Guide to Cultivating Complex Analysis Jiri Lebl, 2020-09-16 An introductory course in complex analysis for incoming graduate students. Created to teach Math 5283 at Oklahoma State University. The book has somewhat more material than could fit in a one-semester course, allowing some choices. There are also appendices on metric spaces and some basic analysis background to make for a longer and more complete course for those that have only had an introduction to basic analysis on the real line.

Les Compagnonnages en France au XXe siècle : Histoire, mémoire, représentations François Icher, 1998-12-31T23:00:00+01:00 Ce livre dresse le bilan du compagnonnage au XXe siècle. Fortement déstabilisé par les conséquences des révolutions industrielles, il a failli disparaître au début du siècle, avant de renaître sous une forme nouvelle, sous les auspices du régime de Vichy. « Copyright Electre »

Urban Food Culture Cecilia Leong-Salobir,2019-04-02 This book explores the food history of twentieth-century Sydney, Shanghai and Singapore within an Asian Pacific network of flux and flows. It engages with a range of historical perspectives on each city's food and culinary histories, including colonial culinary legacies, restaurants, cafes, street food, market gardens, supermarkets and cookbooks, examining the exchange of goods and services and how the migration of people to the urban centres informed the social histories of the cities' foodways in the contexts of culinary nationalism, ethnic identities and globalization. Considering the recent food history of the three cities and its complex narrative of empire, trade networks and migration patterns, this book discusses key aspects of each city's cuisine in the twentieth century, examining the interwoven threads of colonialism and globalization.
