Topics include expectation, combinations, Baye's Theorem, the eight mistakes in poker, checking in the dark, playing tight, The Key Card Concept, casinos and their mistakes, crapless craps, betting sports, hedging and middling, knowing what's important, the Law of Averages and Other Fallacies, and much more.

The Mathematics of Poker Bill Chen, Jerrod Ankenman, 2006  
For decades, the highest level of poker have been dominated by players who have learned the game by playing it, road gamblers' who have cultivated intuition for the game and are adept at reading other players' hands from betting patterns and physical tells. Over the last five to ten years, a whole new breed has risen to prominence within the poker community. Applying the tools of computer science and mathematics to poker and sharing the information across the Internet, these players have challenged many of the assumptions that underlay traditional approaches to the game.'

High Stakes Nigel Goldman, 2012-12-21 Nigel Goldman wrote the autobiographical *High Stakes* while in prison paying the price for two decades of risk-taking on the financial markets. Through his dealings in the tempestuous silver futures market and a sideline in rare coin investments, Goldman developed a taste for the champagne lifestyle. Desperate to maintain the high life, his deals became riskier and were increasingly financed by his clients' money. Taking advantage of trading loopholes and insider tip-offs, Goldman peaked with an account balance of £14 million but troughed with two spells in prison. The story begins with Goldman placing a £50 bet on the roulette table and walking away with £10,000. And so his adventures continue. There are personal trades, investment businesses, gold bullion deals, racehorses and an American gentleman who allows Goldman to play with his fortune on the New York Stock Exchange. But there are also Customs and Excise investigations and lifelong enemies waiting to exact their revenge. *High Stakes* provides a detailed insight into the little-known twilight world of insider-dealing and shows how the search for the ultimate win can lead to a life on the run.
