The Mountains Sing Que Mai Phan Nguyen,2021-03-16 The International Bestseller A New York Times Editors’ Choice SelectionA Winner of the 2020 Lannan Literary Awards Fellowship [An] absorbing, stirring novel . . . that, in more than one sense, remedies history. —The New York Times Book Review “A triumph, a novelistic rendition of one of the most difficult times in Vietnamese history . . . Vast in scope and intimate in its telling . . . Moving and riveting.” —VIET THANH NGUYEN, author of *The Sympathizer*, winner of the Pulitzer Prize With the epic sweep of Min Jin Lee’s *Pachinko* or Yaa Gyasi’s *Homegoing* and the lyrical beauty of Vaddey Ratner’s *In the Shadow of the Banyan*, *The Mountains Sing* tells an enveloping, multigenerational tale of the Tr  n family, set against the backdrop of the Vi  t Nam War. Tr  n Di  u Lan, who was born in 1920, was forced to flee her family farm with her six children during the Land Reform as the Communist government rose in the North. Vivid, gripping, and steeped in the language and traditions of Vi  t Nam, *The Mountains Sing* brings to life the human costs of this conflict

from the point of view of the Vietnamese people themselves, while showing us the true power of kindness and hope. The Mountains Sing is celebrated Vietnamese poet Nguyen Phan Quoc Mai's first novel in English.

Sensehacking Charles Spence,2021-01-14 The world expert in multisensory perception on the remarkable ways we can use our senses to lead richer lives 'Talks total sense, lots of fun facts, right up there with the best of the best' Chris Evans 'Packed with studies on pain, attention, memory, mood' The Times How can the furniture in your home affect your wellbeing? What colour clothing will help you play sport better? And what simple trick will calm you after a tense day at work? In this revelatory book, pioneering and entertaining Oxford professor Charles Spence shows how our senses change how we think and feel, and how by 'hacking' them we can reduce stress, become more productive and be happier. We like to think of ourselves as rational beings, and yet it's the scent of expensive face cream that removes wrinkles (temporarily), a room actually feels warmer if you use a warmer paint colour, and the noise of the crowd really does affect the referee's decision. Understanding how our senses interact can produce incredible results. This is popular science at its unbelievable best. Pilgrim at Tinker Creek Annie Dillard, 2009-10-13 Winner of the Pulitzer Prize “The book is a form of meditation, written with headlong urgency, about seeing. . . . There is an ambition about her book that I like. . . . It is the ambition to feel.” – Eudora Welty, New York Times Book Review *Pilgrim at Tinker Creek* is the story of a dramatic year in Virginia's Roanoke Valley, where Annie Dillard set out to chronicle incidents of beauty tangled in a rapture with violence. Dillard's personal narrative highlights one year's exploration on foot in the Virginia region through which Tinker Creek runs. In the summer, she stalks muskrats in the creek and contemplates wave mechanics; in the fall, she watches a monarch butterfly migration and dreams of Arctic caribou. She tries to con a coot; she collects pond water and examines it under a microscope. She unties a snake skin, witnesses a flood, and plays King of the Meadow with a field of grasshoppers. The result is an exhilarating tale of nature and its seasons.

The Hate U Give Angie Thomas, 2018-08 Read the book that inspired the movie! Sixteen-year-old Starr lives in two worlds: the poor neighbourhood where she was born and raised and her posh high school in the suburbs. The uneasy balance between them is shattered when Starr is the only witness to the fatal shooting of her unarmed best friend, Khalil, by a police officer. Now what Starr says could destroy her community. It could also get her killed. Inspired by the Black Lives Matter movement, this is a powerful and gripping novel about one girl's struggle for justice.

Resources of Water Prathna Thanjavur Chandrasekaran, Muhammad Salik Javaid, Aftab Sadiq, 2021-02-24 Water is a limited natural resource indispensable for human existence. Water resources exist in the form of glaciers, oceans, rainwater, groundwater, and surface water. Uncontrolled population growth, urbanization, and inefficient management of natural resources have hastened the pace and impact of climate change. Floods and droughts related to climate change occur more frequently, destructing the livelihood of people and disrupting the fragile ecosystem. The need for conservation of available water resources and devising strategies for resource management is very relevant in the current scenario and this book deals precisely with water resources and their management. It provides abundant and relevant information on all aspects related to water resources, including the need for conservation, water management strategies in different parts of the world, the impact of climate change on water management, pollution of water resources and treatment, and so forth. The book will motivate readers and scientists alike to look further and make concerted efforts towards promoting the preservation and conservation of water resources.

Burying Water K.A. Tucker, 2014-10-07 The highly anticipated start of the “masterful” (New York Journal of Books) romantic suspense series from

the beloved nationally bestselling author of *Ten Tiny Breaths*. Left for dead in the fields of rural Oregon, a young woman defies all odds and survives—but she awakens with no idea who she is, or what happened to her. Refusing to answer to “Jane Doe” for another day, the woman renames herself “Water” for the tiny, hidden marking on her body—the only clue to her past. Taken in by old Ginny Fitzgerald, a crotchety but kind lady living on a nearby horse farm, Water slowly begins building a new life. But as she attempts to piece together the fleeting slivers of her memory, more questions emerge: Who is the next-door neighbor, quietly toiling under the hood of his Barracuda? Why won’t Ginny let him step foot on her property? And why does Water feel she recognizes him? Twenty-four-year-old Jesse Welles doesn’t know how long it will be before Water gets her memory back. For her sake, Jesse hopes the answer is never. He knows that she’ll stay so much safer—and happier—that way. And that’s why, as hard as it is, he needs to keep his distance. Because getting too close could flood her with realities better left buried. The trouble is, water always seems to find its way to the surface.
