Video Playtime Ann Gray,2006-08-21 The 1980s saw an explosion in the use of the domestic video cassette recorder (VCR), arguably the most significant new form of home entertainment technology since television. In *Video Playtime* Ann Gray investigates what women themselves felt about the VCR, both in terms of the ways these entertainment facilities were used within their households, and what kinds of programmes and films they themselves particularly enjoyed. Ann Gray draws heavily on verbatim quotes from discussions to provide a rich description of different types of household micro-cultures and to give readers more direct access to the women themselves and the ways in which they accounted for their own experience. *Video Playtime* addresses questions of domestic technology as well as those of taste and cultural preference, particularly in relation to class, addressing the dynamics of power within existing social and cultural relations and thereby setting the analysis within a much wider social context.

**Play time** Daisy Black,2020-11-17 This book presents an important re-theorisation of gender and anti-Semitism in medieval biblical drama. It charts conflicts staged between dramatic personae in plays that represent theological transitions, including the Incarnation, Flood, Nativity and Bethlehem slaughter. Interrogating the Christian preoccupation with what it asserted was a superseded Jewish past, it asks how models of supersession and typology are subverted when placed in dramatic dialogue with characters who experience time differently. The book employs theories of gender, performance, anti-Semitism, queer theory and periodisation to complicate readings of early theatre's biblical matriarchs and patriarchs. Dealing with frequently taught plays as well as less familiar material, the book is essential reading for specialist, undergraduate and postgraduate researchers working on medieval performance, gender and queer studies, Jewish-Christian studies and time.

Harun Farocki Thomas Elsaesser,2004 Filmmaker, film essayist, installation artist, writer: the Berlin artist Harun Farocki has devoted his life to the power of images. Over the thirty-plus years of his career, Farocki has explored not the images of life but rather the life of images that surrounds us in newspapers, cinema, books, television, and advertising. Harun Farocki examines, from different critical perspectives, his vast oeuvre, which includes three feature films, critical media pieces, children's television features, "learning films" in the tradition of Brecht, and installation pieces. Interviews, a selection of Farocki's own writings, and an annotated filmography complete a valuable biography of this pioneering artist and his legendary career.

*Modern Power and Free Speech* Chris Demaske,2011 *Modern Power and Free Speech* explores the complicated relationship between the First Amendment and culturally disempowered groups within the United States. By focusing on hate speech, Internet pornography, and political dissent, Chris Demaske analyzes First Amendment discourse and doctrine, and questions the role of the concept of the autonomous individual. Demaske asserts that the presupposed equality of so-called autonomous individuals does not exist and goes on to show how these specious claims to equality only serve to further silence those marginalized members of American society. Combining legal analysis. First Amendment theory, feminist theory, and political theory, Demaske addresses the inadequacies of current free

**Peter Gabriel, From Genesis to Growing Up** Sarah Hill, 2017-07-05 Ever since Peter Gabriel fronted progressive rock band Genesis, from the late 1960s until the mid 1970s, journalists and academics alike have noted the importance of Gabriel's contribution to popular music. His influence became especially significant when he embarked on a solo career in the late 1970s. Gabriel secured his place in the annals of popular music history through his poignant recordings, innovative music videos, groundbreaking live performances, the establishment of WOMAD (the World of Music and Dance) and the Real World record label (as a forum for musicians from around the world to be heard, recorded and promoted) and for his political agenda (including links to a variety of political initiatives including the Artists Against Apartheid Project, Amnesty International and the Human Rights Now tour). In addition, Gabriel is known as a sensitive, articulate and critical performer whose music reflects an innate curiosity and deep intellectual commitment. This collection documents and critically explores the most central themes found in Gabriel's work. These are divided into three important conceptual areas arising from Gabriel's activity as a songwriter and recording artist, performer and activist: 'Identity and Representation', 'Politics and Power' and 'Production and Performance'.

