The Craft of Stone Brewing Co. Greg Koch, Steve Wagner, Randy Clemens, 2011-10-18 From the craft favorite brewery, a guide to making the best beer at home, with accompanying recipes and insider lore. Since its inception in 1996, Stone Brewing Co. has been the fastest growing brewery in the country. Beer lovers gravitate to its unique line-up, which includes favorites such as Stone IPA and Arrogant Bastard Ale. This insider's guide focuses on the history of Stone Brewing Co., and shares homebrew recipes for many of its celebrated beers including Stone Old Guardian Barley Wine, Stone Smoked Porter, and Stone 12th Anniversary Bitter Chocolate Oatmeal Stout. In addition, it features recipes from the Stone Brewing World Bistro & Gardens like Garlic, Cheddar, and Stone Ruination IPA Soup, BBQ Duck Tacos, and the legendary Arrogant Bastard Ale Onion Rings. With its behind-the-scenes look at one of the leaders of the craft beer scene, *The Craft of Stone Brewing Co.* will captivate and inspire legions of fans nationwide.

Beyond the Point Claire Gibson, 2019-04-02 An inspiring tribute to female friendship and female courage!--Kate Quinn, New York Times bestselling author of *The Alice Network* and *The Huntress*. Three women are brought together in an enthralling story of friendship, heartbreak, and resilience. Set at the U.S. Military Academy at West Point, this is an amazing debut novel. Duty. Honor. Country. That's West Point's motto, and every cadet who passes through its stone gates vows to live it. But on the eve of 9/11, as Dani, Hannah and Avery face four grueling years ahead, they realize they'll only survive if they do it together. Everyone knows Dani is going places. With athletic talent and a brilliant mind, she navigates West Point's predominantly male environment with wit and confidence, breaking stereotypes and embracing new friends. Hannah's grandfather, a legendary Army general, offers a stark warning about the dangers that lie ahead, but she moves forward anyway, letting faith guide her path. When she meets her soul mate at West Point, the future looks perfect, just as planned. Wild child Avery moves fast and doesn't mind breaking a few rules (and hearts) along the way. But she can't outpace her self-doubt, and the harder she tries, the further it leads her down a treacherous path.

The world—of business, of love, and of war—awaits Dani, Hannah, and Avery beyond the gates of West Point. These three women know that what doesn't kill you makes you stronger. But soon, that adage no longer rings true—for their future, or their friendship. As they're pulled in different directions, will their hard-forged bond prevail or shatter? Beyond the Point is a heartfelt look at how our closest friends can become our fiercest battle buddies. After all, the greatest battles we fight rarely require a uniform.

Early Detection and Intervention in Audiology Katijah Khoza-Shangase, Amisha Kanji, 2021-02-01 A textbook with case studies for audiologists and speech pathologists to make recommendations for early detection and intervention of hearing impairments in the South African context Early hearing detection and intervention (EHDI) is the gold standard for any practicing audiologist, and for families of infants and children with hearing impairment. EHDI programs aim to identify, diagnose and provide intervention to children with hearing impairment from as early as six months old (as well as those at risk for hearing impairment) to ensure they develop and achieve to their potential. Yet EHDI remains a

significant challenge for Africa, and various initiatives are in place to address this gap in transferring policy into practice within the southern African context. The diversity of factors in the southern African context presents unique challenges to teaching and research in this field, which has prompted this book project. The South African government's heightened focus on increasing access to health care which includes ongoing Early Childhood Development (ECD) programs, make this an opportune time for establishing and documenting evidence-based research for current undergraduate and postgraduate students. *Early Detection and Intervention in Audiology: An African Perspective* aims to address this opportunity. Grounded in an African context with detailed case studies, this book provides rich content that pays careful attention to contextual relevance and contextual responsiveness to both identification and intervention in hearing impairment. With diverse contributions from experts in local and international contexts, but always with an African perspective, this textbook will be an invaluable resource for students, researchers and practitioners.

