the Pacific: the surrender of outlying Japanese garrisons, the occupation of Japan, minesweeping approaches to Japanese ports, and Operation Magic Carpet for the return of armed forces to the United States. This volume features a descriptive list of all named ships of the U.S. Navy during World War II, all types of landing, beaching, and other lettered craft, and types of aircraft used by the navy during the war. It also includes a list of errata and a general index to volumes 1-14.

**Hollywood North** Mike Gasher,2002 British Columbia's billion-dollar film industry trails behind only those of California and New York. This book recounts the story of British Columbia's rapid rise from relative obscurity in the film world to its current status as Hollywood North. Gasher positions the industry as a model

for commercial film production in the twenty-first century - one strongly shaped by a perception of cinema as a medium, not of culture, but of regional industrial development. He addresses the specific economic and geographic factors that contribute to the province's success, such as the low Canadian dollar and BC's proximity to Los Angeles. Hollywood North is an important book that brings into focus the tension between globalization and localization in the film industry.

**Beyond the Finish Line** Jonathan Finn, 2020-09-23 In the 1880s photographers and sports enthusiasts confidently declared the end of dead heats in sporting competition. Reflecting a broader social belief in technology, proponents of the camera stressed that the device could provide definitive proof of who won and who lost. Yet despite this remedy for the inadequate human eye, competitive races between horses, boats, and bicycles ended too close to call a sole champion. More than a century later, when cameras can subdivide the second into ten-thousandths and beyond, athletes continue to cross the finish line in ties. In this fascinating journey through the history of the photo-finish in sports, Jonathan Finn shows how innovation was animated by a drive for ever more precise tools and a quest for perfect measurement. As he traces the technological developments inspired by this crusade - from the evolution of the still camera to movie cameras, ultimately leading to complex contemporary photo-finish systems - Finn uncovers the social implications of adopting and contesting the photograph as evidence in sport. At every turn empirical obsession intersects with the unpredictability of sports, creating a paradox wherein the precision offered by photo-finish technology far exceeds the realities of human performance and its measurement. Separating athletes by the hundredth, thousandth, or ten-

thousandth of a second is often a fiction that comes with significant material and cultural implications. A lively biography of a critical technology, *Beyond the Finish Line* illuminates the cultural role of the photo-finish in win-at-all-costs culture and warn that in our pursuit for precision we may threaten the human element of sport that galvanizes mere spectators into fans.

**Photo Recon Became Fighter Duty** Steven K.

Dixon,2016-04-28 Trained as a photo reconnaissance unit, Marine Observation Squadron 251 ended up serving as a fighter squadron for the duration of World War II, shooting down 32 Japanese aircraft. The squadron earned several awards for outstanding performance, including the Presidential Unit Citation. This book is the first to cover the World War II history of VMFA-251, one of the Marine Corps' longest-serving squadrons. The author traces their operations from the unit's activation on December 1, 1941, through Guadalcanal, the reduction of Rabaul and their missions over the Philippines in 1945.

**Tube of Plenty** Erik Barnouw,1990-05-31 Based on the classic *History of Broadcasting in the United States*, *Tube of Plenty* represents the fruit of several decades' labor. When Erik Barnouw--premier chronicler of American broadcasting and a participant in the industry for fifty years--first undertook the project of recording its history, many viewed it as a light-weight literary task concerned mainly with entertainment trivia. Indeed, trivia such as that found in quiz programs do appear in the book, but Barnouw views them as part of a complex social tapestry that increasingly defines our era. To understand our century, we must fully comprehend the evolution of television and its newest extraordinary offshoots. With this fact in mind, Barnouw's new edition of *Tube of Plenty*

explores the development and impact of the latest dramatic phases of the communications revolution. Since the first publication of this invaluable history of television and how it has shaped, and been shaped by, American culture and society, many significant changes have occurred. Assessing the importance of these developments in a new chapter, Barnouw specifically covers the decline of the three major networks, the expansion of cable and satellite television and film channels such as HBO (Home Box Office), the success of channels catering to special audiences such as ESPN (Entertainment and Sports Programming Network) and MTV (Music Television), and the arrival of VCRs in America's living rooms. He also includes an appendix entitled questions for a new millennium, which will challenge readers not only to examine the shape of television today, but also to envision its future.

