Bauhaus Effects in Art, Architecture, and Design Kathleen James-Chakraborty, Sabine T. Kriebel, 2022-04-21 Bringing together an international team of scholars, this book offers new perspectives on the impact that the Bauhaus and its teaching had on a wide range of artistic practices. Three of the fields in which the Bauhaus generated immediately transformative effects were housing, typography, and photography. Contributors go further to chart the surprising relation of the school to contemporary developments in hairstyling and shop window display in unprecedented detail. New scholarship has detailed the degree to which Bauhaus faculty and students set off around the world, but it has seldom paid attention to its impact in communist East Germany or in countries like Ireland where no Bauhäusler settled. This wide-ranging collection makes clear that a century after its founding, many new stories remain to be told about the influence of the twentieth century's most innovative arts institution. The book will be of interest to scholars working in art history, design history, photography, and architectural history.

The Macedonian Front, 1915-1918 Basil Gounaris, Michael Llewellyn-Smith, Ioannis Stefanidis, 2022-03-31 The 'Macedonian question' has been much studied in recent years as has the political history of the period from the Balkan Wars in 1912-13 to the Treaty of Lausanne in 1923. But for a variety of reasons, connected with the political division of Greece and the involvement of outside powers, the events at and behind the Macedonian front have been side-lined. The recent commemorations of the centenary of the end of the First World War in the UK illustrate how by comparison with the enormous and moving emphasis on the western front, Macedonia has been not wholly but largely ignored. This volume illuminates this comparatively neglected period of Greek history and examines the strategic and military aspects of the war in Macedonia and the political, social, economic and cultural context of the war.

Learning with Information Systems Simon Bell, 2013-02-01 In Learning with Information Systems the author takes the developing world as the context and through a series of case studies develops a commonly used systems analysis methodology. He demonstrates how this methodology can evolve and adapt as new ideas become prominent. Issues of sustainability of information systems, participation in systems design and user ownership of systems are all examined. This book does not attempt to be prescriptive for all contexts nor does it focus on any particular technology. It addresses the essential questions and promises practical approaches which will help in the avoidance of the worst forms of disaster associated with the planning of information systems for developing countries.

The Veiled Web Catherine Asaro, 2022-09-27 "A near-future layering of East and West, of religion and technology . . . and of love and its loss—all woven into an intriguing tapestry." —Diana Gabaldon, bestselling author of the Outlander series Winner of the Homer Award for Best Science Fiction Novel A renowned prima ballerina, Lucia del Mar is far more comfortable expressing herself through dance than with words. Shy and introverted, she spends most of her spare time on her laptop. Still, Lucia's job forces her out of her comfort zone, which is how she winds up at a White House reception where she meets Rashid al-Jazari, the wealthy CEO of a multinational corporation. Although attracted to him, Lucia can't help but feel awkward and shrugs off their encounter as a one-time event. Not realizing he feels a similar attraction, she never imagines Rashid will seek out her performances; he is the last person she expects to see when her dance company travels to Italy. Their reunion takes an even more unexpected turn when they're both drugged and kidnapped. Although they overcome their abductors, it leaves them stranded in North Africa. For her own safety, Lucia agrees to marry Rashid, at least for the time being. As she recovers at his family compound in Morocco, reeling from their brush with danger, she struggles to fit into a culture she knows nothing about—and to deal with her growing feelings for Rashid. At the same time, at his secret office there, Rashid is developing a dramatic leap forward in artificial intelligence combined with virtual reality. He finds himself plunged into a fight for control of his work against powerful international forces, and caught in the middle, Lucia is swept into that battle . . . "A terrific novel, ripping a path from today's headlines to tomorrow's realities." —Robert J. Sawyer, Nebula Award-winning author

Public Policy and the Impact of COVID-19 in Europe Magdalena Tomala, Maryana Prokop, Aleksandra Kordonska, 2022 This book analyses Europe's COVID-19 response provided by governments and societies, to assess its influence on the economy from both a short- and long-term perspective. The authors argue that there are three key factors that determine how successful a given country is. The first is the determination and effectiveness of the government. The second is the capacity of states and their healthcare systems in times of crisis. The third is society's willingness to adhere to emergency measures and to cooperate with authorities. The book examines the government policy of EU states during the pandemic; studies the behaviour of EU societies; reveals the influence of the pandemic crisis on the economy of EU states and formulates a successful strategy to counteract the challenges wrought by the pandemic. The book will appeal to scholars and researchers engaged in the fields of economic and political science, global studies and international relations. Furthermore, it will also be addressed to policy makers of European States as it contains a complex analysis of their policy responses and the corresponding impact on European economy and society--

Taxation, Economy, and Revolt in Ancient Rome, Galilee, and Egypt Thomas R. Blanton, Agnes Choi, Jinyu Liu, 2022 This volume introduces new perspectives on taxation policies in the Roman Empire, the Galilee, and Egypt, with unique insights into the economic effects of imperial pacification on local and regional microlevel economies in the Galilee both before and after the First Jewish Revolt against Rome. Through examining tax documents and other ancient texts in detail, this book offers innovative perspectives on the mechanisms, ideological justifications, and politically hierarchizing functions of taxation and tribute, particularly in the Roman Empire. Moreover, leading archaeologists present important information about the economic effects of the First Jewish Revolt on local economies in the Galilee based on findings from recent archaeological excavations. Taxation, Economy, and Revolt is of interest to students and scholars in Classical, Biblical, and Jewish studies, as well as economic history and Mediterranean archaeology--

The Blonde Geisha Jina Bacarr, 2014-08-01 The early summer of 1892 brought a heavy rainy season that year in Japan. Plum Rain, the Japanese called it, because it comes when the fruit bulges with ripeness and promise. Like a young girl reaching womanhood. A girl like me. In the ancient Japanese tradition of beauty and grace, sex and erotic fantasies are hidden secrets that only a select few may learn, and which are forbidden to foreigners. But when a threat to her father's life puts her own in jeopardy, young Kathlene Mallory is sent to live in safety at the Tea House of the Look-Back Tree, where she is allowed to glimpse inside the sensual world of the geisha. During the years of her training in the art of pleasuring men, Kathlene's desires are awakened by the promise of unending physical delights, and she eagerly prepares for the final ritual that will fulfill her dream

of becoming a geisha — the selling of her virginity. The man willing to pay for such an honor, Baron Tonda, is not the man for whom Kathlene carries a secret longing, but he is the man who will bring ruin to the teahouse, and danger to Kathlene, if he is disappointed....

Security Implications Of Nationalism In Eastern Europe Jeffrey Simon,Trond Gilberg,2019-06-26 Suggesting that events in Poland during 1980-1981 represent the tip of an iceberg, the contributors examine the rise of nationalism in Eastern Europe and its potential consequences for European security. They analyze developing problems and trends in the region, including the cooling of relations between the USSR and individual countries in Eastern Europe, the continuing economic crisis, changing social structures, the influence of the intelligentsia, and the eroding importance of ideology as a key part of Eastern Europe's political culture. The second half of the book focuses on the impact of these shifts on political and military relations between the USSR and Eastern European countries and on the efficient functioning of the Warsaw Pact.
