Give a Little Love Llewellyn RG Jegels,2023-05-19 This is the true story of a standout artist in the field of pop and sentimental song; a star entertainer who rose to fame in Cape Town, South Africa. The world reflected in this book has several genealogical strands reaching back to other histories - to the nineteenth century theatre, to the rise of racism in South Africa, and the ways people were forced to negotiate the contradictions of being human against impossible odds. We encounter a biographer with a subject which is close to him, and which he has meticulously researched over a course of time. The book offers insights into the musical world of the phonograph, of the global popular culture after the Second World War and how this was absorbed into Cape Town's popular culture.

Anatomy Museum Elizabeth Hallam,2016-06-15 The wild success of the traveling Body Worlds exhibition is testimony to the powerful allure that human bodies can have when opened up for display in gallery spaces. But while anatomy museums have shown their visitors much about bodies, they themselves are something of an obscure phenomenon, with their incredible technological developments and complex uses of visual images and the flesh itself remaining largely under researched. This book investigates anatomy museums in Western settings, revealing how they have operated in the often passionate pursuit of knowledge that inspires both fascination and fear. Elizabeth Hallam explores these museums, past and present, showing how they display the human body—whether naked, stripped of skin, completely dissected, or rendered in the form of drawings, three-dimensional models, x-rays, or films. She identifies within anatomy museums a diverse array of related issues—from the representation of deceased bodies in art to the aesthetics of science, from body donation to techniques for preserving corpses and ritualized practices for disposing of the dead. Probing these matters through in-depth study, Anatomy Museum unearths a strange and compelling cultural history of the spaces human bodies are made to occupy when displayed after death.