**Exploring Seriality on Screen** Ariane Hudelet, Anne Crémieux, 2020-10-25 This collective book analyzes seriality as a major phenomenon increasingly connecting audiovisual narratives (cinematic films and television series) in the 20th and 21st centuries. The book historicizes and contextualizes the notion of seriality, combining narratological, aesthetic, industrial, philosophical, and political perspectives, showing how seriality as a paradigm informs media convergence and resides at the core of cinema and television history. By associating theoretical considerations and close readings of specific works, as well as diachronic and synchronic approaches, this volume offers a complex panorama of issues related to seriality including audience engagement, intertextuality and transmediality, cultural legitimacy, authorship, and medium specificity in remakes, adaptations, sequels, and reboots. Written by a team of international scholars, this book highlights a diversity of

methodologies that will be of interest to scholars and doctoral students across disciplinary areas such as media studies, film studies, literature, aesthetics, and cultural studies. It will also interest students attending classes on serial audiovisual narratives and will appeal to fans of the series it addresses, such as *Fargo*, *Twin Peaks*, *The Hunger Games*, *Bates Motel*, and *Sherlock*.

**Televisuality** John Thornton Caldwell,1995 The collision of auteurism and rap--couched by primetime producers in the Northern Exposure script--was actually rather commonplace by the early 1990s. Series, and even news broadcasts, regularly engineered their narratives around highly coded aesthetic and cultural fragments, with a kind of ensemble iconography. Televisuality interrogates the nature of such performances as an historical phenomenon, an aesthetic and industrial practice, and as a socially symbolic act.

**A Book Maker's Art** William E. Reaves,Linda J. Reaves,2018-08-14 A significant collection of Texas paintings and prints hangs humbly and inconspicuously throughout the offices, conference rooms, and hallways of Texas A&M University Press. These works comprise the Frank H. Wardlaw Collection of Texas Art, named in honor of the Press's founding director, who was one of the genuine publishing icons of his day. Established in 1983 at the dedication of the new headquarters of Texas A&M University Press on the campus of Texas A&M, the collection began with twenty inaugural contributions that came as gifts from respected Texas artists whose art appeared in the books Wardlaw had shepherded to publication at the Press. Since then, the collection—which continues to be linked to artists published by the Press—has grown to house more than one hundred

paintings, photographs, and illustrations. Among the noted artists featured in the collection are E. M. (Buck) Schiwetz, Otis Dozier, Michael Frary, Everett Spruce, Emily Guthrie Smith, Jerry Bywaters, and, among more recent additions, Dorothy Hood and Richard Stout. Through interviews with longtime staff and research into the Press's book files and correspondence, William and Linda Reaves have uncovered the captivating history of this unlikely collection. In *A Book Maker's Art*, they present the freshly assembled story of the Wardlaw collection, from its modest yet unique beginning to its present-day status as one of the university's excellent collections of Texas art, reflecting the exceptional bond of arts and letters that has come to distinguish Texas A&M University Press.

Kanzler, Patrizia Simone, 2022-05-18 [bilingual edition ENG / FRE] Focus 2022: an anniversary issue! This FOCUS marks a double anniversary for the European Audiovisual Observatory: this year we celebrate the 25th edition of this publication and also the 30th anniversary of the Observatory itself. The fact that FOCUS goes back 25 years in our history proves that the film market is of crucial importance to our work! In 25 years, we have constantly expanded our film-related expertise and services, and in parallel the scope of our data collection. This was only possible due to our invaluable networks, especially the EFARN, which therefore deserves our sincere thanks on the occasion of these anniversaries. The FOCUS report, however, would not have developed as it did without the vision of our partner, the Marché du Film and in particular Jérôme Paillard, its longstanding Executive Director, whom we will always link to this publication even after his

imminent retirement. Thank you Jérôme for all these years of wonderfully easy cooperation! We are looking forward to continuing our work with your successor Guillaume Esmiol and the exceptional staff that he “inherits” from you.

