Arabic Typography Huda Smitshuijzen AbiFarès,2001 In the twenty-first century, the widespread integration of computer technologies has brought text-based information into many facets of everyday life. This has caused an ever-growing interest in typography across many fields of visual communication, where text and letterform play a central role in disseminating social trends and reflecting the spirit of the times. Arabic Typography takes the reader through a comprehensive study of Arabic letterforms, starting with a concise historical overview of their development and styles, and proceeding to the latest design and technological advances. It attempts to establish the foundations for Arabic type-design by drawing lessons from past practices and aesthetic conventions, in order to retain the enduring traits that are of relevance for improvement and innovation in future type-design creations. Going beyond the historical facts to discuss current design issues pertaining to the creation and production of letterforms, it presents Arabic typographic design as an essential communication tool that should marry functionality and legibility to aesthetic delight. This book will serve as a valuable reference on Arabic typography, and as an educational guide for design students, professionals and anyone who uses Arabic type and enjoys the visual appearance of this language and its letterforms.

**Adrian Frutiger – Typefaces** Heidrun Osterer,Philipp Stamm,2014-05-08 The international creation of typefaces after 1950 was decisively influenced by the Swiss type designer Adrian Frutiger. His Univers typeface and the machine-readable font OCR-B, which was adopted as an ISO standard, are milestones, as is his type for the Paris airports, which set new standards for signage types and evolved into the Frutiger typeface. With his corporate types, he helped to define the public profiles of companies such as the Japanese Shiseido line of cosmetics. In all he created some fifty types, including Ondine, Méridien, Avenir, and Vectora. Based on conversations with Frutiger himself and on extensive research in France, England, Germany, and Switzerland, this publication provides a highly detailed and accurate account of the type designer's artistic development. All of his types – from the design phase to the marketing stage – are illustrated and analyzed with reference to the technology and related types. Hitherto unpublished types that were never realized and more than one hundred logos complete the picture. This second, revised and expanded study edition, which now has an index, makes Frutiger's achievement even more accessible.

*Symbols - 2013* Benedikt TASCHEN,2012-07

*Signs and Symbols* Adrian Frutiger,1998 Discusses the elements of a sign, and looks at pictograms, alphabets, calligraphy, monograms, text type, numerical signs, symbols, and trademarks.

*Typography Papers* Hendrik D.L. Vervliet,Justin Howes,Eric Kindel,Sue Walker,Linda Reynolds,2007-10-04 Typography Papers is an occasional book-length publication with a broad international scope, publishing extended articles relating typography to adjacent disciplines. Number 7 presents an eclectic collection of articles beginning with a lengthy consideration by type historian H. D. L. Vervliet of Claude Garamond: the designer whose new roman typefaces debuted in Paris in the 1530s and went on to dominate Western typography for the next two centuries. The late Justin Howes looks at the eighteenth-century belief in the necessity of perfection in type and printing. Eric Kindel discusses a nineteenth-century scheme for univocal letters. Sue Walker writes on twentieth-century typefaces designed for reading by young children. The issue concludes with Linda Reynolds's eyewitness account of pioneering work in legibility research in the 1970s and 1980s.

**Of the Just Shaping of Letters** Albrecht Durer,R. T. Nichol,2012-05 FROM THE APPLIED GEOMETRY OF ALBRECHT DÜRER BOOK III. Translated from the Latin text of the edition of MDXXXV by R. T. Nichol.

*Cold War Modern* David Crowley,Jane Pavitt,2008 Modern life after 1945 seemed to promise both utopia and catastrophe. Both could, it seemed, be achieved at the 'push of a button'. Published to accompany a major V & A exhibition, 'Cold War Modern: Design 1945-1970', this book explores how the politics of the Cold War shaped architecture and design. Reassessing 'classic' designs and introducing many little-known objects.
