The Last Lecture Randy Pausch, 2008-04-08 After being diagnosed with terminal cancer, a professor shares the lessons he's learned—about living in the present, building a legacy, and taking full advantage of the time you have—in this life-changing classic. We cannot change the cards we are dealt, just how we play the hand. —Randy Pausch A lot of professors give talks titled The Last Lecture. Professors are asked to consider their demise and to ruminate on what matters most to them. And while they speak, audiences can't help but mull over the same question: What wisdom would we impart to the world if we knew it was our last chance? If we had to vanish tomorrow, what would we want as our legacy? When Randy Pausch, a computer science professor at Carnegie Mellon, was asked to give such a lecture, he didn't have to imagine it as his last, since he had recently been diagnosed with terminal cancer. But the lecture he gave—Really Achieving Your Childhood Dreams—wasn't about dying. It was about the importance of overcoming obstacles, of enabling the dreams of others, of seizing every moment (because time is all you have . . . and you may find one day that you have less than you think). It was a summation of everything Randy had come to believe. It was about living. In this book, Randy Pausch has combined the humor, inspiration and intelligence that made his lecture such a phenomenon and given it an indelible form. It is a book that will be shared for generations to come.

Power to the Players Rob Smat, 2023-10-24 The sea shanties, YOLO's, and red bandanas aren't even half of the GameStop story. Did you know Robinhood didn't initiate their infamous trading halt? Did you know why Redditors refer to 2021 as the sneeze rather than the squeeze? Did you know that shares in your brokerage account might be counterfeits? If not, buckle up. Witness firsthand the real and utterly ludicrous hivemind that brought Wall Street to its knees in January 2021, and find out why GameStop was only the beginning of an even more unprecedented retail contagion, one which will challenge everything you think you know about our markets (all over again). If the meme mania of 2021 drew blood from Wall Street, what follows is the Shakespearean realization that Reddit's blade was in fact poisoned. In a digital world of frequently deleted, revised, and buried information, accurately piecing together events as they occurred is nearly impossible. Other authors and journalists have understandably struggled, but not author Rob Smat, who has been a witness to every part of the GameStop phenomenon, having lived it himself. Power to the Players is as much an unabridged history of the GameStop sneeze as it is a roadmap of how retail traders regrouped in the months and years that followed, when everyone else thought the story had ended in calamity. The truest of diamond hands never sold, and their power has only grown stronger since. Before, Redditors were only a nuisance to the status quo. Now, they are inevitable.

Before and After Corroboree: The Music of John Antill David Symons, 2017-07-28 John Antill (1904-1986) was one of the foremost composers of Australia's post-colonial period. Although a relatively prolific and much esteemed composer in Australia, Antill's wider reputation is sustained chiefly by his famous ballet Corroboree - a work which was perceived to bring an authentic Australian musical style before both a national and international audience for the first time. Through Sir Eugene Goossens' championship, the work was heard by enthusiastic audiences in Australia, Britain, Europe and the USA, and was, for many years, the best-known work of any Australian-born and resident composer. Indeed it has remained, for both Australian and overseas audiences, an Australian musical icon. David Symons traces Antill's development as a composer from his early, pre-Corroboree works, which display a late Romantic to post-impressionist style, through an analysis of the virile, dissonant, primitivist idiom of his magnum opus, to an examination of his later output of theatrical, orchestral and vocal/choral works. The book provides comprehensive and valuable insight into Antill's musical output, at the same time focussing on more detailed analyses of his major works which have reached public performances and/or recordings. In this way the book not only presents a developmental picture of Antill's works, but also demonstrates why they have made him one of Australia's most prominent musical creators of the post-colonial period.