Hit List Stuart Woods, 2020-03-17 Stone Barrington faces down a vengeful miscreant in this latest

heart-stopping thriller from the #1 New York Times bestselling author When Stone Barrington finds his name on a hit list, he plans to lie low until the culprit is caught. But when this foe shows no signs of stopping until his deadly objective is realized in full, Stone is left with no choice but to face the problem head-on. Armed and alert, Stone joins forces with his most savvy connections to catch the perpetrator before the next strike. But it turns out this scum is an expert at evasion in more ways than one, and the international cat-and-mouse hunt that ensues has Stone questioning if he has become the predator or the prey. . .

Time-Sensitive Remote Sensing Christopher D. Lippitt,Douglas A. Stow,Lloyd L.

Coulter,2015-06-02 This book documents the state of the art in the use of remote sensing to address time-sensitive information requirements. Specifically, it brings together a group of authors who are both researchers and practitioners, who work toward or are currently using remote sensing to address time-sensitive information requirements with the goal of advancing the effective use of remote sensing to supply time-sensitive information. The book addresses the theoretical implications of time-sensitivity on

the remote sensing process, assessments or descriptions of methods for expediting the delivery and improving the quality of information derived from remote sensing, and describes and analyzes time-sensitive remote sensing applications, with an emphasis on lessons learned. This book is intended for remote sensing scientists, practitioners (e.g., emergency responders or administrators of emergency response agencies), and students, but will also be of use to those seeking to understand the potential of remote sensing to address a range of pressing issues, particularly natural and anthropogenic hazard response.

Dirty Work Stuart Woods, 2003-10-07 Stone Barrington gets a taste of New York City's devious upper crust in this "sleek and engaging"* mystery in the #1 New York Times bestselling series. Hired to prove infidelity in an heiress's marriage, Stone Barrington goes undercover. But the work turns dirty—and catastrophic—when the errant husband is found dead and the other woman disappears without a trace. Now, Stone must clear his own good name and find a killer hiding among the glitterati of New York's high society.

The Elite Leadership Course Garry McCarthy, 2021-05-26 The only authentic account of Lord Rowallan's ruthlessly unorthodox methods of leadership development at the Royal Military Academy Sandhurst. This is a brilliant account of how leadership is made. - Andy McNab This is the true story of 21 young men desperately trying to survive the most brutal leadership course of modern times. A throw back to the Highland Fieldcraft Training Center, the revolutionary brain child of Lord Rowallan during the Second World War, this fascinating insight explains the extraordinary lengths Sandhurst goes to in pursuit of generating the world's greatest military leaders. No one could have known that the intensity of their training was coincidentally little more than a prelude to a decade of war in Afghanistan and Iraq where attrition rates became comparable to those reached during the Second

World War. This captivating story is full of emotion brought on by physical and mental endeavor that leads to success and failure. This intimate and revealing story of camaraderie is the first of its kind. But learning how to lead subordinates during the darkest of hours, living in the most austere of environments comes at a price. Unconventional and at times controversial, this is the only authentic account of life in Rowallan Company Sandhurst at a time when the world teetered on the brink of war with insurgents and dictators armed with weapons of mass destruction.

Transforming Research Methods in the Social Sciences Angelo Flynn, Sherianne

Kramer, 2019-03-01 Social science researchers in the global South, and in South Africa particularly, utilise research methods in innovative ways in order to respond to contexts characterised by diversity, racial and political tensions, socioeconomic disparities and gender inequalities. These methods often remain undocumented – a gap that this book starts to address. Written by experts from various methodological fields, *Transforming Research Methods in the Social Sciences* is a comprehensive collation of original essays and cutting-edge research that demonstrates the variety of novel

techniques and research methods available to researchers responding to these context-bound issues. It is particularly relevant for study and research in the fields of applied psychology, sociology, ethnography, biography and anthropology. In addition to their unique combination of conceptual and application issues, the chapters also include discussions on ethical considerations relevant to the method in similar global South contexts. Transforming Research Methods in the Social Sciences has much to offer to researchers, professionals and others involved in social science research both locally and internationally.