**A-Z of Play in Early Childhood** Janet Moyles, 2012-10-16 This indispensable guide uses a unique glossary format to explore some of the key themes in play in early childhood, many of which regularly arise for students, tutors, parents and practitioners. As well as covering key concepts, theories and influential figures in the field, the book considers important aspects of each construct and highlights the complexity of play in early childhood. Each section of the book: Outlines key aspects of a construct in relation to play Includes a wide range of references Summarizes research from an international perspective Offers insights from other well known figures with expertise in play This book takes the stance that play is vital to children's holistic development, self-efficacy and well-being

and that play, and playful learning and teaching, is the essential ingredient in order for children to develop enthusiastic dispositions to learning. This positive view of play draws on the author's extensive experience and observations of children playing in preschool settings, early years classrooms, out in the park and in different home situations. This essential reference book is vital reading for all those working and playing with young children and students on early childhood courses. "Janet Moyles consistently provides informed and valuable insights in her writing about the contested world of play. Her work is guaranteed to be informed by watching and listening to children, by her understanding of what they say and think, as well as by her wide-ranging knowledge of significant research in the field. In this, A-Z of Play in Early Childhood, Janet demonstrates her encyclopaedic knowledge of the field which will be of enormous value to those studying play who are looking for explanations, references and cross references. Indeed, the introduction should be used as a base text for those beginning their studies of play. Janet writes in a brilliantly authoritative style as she draws in research and researchers who surround quite contentious and complex issues. This is a scholarly text and is to be trusted." Dr Kathy Gooch, Reader in Education, Canterbury Christ Church University, UK "In this fascinating and engaging text, Janet Moyles does not attempt to define play. Rather, through a deceptively simple glossary, she illustrates and explores the complexity of play in early childhood. Each entry draws on theory and research from the UK and beyond in order to outline and summarise current thinking and to support further exploration of key ideas. This text will be invaluable to early childhood students and practitioners and to all those interested in extending their thinking about play." Professor Trisha Maynard, Director, Research Centre for Children, Families and Communities, Canterbury Christ Church University, UK "Those of us who have prepared indexes know about the serendipity of insights gained and new connections made. Here Janet Moyles shares with us her understanding and reflection on play gleaned from many years of writing about (and indexing) play. This book certainly works a useful dictionary to remind us of what (for example) 'epistemic play' means, but I would advise readers to approach it more playfully. The innovative index-as-chapter-heading tempts you to flick across to other sections and Moyles's explanations and discursive comments lead your thinking out from the particular entry into wider consideration of the importance of play. The imaginative use of photographs to illustrate entries, combined with illustrative examples, helps to make distinctions between the different types/aspects of play, and unobtrusive referencing is available for those who have been inspired to pursue particular interests further." Dr Jan Georgeson, Research Fellow in Early Education Development, Plymouth University, UK "Janet's brilliant idea - coupled with her characteristic meticulous application - has provided early childhood education and care with a rich treasure trove: a book to use for reference, as a starting point for reflection, a spark for debate and, importantly, a reiteration of the central role of play in the lives of children." Tricia David, Emeritus Professor, Canterbury Christ Church University, UK

**Creating Interior Atmosphere** Jean Whitehead, 2017-12-14 This book sets out to explore the creation of interior atmosphere as seen through the lens of *mise-en-scène*. You will learn how this film theory informs the concept of 'staged space' translated through the narrative and expressive qualities of a particular scene. Jean Whitehead quickly takes this concept beyond the screen and considers its application to the interior 'setting'. By learning to use the ingredients that inform an 'interior' *mise-en-scène* such as its backdrop, choice of props, use of special effects alongside the application of colour, pattern, graphics, light and shadow, an immersive atmospheric experience can be created. Packed with inspiring examples and case studies, ranging from cinematic interiors and art installations, to the work of notable interior designers, stylists and architects with an interior interest, this book broadens current thinking around the design of the decorated interior. It will help you to embrace the concepts that underpin an interior *mise-en-scène* through the use of softer decorative techniques and concerns.

**Try Your Hand at This** Kathy MacMillan, 2005-11-10 This guide demonstrates everything from how to set up programming involving sign language for all ages, to dealing with and paying interpreters, and from publicizing programs to the public and within the deaf community, to evaluating and

improving the library's sign language collection. Kathy MacMillan's impressive understanding and knowledge of the deaf community and the importance of sign language—as well as her exceptional handling of the numerous erroneous myths about deafness and sign language that are, unfortunately, still often current—make this handbook indispensable for all library personnel looking to reach out to the deaf community.