Adolph Rupp and the Rise of Kentucky Basketball James Duane Bolin, 2019-03-15 An in-depth look at the life of the influential University of Kentucky basketball coach and his legacy. Known as the “Man in the Brown Suit” and the “Baron of the Bluegrass,” Adolph Rupp (1901-1977) is a towering figure in the history of college athletics. In *Adolph Rupp and the Rise of Kentucky Basketball*, historian James Duane Bolin goes beyond the wins and losses to present the fullest account of Rupp’s life to date based on more than one-hundred interviews with Rupp, his assistant coaches, former players, University of Kentucky presidents and faculty members, and his admirers and critics, as well as court transcripts, newspaper accounts, and other archival materials. His teams won four NCAA championships (1948, 1949, 1951, and 1958), the 1946 National Invitation Tournament title, and twenty-seven Southeastern Conference regular season titles. Rupp’s influence on the game of college basketball and his impact on Kentucky culture are both much broader than his impressive record on the court. Bolin covers Rupp’s early years—from his rural upbringing in a German Mennonite family in Halstead, Kansas, through his undergraduate years at the University of Kansas playing on teams coached by Phog Allen and taking classes with James Naismith, the inventor of basketball—to his success at Kentucky. This revealing portrait of a pivotal figure in American sports also exposes how college basketball changed, for better or worse, in the twentieth century. Praise for *Adolph Rupp and the Rise of Kentucky Basketball* “This detailed and richly researched biography is written in a clear and engaging manner that reflects the work of a historian at the top of his game. Bolin is definitely fully engaged with Adolph Rupp’s multi-faceted life and has demonstrated his mastery of his wide-ranging sources. An excellent book!” —Richard O. Davies, Distinguished Professor of History, Emeritus, University of Nevada, Reno “An incisive analysis of Adolph Rupp’s role in creating the Big Blue Nation An unvarnished and well-sourced examination of a flawed human being A must-read for any true Kentucky fan.” —Roberta Schultz, WVXU Radio Cincinnati

Outcastia Campaign Setting Book II: Player's Guidebook Nitehawk Interactive Games, Healing, Performance and Ceremony in the Writings of Three Early Modern Physicians:

Hippolytus Guarinonius and the Brothers Felix and Thomas Platter M.A. Katritzky, 2016-12-05 While the writings of early modern medical practitioners habitually touch on performance and ceremony, few illuminate them as clearly as the Protestant physicians Felix Platter and Thomas Platter the Younger, who studied in Montpellier and practiced in their birth town of Basle, or the Catholic physician Hippolytus Guarinonius, who was born in Trent, trained in Padua and practiced in Hall near Innsbruck. During his student years and brilliant career as early modern Basle's most distinguished municipal, court and academic physician, Felix Platter built up a wide network of private, religious and aristocratic patients. His published medical treatises and private journal record his professional encounters with them as a healer. They also offer numerous vivid accounts of

theatrical events experienced by Platter as a scholar, student and gifted semi-professional musician, and during his Grand Tour and long medical career. Here Felix Platter's accounts, many unavailable in translation, are examined together with relevant extracts from the journals of his younger brother Thomas Platter, and Guarinonius's medical and religious treatises. Thomas Platter is known to Shakespeare scholars as the Swiss Grand Tourist who recorded a 1599 London performance of Julius Caesar, and Guarinonius's descriptions of quack performances represent the earliest substantial written record of commedia dell'arte lazzi, or comic stage business. These three physicians' records of ceremony, festival, theatre, and marketplace diversions are examined in detail, with particular emphasis on the reactions of 'respectable' medical practitioners to healing performers and the performance of healing. Taken as a whole, their writings contribute to our understanding of many aspects of European theatrical culture and its complex interfaces with early modern healthcare: in carnival and other routine manifestations of the Christian festive year, in the extraordinary performance and ceremony of court festivals, and above all in the rarely welcomed intrusions of quacks and other itinerant performers.

Scenarios of Power Richard S. Wortman, 2013-10-31 This new and abridged edition of *Scenarios of Power* is a concise version of Richard Wortman's award-winning study of Russian monarchy from the seventeenth century until 1917. The author breaks new ground by showing how imperial ceremony and imagery were not simply displays of the majesty of the sovereign and his entourage, but also instruments central to the exercise of absolute power in a multinational empire. In developing this interpretation, Wortman presents vivid descriptions of coronations, funerals, parades, trips through the realm, and historical celebrations and reveals how these ceremonies were constructed or reconstructed to fit the political and cultural narratives in the lives and reigns of successive tsars. He describes the upbringing of the heirs as well as their roles in these narratives and relates their experiences to the persistence of absolute monarchy in Russia long after its demise in Europe.