Susanne Nikoltchev, Executive Director of the European Audiovisual Observatory

Cowboys, Creatures, and Classics Chris Enss, Howard Kazanjian, 2018-09-01 Take one well-oiled effective killing machine, add a familiar hero on the ground, in the air, and on horseback; stir in a ghastly end that’s surely impossible to escape, add action, add passion, made on a shoestring budget at breakneck speed, and you’ve got the recipe for Republic Pictures. Who, after all, cannot forget The Atomic Kid, starring Mickey Rooney, or The Untamed Heiress, with an un-Oscar-worthy performance by ingénue Judy Canova? Exploding onto the movie scene in 1935, Republic Pictures brought the pop culture of the 30s and 40s to neighborhood movie houses. Week after week kids sank into their matinee seats to soak up the Golden Age of the Republic series, to ride off into the classic American West. And they gave us visions of the future. Visions that inspire film makers today. Republic was a studio that dollar for dollar packed more movie onto the screen than the majors could believe. From sunrise on into the night over grueling six day weeks, no matter how much mayhem movie makers were called upon to produce, at Republic Pictures it was all in a day’s work. Republic Pictures was the little studio in the San Fernando Valley where movies were made family style. A core of technicians, directors, and actors worked hard at their craft as Republic released a staggering total of more than a thousand films through the late 1950s. Republic Pictures was home to John Wayne for thirty-three films. Always inventing, Republic brought a song to the West. It featured the West’s first singing cowboy. Republic

brought action, adventure, and escape to neighborhood movies houses across America. And they brought it with style. Scene from westerns such as *The Three Mesquiteers* and *the Lawless Range* gave screaming kids at the bijou a white-knuckle display of expert film making. Republic Pictures became a studio where major directors could bring their personal vision to the screen. Sometimes these were projects no other studio would touch such as *The Quiet Man* (which brought director John Ford an Oscar) and *Macbeth*. *Killer Bs, Cowboys, Creatures and Classics: The Story of Republic Pictures* is for anyone who likes B movies magic. It is the honest account of an extraordinary production house, one whose ability to turn out films quickly boded well for its transition into television production. Not only were its sets used for such shows as *Leave it to Beaver* and *Gilligan's Island*, stock footage from Republic's movies was used on such shows as *Gunsmoke* and *The Life and Legend of Wyatt Earp*.

### **American English File 3E Level 1 Student Book**

Christina Latham-Koenig, Clive Oxenden, Jerry Lambert, 2019-07-11 *American English File* Second Edition retains the popular methodology developed by world-renowned authors Christina Latham-Koenig and Clive Oxenden: language + motivation = opportunity. With grammar, vocabulary, and pronunciation practice in every

lesson, students are equipped with a solid foundation for successful speaking. Plus - an array of digital resources provides even more choice and flexibility. Students can learn in the classroom or on the move with Online Practice. language assessment. The first goal is to explore the difference between fairness and justice in language assessment. The authors distinguish internal and external dimensions of the equitable and just treatment of individuals taking language tests which are used as gatekeeping devices to determine access to education and employment, immigrant status, citizenship, and other rights. The second goal is to show how the extent of test fairness can be demonstrated and improved using the tools of psychometrics, in particular the models collectively known as Rasch measurement. "This book will have an enormous impact on the field of language assessment. Using Rasch analysis models to explore and identify sources of unfairness, the authors make a compelling case for fairness in the design and implementation of language assessment instruments and for justice in the interpretation and use of test results. A real strength of the book is that it guides readers through analytical techniques in an accessible way." Dan Douglas, Professor Emeritus, Applied Linguistics Program, Iowa State University.

Anna May Wong Philip Leibfried,Chei Mi

Lane,2015-05-20 Anna May Wong, born in Los Angeles in 1905 to a Chinese family that did not support her ambition, is the only Asian-American actress to have achieved stardom during Hollywood's Golden Age. Staying single to avoid endangering her career, she became the darling of the intelligentsia, inspiring poems, songs, and crowds of

admirers in the British Isles, Europe, and China. She leaves a legacy of some 60 film appearances, numerous stage and television shows, and several radio spots. This book covers Anna May Wong’s entire career and personal life. Detailed filmographic entries, with critical commentary as well as cast and technical credits, synopses, and newspaper and magazine reviews, are followed by Wong’s stage work and radio and television appearances.

overview of the  
bookthis book is  
about making  
choices among  
competing  
engineering  
alternatives most  
of the cash flow

consequences of  
the alternatives  
lie in the future  
so our attention is  
directed toward  
the future and not  
the past
