Twelve Years a Slave Solomon Northup,2024-01-04 Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Nortup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US,on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

The Language of Ruins Patricia A. Rosenmeyer, 2018-04-03 A colossal statue, originally built to honor an ancient pharaoh, still stands today in Egyptian Thebes, with more than a hundred Greek and Latin inscriptions covering its lower surfaces. Partially damaged by an earthquake, and later re-identified as the Homeric hero Memnon, it was believed to speak regularly at daybreak. By the middle of the first century CE, tourists flocked to the colossus of Memnon to hear the miraculous sound, and left behind their marks of devotion (*proskynemata*): brief acknowledgments of having heard Memnon's cry; longer lists by Roman administrators; and more elaborate elegiac verses by both amateur and professional poets. The inscribed names left behind reveal the presence of emperors and soldiers, provincial governors and businessmen, elite women and military wives, and families with children. While recent studies of imperial literature acknowledge the colossus, few address the inscriptions themselves. This book is the first critical assessment of all the inscriptions considered in their social, cultural, and historical context. The Memnon colossus functioned as a powerful site of engagement with the Greek past, and appealed to a broad segment of society. The inscriptions shed light on contemporary attitudes toward sacred tourism, the role of Egypt in the Greco-Roman imagination, and the cultural legacy of Homeric epic. Memnon is a ghost from the Homeric past anchored in the Egyptian present, and visitors yearned for a close encounter that would connect them with that distant past. The inscriptions thus idealize Greece by echoing archaic literature in their verses at the same time as they reflect their own historical horizon. These and other subjects are

expertly explored in the book, including a fascinating chapter on the colossus's post-classical life when the statue finds new worshippers among Romantic artists and poets in nineteenth-century Europe.

Dwelling in the Household of God Mary L. Coloe, 2017-07-27 In her remarkable first book, *God Dwells With Us: Temple Symbolism in the Fourth Gospel*, Mary L. Coloe, P.B.V.M., explored the profound insight of John's Gospel expressed in Jesus' invitation to his disciples: Make your home in me, as I make mine in you (John 15:4). For the gospel's author and audience, the dwelling of God among humans was, above all, the Jerusalem Temple. The gospel traces how 'after the trauma of the destruction of the Temple' the Johannine community came to expand and deepen its knowledge of God's dwelling among humans, finding it now in the person of Jesus and in the community of believers. *Dwelling in the Household of God* moves us from seeing God's dwelling place as the Temple to seeing God's dwelling place within the community of believers. The starting point now is an image in John 14:2: my Father's house, which is given its Old Testament meaning of my father's household. Our awareness thus moves, like that of the first Christians, from understanding My father's house as the Temple (John 2:16) to My Father's Household as a community of believers drawn into Jesus' own divine filiation. Coloe invites us to re-read the gospel from the post-Easter perspective of those who have become brothers and sisters of Jesus and living Temples of God's presence. What emerges is nothing less than a profound mysticism of the mutual indwelling of God and believers. Mary Coloe, PBVM, DTh, holds a joint teaching position at the Australian Catholic University and St Paul's Seminary, Brisbane. Her publications include numerous articles and *God Dwells With Us: Temple Symbolism in the Fourth Gospel* (Liturgical Press, 2001).

Subnature David Gissen, 2012-03-20 We are conditioned over time to regard environmental forces such as dust, mud, gas, smoke, debris, weeds, and insects as inimical to architecture. Much of today's discussion about sustainable and green design revolves around efforts to clean or filter out these primitive elements. While mostly the direct result of human habitation, these 'subnatural forces' are nothing new. In fact, our ability to manage these forces has long defined the limits of civilized life. From its origins, architecture has been engaged in both fighting and embracing these so-called destructive forces. In *Subnature*, David Gissen, author of our critically acclaimed *Big and Green*, examines experimental work by today's leading designers, scholars, philosophers, and biologists that rejects the idea that humans can somehow recreate a purely natural world, free of the untidy elements that actually constitute nature. Each chapter provides an examination of a particular form of subnature and its actualization in contemporary design practice. The exhilarating and at times unsettling work featured in *Subnature* suggests an alternative view of natural processes and ecosystems and their relationships to human society and architecture. R&Sie(n)'s Mosquito Bottleneck house in Trinidad uses a skin that actually attracts mosquitoes and moves them through the building, while keeping them separate from the occupants. In his building designs the architect Philippe Rahm draws the dank air from the earth and the gasses and moisture from our breath to define new forms of spatial experience. In his Underground House, Mollier House, and Omnisport Hall, Rahm forces us to consider the odor of soil and the emissions from our body as the natural context of a future architecture. [Cero 9]'s design for the Magic Mountain captures excess heat emitted from a power generator in Ames, Iowa, to fuel a rose garden that embellishes the industrial site and creates a natural mountain rising above

