Pidgins and creoles Nicole Hahn,2009 Studienarbeit aus dem Jahr 2004 im Fachbereich Anglistik - Linguistik, Note: 1,0, Bergische Universität Wuppertal, Veranstaltung: Sociolinguistics, 8 Quellen im Literaturverzeichnis, Sprache: Deutsch, Abstract: Contents

Pidgins and Creoles Professor Loreto Todd,Loreto Todd,2003-09-02 The focus of this study is upon those pidgins and creoles which are English based and which have arisen since the fifteenth century. The book examines the widespread nature of the pidgin/creole phenomenon and evaluates the current definitions of the terms and the theories which have been advanced to account for their existence. The author considers the potential of pidgins and creoles as literary media and as vehicles for education. She looks at the sociological and psychological implications of using pidgins and creoles in the classroom and examines the position of American 'Black English' and 'London Jamaican' in the pidgin/creole continuum.

 Jamaican Creole is only one of the diversity in the creole-speaking world. In my term paper I will
 examine the emergence of a Creole. I start with an outline of the definitions of Pidgins and creoles
 and how they relate to each other. I continue with the most known origins of Pidgins, which is followed
 by the four phases of development from a Pidgin to a Creole. Finally, I will introduce the topic of De-
 and Re-creolization. 2. DEFINITIONS 2.1. Pidgins Defining what is a pidgin and what is not is a
 challenging undertaking. Generally, a Pidgin is “any combination and distortion of two languages as a
 means of communication.” (Sebba, 1997: 1) Pidgin English is defined as “any lingua franca consisting
 of English and another language.” (Sebba, 1997: 1) It is a reduced language that arises through
 extensive contact between different groups of people who do not share a common language (Holm,
 1988: 4). The Pidgin is strengthened because there is a need for these stated groups to communicate
 (for example for trade) but none of these groups learns the mother tongue of the other group (Holm,
 1988: 4). Speakers of these groups can be divided into at least two groups: Speakers with less power
 are speakers of the substrate language. Mostly, they are accommodating by adopting words of
 speakers with more power, speakers of the superstrate language (Holm, 1988: 5). Furthermore, the

superstrate speakers accept many of the emerging changes in order to facilitate communication and to become more comprehensible, simultaneously they do not try to speak as they do within their own group (Holm, 1988: 5).

Development and Stages of Pidgins and Creoles towards Decreolization. A Phonological Analysis

Thomas Gantner, 2015-06-12 Seminar paper from the year 2011 in the subject English Language and Literature Studies - Linguistics, grade: 2,3, University of Rostock (Institut für Anglistik und Amerikanistik), course: Enriching English, language: English, abstract: First, I will briefly portray the emergence of pidgin and creole languages and their development towards the post-creole continuum. I will examine the different types of pidgin-creole developments and the phenomenon of decreolizing - the approximation of the creole towards the lexifier by using the example of the Hawaiian Creole that I will also portray out of a socio-historical point of view. That creole is officially still called 'Hawai'i Pidgin' by its speakers, but I will avoid using that term in my paper. Therefore, the term Hawai'i Creole English, short HCE, is more appropriate. Furthermore, I will deal with HCE's phonology, especially with its difference to Standard English, in detail - due to the question whether HCE is decreolizing or not. As Norval S. H. Smith states, creole phonology is a "neglected field" and "younger languages" have the tendency to be not as much irregular as "elder language" tend to be.

Pacific Pidgins and Creoles Silja Recknagel, 2008-02-16 Seminar paper from the year 2005 in the subject English Language and Literature Studies - Linguistics, grade: 1,0, University of Duisburg-Essen, language: English, abstract: This essay aims at taking a closer look at the Pacific pidgin Tok Pisin. Especially the development of the pidgin into a creole will be considered in the following text. The chapter on the history of Tok Pisin is preceded by an excursus on the conditions of language

contact and the definition and genesis of pidgins in general. The history and thus the development into a creole as well as the current situation of Tok Pisin is completed with some examples of the lexicon of the creole. Here I laid certain emphasis on the different origins of English influence on Tok Pisin, as the social backgrounds of those who introduced the first form of the pidgin, the foreigner talk, are still reflected in the Tok Pisin vocabulary. Additionally I paid regard to the German influence on the pidgin and the linguistically changed situation under Australian administration after WWI. This part of the essay includes a brief paragraph on the sociolinguistic conditions and the conscious use of speech acts with in the pidgin. Finally I tried to give a rather short overview on the phonological and morphological features of Tok Pisin as well as on its grammar.

Melanesian Pidgin and Tok Pisin John W. M. Verhaar, 1990 The First International Conference on Pidgins and Creoles in Melanesia was planned mainly for Tok Pisin, but no predetermined theme(s) had been proposed to the participants. Nevertheless, in this collection of papers several principal themes stand out. One is that of a revived interest in substratology, both for Tok Pisin and for Bislama. Another is what in fact amounts to a change in perspective from universalism, as supposedly competitive with the substratological orientation, towards a generalist approach to typology, which reduces the apparent polarity, from a theoretical point of view. A third is the pervasive interest of contributors in wider language issues in the social and political life of Papua New Guinea. These

interests go back to the linguistic and social experience of the participants, most of whom have a long record of living among the people whose languages they have studied on a day-to-day basis, and to the relative remoteness of their inspiration from the more theoretical and perhaps ultimately untestable issues which surround the universalist approach and its claims for a bioprogram foundation for language.

Tok Pisin Babette Treptow,2010-09 Seminar paper from the year 2010 in the subject English Language and Literature Studies - Linguistics, grade: 1,3, Humboldt-University of Berlin, language: English, abstract: Pidgin and creole languages, once described as broken English, bastardized jargons or marginal languages, became objects of serious research for many professional linguists from all over the world. They have generally been accepted as new and independent languages rather than corrupted versions of other, so-called higher, languages (cf. Holm 2000:1). Pidgins and creoles became central to linguistic studies on first and second language acquisition, language linguistic universals, language change and language contact (cf. Todd 2001: 524). McMahon (1994: 253) points out that there are [a]pproximately 200 pidgin and creole languages spoken today, mostly in West Africa, the Caribbean and the South Pacific. Tok Pisin, a national language of Papua New Guinea, which is located in the southwest of the Pacific Ocean, can be considered a pidgin/creole language¹. In many respects, it shares the linguistic and socio-historical features of other pidgins and creoles spoken around the world. However, Tok Pisin is unusual with regard to its linguistic development, which did not take as much time as in the case of most other pidgin and creole languages. Moreover, linguists are eagerly interested in studying this contact language because its historical development is precisely and accurately documented (cf. Mühlhäusler 1990: 177-181). The pidgin language Tok

Pisin has been introduced in the course of this semester's seminar Contact Situations: English-Related Pidgins and Creoles. I was part of the presentation group on Tok Pisin. Already then, my interest was raised. Thus, I was concerned with literature and information about the pidgin language before I began to write this term paper. This term paper raises the question whether and to what extent Tok Pisin gains influence in Papua New Guinea over t