Standup Guy Stuart Woods, 2014-10-07 Stone Barrington's newest client brings mayhem in his wake in this "edge-of-your-seat adventure"* in the #1 New York Times bestselling series. After giving some legal advice to a walk-in client, Stone Barrington thinks he's done with the man. But several people are keenly interested in John Fratelli's activities and how they relate to a long-ago crime...and some of them will stop at nothing to find the information they desire. On a hunt that leads from Florida's tropical beaches to the posh vacation homes of the Northeast, Stone finds himself walking a

tightrope between ambitious authorities and seedy lowlifes who all have the same prize in their sights. In this cutthroat contest of wills, it's winner-takes-all—and Stone will need every bit of his cunning and resourcefulness to be the last man standing.

Due Diligence Peter Howson, 2017-07-05 How can you be sure you are buying the company you think you are? Are you sure it is as good as the seller says? How can you be certain unexpected costs and obligations will not suddenly appear once you are the owner and responsible for them? How best can you arm yourself for the negotiations? Have you worked out precisely what you are going to do with it once it is yours? How do you set the priorities for change to recoup the premium you have paid for it? The answer to all these questions, and many more, lies with effective due diligence. Due diligence is one of the most important but least well understood aspects of the acquisition process. It is not, as many believe, a chore to be left to the accountants and lawyers. To get the best from it, due diligence has to be properly planned and professionally managed. This book is a comprehensive manual on getting due diligence right. It is a uniquely comprehensive guide, covering all aspects of the

process from financial, legal and commercial due diligence right through to environmental and intellectual property due diligence. There are also useful chapters on working with advisers and managing due diligence projects. It also includes a number of checklists to help ensure that the right questions are asked.

Intelligent Credit Scoring Naeem Siddiqi, 2017-01-10 A better development and implementation framework for credit risk scorecards Intelligent Credit Scoring presents a business-oriented process for the development and implementation of risk prediction scorecards. The credit scorecard is a powerful tool for measuring the risk of individual borrowers, gauging overall risk exposure and developing analytically driven, risk-adjusted strategies for existing customers. In the past 10 years, hundreds of banks worldwide have brought the process of developing credit scoring models in-house, while 'credit scores' have become a frequent topic of conversation in many countries where bureau scores are used broadly. In the United States, the 'FICO' and 'Vantage' scores continue to be discussed by borrowers hoping to get a better deal from the banks. While knowledge of the statistical processes

around building credit scorecards is common, the business context and intelligence that allows you to build better, more robust, and ultimately more intelligent, scorecards is not. As the follow-up to Credit Risk Scorecards, this updated second edition includes new detailed examples, new real-world stories, new diagrams, deeper discussion on topics including WOE curves, the latest trends that expand scorecard functionality and new in-depth analyses in every chapter. Expanded coverage includes new chapters on defining infrastructure for in-house credit scoring, validation, governance, and Big Data. Black box scorecard development by isolated teams has resulted in statistically valid, but operationally unacceptable models at times. This book shows you how various personas in a financial institution can work together to create more intelligent scorecards, to avoid disasters, and facilitate better decision making. Key items discussed include: Following a clear step by step framework for development, implementation, and beyond Lots of real life tips and hints on how to detect and fix data issues How to realise bigger ROI from credit scoring using internal resources Explore new trends and advances to get more out of the scorecard Credit scoring is now a very common tool used by banks, Telcos, and

others around the world for loan origination, decisioning, credit limit management, collections management, cross selling, and many other decisions. Intelligent Credit Scoring helps you organise resources, streamline processes, and build more intelligent scorecards that will help achieve better results.

Rootkits Greg Hoglund, James Butler, 2006 Hoglund and Butler show exactly how to subvert the Windows XP and Windows 2000 kernels, teaching concepts that are easily applied to virtually any modern operating system, from Windows Server 2003 to Linux and UNIX. Using extensive downloadable examples, they teach rootkit programming techniques that can be used for a wide range of software, from white hat security tools to operating system drivers and debuggers.--Jacket.

