Retailing in the European Union Stewart Howe,2005-08-12 As retailing becomes increasingly important in global economics, the similarities and differences of retailing from country to country are now more evident. This unique and timely study of retail structures across Europe, gives an insightful overview of the internationalization of retailing and asks important questions regarding the effectiveness of different retailing sectors. With chapters on Denmark, France, Germany, Greece, Italy, Spain and the United Kingdom, this contemporary study examines the extent to which Europe's increasingly homogenous environment applies to retailing. By considering overall structural and socio-economic variables of country-to-country retailing, it draws fascinating conclusions on efficiency and competition within the European Union. A major contribution to the field of European retail studies, this significant work in comparative legislation is essential reading for anyone studying retailing at postgraduate or undergraduate level or with an interest in comparative economics.

More&More (A Guide to the Harmonized System) Marina Zurkow,2016 More&More is an art and research project that explores the language and mechanics of global trade, container shipping, and the exchange of goods. It questions a mercantile structure that by necessity disallows the presence of ocean as a real space in order to flatten the world into a Pangaea of capital. The project is presented in two volumes, released in conjunction with an exhibition of Marina Zurkow's work (with collaborators Sarah Rothberg, Surya Mattu, and others) at bitforms gallery in New York City in February 2016. This book, *More&More (A Guide to the Harmonized System)*, is an experimental brick of a book that intervenes in the Harmonized Commodity Description and Coding System (also known as the HS Code). The HS Code is the internationally accepted standard of product classification, which codifies the way nations conduct import/export. All legal trade products (and illegal ones that find loopholes) are shipped using this system. *More&More (A Guide to the Harmonized System)* lists the astonishing variety of items that are shipped around the world, and includes instructions for using the code to ship items (both legally and illegally). It also includes poetic, personal, and scholarly annotations by Stacy Alaimo, Heather Davis, Kathleen Forde, Dylan Gauthier, Elena Glasberg, Calliope Mathios, Steve Mentz, Astrida Neimanis, Chris Piuma, Elspeth Probyn, Sarah

Rothberg, Phil Steinberg, Rita Wong, and Marina Zurkow.
