Transnational Students and Mobility Hannah Soong,2015-08-20 As globalisation deepens, student mobility and migration has not only impacted economy and institutions, it has also infused human desires, imaginaries, experiences and subjectivities. In *Transnational Students and Mobility*, Hannah Soong portrays the vexed nexus of education and migration as a site of multiple tensions and existence and examines how the notion of imagined mobility through education-migration nexus transforms the social value of international education and transnational mobility.

**Corporate Environmental Responsibility in Investor-State Dispute Settlement** Tomoko Ishikawa,2022-12-08 This book explores the potential of the current investor-state dispute settlement (ISDS) mechanism to materialise the responsibility of foreign investors through the states' counterclaims and defences at the jurisdictional, merits, and quantum phases. In doing so, it seeks to incorporate the recent developments of ISDS in both international and domestic laws of certain jurisdictions on corporate responsibility, including the parent company's due diligence and legal effects of corporations' voluntary commitments. The book also reflects the interests and perspectives of the victims who suffered loss and injury due to investors' conduct. The author demonstrates that the current system does have the inherent potential to advance responsible investment, even though reforms are needed to overcome its limitations. Fully utilising this potential to reflect investor responsibility in IIA-based dispute settlement mechanisms will help to develop practices based on greater due diligence and responsible business conduct.