Playing with Earth and Sky James Housefield, 2016-07-05 *Playing with Earth and Sky* reveals the significance astronomy, geography, and aviation had for Marcel Duchamp - widely regarded as the most influential artist of the past fifty years. Duchamp transformed modern art by abandoning unique art objects in favor of experiences that could be both embodied and cerebral. This illuminating study offers new interpretations of Duchamp's momentous works, from readymades to the early performance art of shaving a comet in his hair. It demonstrates how the immersive spaces and narrative environments of popular science, from museums to the modern planetarium, prepared paths for Duchamp's nonretinal art. By situating Duchamp's career within the transatlantic cultural contexts of Dadaism and Surrealism, this book enriches contemporary debates about the historical relationship between art and science. This truly original study will appeal to a broad readership in art history and cultural studies.

Satyajit Ray's The Chess Players and Postcolonial Film Theory Reena Dube, 2005-05-04 Indispensable for students of film studies, in this book Reena Dube explores Satyajit Ray's films, and

The Chess Players in particular, in the context of discourses of labour in colonial and postcolonial conditions. Starting from Daniel Defoe and moving through history, short story and film to the present, Dube widens her analysis with comparisons in which Indian films are situated alongside Hollywood and other films, and interweaves historical and cultural debates within film theory. Her book treats film as part of the larger cultural production of India and provides a historical sense of the cross genre borrowings, traditions and debates that have deeply influenced Indian cinema and its viewers.

Role of a Lifetime: Larry Farmer and the UCLA Bruins Larry Farmer, Tracy Dodds, 2023-02-21 Role of a Lifetime is the story of the crucial role Larry Farmer played on teams that won three NCAA titles for UCLA under Coach John Wooden. Farmer's record at UCLA was 89-1, the greatest winning percentage in NCAA history. (Kareem Abdul-Jabbar was 88-2.) Role of a Lifetime also details how Farmer, a self-taught player from the playgrounds of Denver, managed to secure a full scholarship, make the varsity team as a sophomore, and ultimately become the head basketball coach at UCLA at the age of 30—the first black head coach for any sport at UCLA. The book chronicles the reactions of black leaders to his role as the first black head coach, as well as the inside politics that led him to resign after three years as coach, just days after accepting a two-year extension. Farmer also shares new insights about UCLA athletic booster Sam Gilbert and his role in the team's NCAA probation. Farmer's insider perspective during UCLA basketball's most fabled period, combined with his natural ability to relate entertaining and informative anecdotes about legendary figures such as John Wooden, Bill Walton, Jamaal Wilkes, Reggie Miller, and many other famous players and coaches from throughout the world of college basketball, makes Role of a Lifetime a must-have for all Bruin fans and fans of basketball everywhere!

Faithfull Marianne Faithfull, 2000-06-06 From pop stardom through the depths of addiction to her punk-rock comeback, Marianne Faithfull's life captures rock 'n' roll at its most decadent and its most destructive. Faithfull's first hit, 1964's As Tears Go By, opened doors to the hippest circles in London. There she frolicked with the most luminous of the young, rich, and reckless, including Bob Dylan, the Beatles, and the Rolling Stones. Her legendary affair with Mick Jagger produced one hit single, Sister Morphine, and countless headlines. Faithfull left the relationship a strung-out junkie. Struggling to kick drugs and revive her musical career, she recorded Broken English in 1979, an edgy, hard-hitting, critical triumph. As honest in her autobiography as in her music, Faithfull is a searing, intimate portrait of a woman who examines her adventures and misadventures without flinching, without apology.

Ceremony and Text in the Renaissance Douglas F. Rutledge, 1996 Ceremony and Text in the Renaissance is a contribution to the history of cultural semiotics in Early Modern Europe. Prof. Thomas M. Greene's theoretical exposition introduces a series of articles that consider the interaction between literary production and ceremonial performance in the larger cultural text of the Renaissance. The Renaissance engaged in a greater number of ceremonial performances than the preceding era, but the Reformation had irrevocably altered the language of ceremony, reducing its magical efficacy and diminishing its ability to inspire community. According to Professor Greene, the essays address one large but limited area of semiotic practice, the social role of ceremonial performance during the early modern period, examining the interplay between ceremonial and the narrative, dramatic, or poetic text.