the city's skyline. Subnature looks beyond LEED ratings, green roofs, and solar panels toward a progressive architecture based on a radical new conception of nature.

Bauhaus Effects in Art, Architecture, and Design Kathleen James-Chakraborty, Sabine T. Kriebel, 2022-04-21 Bringing together an international team of scholars, this book offers new perspectives on the impact that the Bauhaus and its teaching had on a wide range of artistic practices. Three of the fields in which the Bauhaus generated immediately transformative effects were housing, typography, and photography. Contributors go further to chart the surprising relation of the school to contemporary developments in hairstyling and shop window display in unprecedented detail. New scholarship has detailed the degree to which Bauhaus faculty and students set off around the world, but it has seldom paid attention to its impact in communist East Germany or in countries like Ireland where no Bauhäusler settled. This wide-ranging collection makes clear that a century after its founding, many new stories remain to be told about the influence of the twentieth century's most innovative arts institution. The book will be of interest to scholars working in art history, design history, photography, and architectural history.

The Macedonian Front, 1915-1918 Basil Gounaris,Michael Llewellyn-Smith,Ioannis

Stefanidis,2022-03-31 The ‘Macedonian question’ has been much studied in recent years as has the political history of the period from the Balkan Wars in 1912-13 to the Treaty of Lausanne in 1923. But for a variety of reasons, connected with the political division of Greece and the involvement of outside powers, the events at and behind the Macedonian front have been side-lined. The recent commemorations of the centenary of the end of the First World War in the UK illustrate how by comparison with the enormous and moving emphasis on the western front, Macedonia has been not wholly but largely ignored. This volume illuminates this comparatively neglected period of Greek history and examines the strategic and military aspects of the war in Macedonia and the political, social, economic and cultural context of the war.

Greek and Latin Inscriptions in the Manisa Museum Hasan Malay,1994 Approximately 190 inscriptions from the Manisa Museum in Turkey are published for the first time in this catalogue, as well as many other fragmentary inscriptions. Though including some important documents, unfortunately

many of the inscriptions are of unknown provenance.

Nothing But Fear Knud Romer, 2012 The Second World War is long over but its legacy continues to tear a town - and a young boy's life - apart. Knud is growing up in Falster, a small Danish town in the 1960s. The war is over but the Germans are still hated and Knud has a German mother. Bullied and persecuted at school, he retreats into the eccentric world of his family's history - but he can't escape the fact that, for him, his parents, and his paternal grandparents, the war is still being fought. Depicting a town and a family devastated by prejudice, *Nothing But Fear* is written with empathy and venom in equal measure.

Charles Strong's Australian Church Marion Maddox, 2021-11-30 In the optimistic years preceding Federation in 1901, the Melbourne-based Australian Church emerged as a progressive Christian movement to serve a brand-new nation. Galvanising many members of Melbourne's social and political elite, activist Reverend Dr Charles Strong imagined the Australian Church becoming the national church, while addressing a broad social and political reform agenda, inspired by both theological and social liberalism.

Their approach was described as ‘progressive’, ‘liberal’, ‘radical’ and ‘socialist’. Strong and his wife, Janet, founded or led organisations for causes ranging from peace to penal reform. They fought for urban slum improvements, rural village settlements, childcare and adult education, the minimum wage and women’s suffrage. Some organisations endure today; others left lasting legacies in Australian methods of addressing social inequality. Bringing together leading scholars of history, politics and religion, Charles Strong’s Australian Church celebrates the church’s radicalism, while taking account of debates and obstacles on the path to social reform.