Fraud and Corruption Nigel Iyer, Martin Samociuk, 2016-12-05 Executives are under enormous pressure to meet stakeholder expectations regarding the prevention of fraud and corruption. However, the drive to demonstrate that they are complying with legislative requirements and high principles has,

in many cases, overshadowed the need to deal with the problem itself. As a result, fraud and corruption remain a significant unmanaged source of risk for many organizations. Drawing on experiences across Europe, America and Australia, Iyer and Samociuk give you the tools to establish an effective and far-reaching anti-fraud and corruption programme. Included is a compendium of techniques for assessing the true risk of fraud and corruption, reducing those risks and using health checks to provide early warnings. Also included is *The Tightrope, A Story of Fraud and Corruption*...which takes the reader from first suspicions through crisis and finally recovery in a vivid and instructive style, covering the lessons in the main text. This new book is a must-read for all those responsible for the prevention of fraud and corruption, risk management, corporate compliance, corporate responsibility and governance.

Historical Brewing Techniques Lars Marius Garshol, 2020-04-30 Ancient brewing traditions and techniques have been passed generation to generation on farms throughout remote areas of northern Europe. With these traditions facing near extinction, author Lars Marius Garshol set out to explore and

document the lost art of brewing using traditional local methods. Equal parts history, cultural anthropology, social science, and travelogue, this book describes brewing and fermentation techniques that are vastly different from modern craft brewing and preserves them for posterity and exploration. Learn about uncovering an unusual strain of yeast, called kveik, which can ferment a batch to completion in just 36 hours. Discover how to make keptinis by baking the mash in the oven. Explore using juniper boughs for various stages of the brewing process. Test your own hand by brewing recipes gleaned from years of travel and research in the farmlands of northern Europe. Meet the brewers and delve into the ingredients that have kept these traditional methods alive. Discover the regional and stylistic differences between farmhouse brewers today and throughout history.

The Complete Beer Course Joshua M. Bernstein, 2013-09-03 “A wide-ranging volume that is sure to appeal to beer enthusiasts and casual consumers alike. Highly recommended.” —Library Journal (STARRED REVIEW) Go on a fun, flavorful tour through the world of craft brews with one of the most

unique and fascinating voices in beer today. It's a great time to be a beer drinker, but also the most confusing, thanks to the dizzying array of available draft beers. Expert Joshua Bernstein comes to the rescue with *The Complete Beer Course*, demystifying the sudsy stuff and breaking down the elements that make a beer's flavor spin into distinctively different and delicious directions. Structured around a series of easy-to-follow classes, his course hops from lagers and pilsners to hazy wheat beers, Belgian-style abbey and Trappist ales, aromatic pale ales and bitter IPAs, roasty stouts, barrel-aged brews, belly-warming barley wines, and mouth-puckering sour ales. There is even a class on international beer styles and another on pairing beer with food and starting your own beer cellar. Through suggested, targeted tastings, you'll learn when to drink down-and when to dump those suds down a drain.

Breaking Point C. J. Box, 2013-03-12 Don't miss the JOE PICKETT series—now streaming on Paramount+ Wyoming game warden Joe Pickett's hunt for a fugitive reveals a conspiracy in this taut thriller in the #1 New York Times bestselling series. Joe Pickett always liked Butch Roberson—a hard-

working local business owner whose daughter is friends with Joe's girls. Little does he know that when Butch says he's heading into the mountains to scout elk, he is actually going on the run. Two EPA employees have been murdered and all signs point to Butch as the killer. Joe learns that the land Butch and his wife had bought to retire on was declared a protected wetland by the EPA, and the subsequent fines have torn the family apart. Finally, it seems, the man just cracked. It's an awful story, but is it the whole story? The more Joe investigates, the more he begins to wonder—and he soon finds himself in the middle of a war in which he must choose sides.
