Why Vietnam Invaded Cambodia Stephen J. Morris,1999 Morris examines the, first and only extended war between two communist regimes.

The Politics of Giving in the Viceroyalty of Rio de la Plata Viviana L. Grieco,2014-03-15 During the eighteenth century, a time of almost constant international warfare, European states had to borrow money to finance their military operations. Servicing public debt demanded the collection of more taxes in a newly efficient manner, resulting in the emergence of what scholars call European "tax states." This book examines a different kind of state finance, based on voluntary donations rather than taxes. Relying on Spanish and Argentine archival research, the author analyzes the "gifts" (donativos) that residents of the Viceroyalty of Rio de la Plata, or colonial Argentina, gave to the Spanish Crown and the city council of Buenos Aires. She examines the cultural, political, constitutional, and legal practices associated with loans and donativos in comparison with the practices of other Atlantic states, emphasizing the quid pro quo offered by the crown in the form of appointments to office and other favors. Examining donors, donations, and expectations, she argues that the Spanish system achieved at the imperial level what the British empire and the French monarchy failed to accomplish.

Post-invasion Panama Orlando J. Pérez,2000 On December 20, 1989, the United States sent over ten thousand troops to Panama to overthrow the military government led by General Manuel Noriega. More than ten years after the invasion, how has the country adjusted? In this volume, scholars of Panamanian politics and society examine the political, economic, and social changes the country has faced following the U.S. invasion. In addition, they analyze the prospects for democratic stability as Panama prepares to take over control of the Panama Canal. Post-Invasion Panama is an important book for scholars of foreign policy and international relations interested in the United States's controversial role as an international police force.

The Spanish Political System E. Ramon Arango,E Ramon Arango,2019-06-13 In few places, contends Professor Arango, do illusions obscure reality as they do in Spain. The Spaniard as well as the foreigner has believed and sustained the myths; the scholar as well as the poet. For the Spaniard, myth became the substitute for action in a world in which Spain was increasingly a nonparticipant. It replaced the reality of Spain

Italy and Her Invaders: The Hunnish invasion. The Vandal invasion and the Herulian mutiny Thomas Hodgkin,1892

The Invaded Alan McPherson,2014-03 The Invaded explores the United States' military occupations of Nicaragua (1912-33), Haiti (1915-34), and the Dominican Republic (1916-24), proposing not only that opposition to U.S. intervention was more widespread than commonly acknowledged but that anti-imperial movements in the Caribbean basin were primarily responsible for bringing about the end of U.S. occupation.

Ukraine's Patronal Democracy and the Russian Invasion Bálint Madlovics,Bálint Magyar,2023-10-10 The Russian invasion of Ukraine in 2022 jeopardizes the country's independence and its chances for Western-style development. However, the heroic attitude of the Ukrainian people, combined with a solidifying national identity, makes the domestic foundations for a western turn stronger than ever. After the invasion, building strong foundations of liberal democracy will be a top priority. In addition to alleviating immediate

problems, the country must also address its post-communist legacy and address the constraints of patronalism. The authors of this edited volume, leading Ukrainian scholars supplemented by colleagues from Hungary, examine the chances of an anti-patronal transformation after the war. The book provides an overview of the development of Ukraine's political-economic system: color revolutions in 2004 and 2014 brought democratic transformation, but no change in the patronage system The result was patronal regime cycles instead of the emergence of a Western-type liberal democracy in the country. Building on the conceptual framework of the editors' The Anatomy of Post-Communist Regimes (CEU Press, 2020), the 12 chapters examine the impact of the war on patronal democracy, the relational economy, clientelist society, and the international environment in which Ukraine operates. This collection is complemented by the book entitled Russia. Imperial Endeavor and Geopolitical Consequences.

Kordafan Invaded Endre Stiansen,Michael Kevane,1995 The book will be of interest to scholars of Africa and Islam because of its novel focus on regional institutions and their relation to state structures.

Kordofan Invaded Stiansen,Kevane,2021-10-11 This volume addresses economic change, regional politics and Islamisation in Kordofan, a large province in the Sudan. Kordofan's history is characterised by resistance and adaptation to expanding states and market forces causing both sectoral transformation and stagnation. The contributions in different ways examine the interplay between local and invading institutions, and include studies of Kordofan as a terra media between Darfur and Sinnar, international trade in the nineteenth century, the Mahdist revolt, the Anglo-Egyptian Condominium (with particular reference to land tenure and tribal identity), Kordofan in Sudanese nationalist poetry, local politics in the Nuba Mountains and the conflict between religious orthodoxy and local practice. The book will be of interest to scholars of Africa and Islam because of its novel focus on regional institutions and their relation to the state structures. This edited volume explores the history, social structure and economy of Kordofan in the Sudan. Representing several academic disciplines, each chapter is concerned with the long-term incorporation - through invasions - of the region into wider socio-political and economic structures.

Political Warfare Kerry K. Gershaneck,Marine Corps University (U.S.). Press,2020 Political Warfare provides a well-researched and wide-ranging overview of the nature of the People's Republic of China (PRC) threat and the political warfare strategies, doctrines, and operational practices used by the Chinese Communist Party (CCP). The author offers detailed and illuminating case studies of PRC political warfare operations designed to undermine Thailand, a U.S. treaty ally, and Taiwan, a close friend--

Visions of Invasion Michael Lechuga,2023-03-02 Visions of Invasion: Alien Affects, Cinema, and Citizenship in Settler Colonies explores how the US government mobilizes media and surveillance technologies to operate a highly networked, multidimensional system for controlling migrants. Author Michael Lechuga focuses on three arenas where a citizenship control assemblage manufactures alienhood: Hollywood extraterrestrial invasion film, federal antimigration and border security legislation, and various immigration enforcement protocols implemented along the Mexico–United States border. Building on rhetorical studies, settler colonial studies, and media studies, Visions of Invasion offers a glimpse at how the processes of alien-making contribute to an ongoing settler colonial project in the US. Lechuga demonstrates that popular films—The War of the Worlds, Predator, Men in Black, and more—participate in the production of migrants as subjective terrorists, felons, and other noncitizen personae vilified in public discourse. Beyond just tracing how alien invasion narratives circulate in popular media, Lechuga describes how the logics motivating early US colonists materialize in both the US's citizenship control policy and in some of the country's most popular texts. Beneath each of the film franchises and

antimigrant political expressions described in Visions of Invasion lies an anxious colonial logic in which the settler way of life is seemingly threated by false narratives of imminent invasion from abroad. The volume offers a deep dive into how the rhetorical figure of the alien has been manufactured as a political subjectivity, one that plays out the anxieties, guilts, and fears of colonialism in today's science fiction landscape.

Surveying Christianity's African Roots (Paperback) Jimmie Compton,2019-05-31 ... pre-Constantinian Christian intellect apparently found a richer thought environment in Africa than elsewhere. It discovered itself in the intellectual centers of Africa before Europe had produced such centers. Eventually it offered its rich wisdom to the cultures of the northern side of the Mediterranean ... - Dr. Thomas C. Oden. This book surveys the rational, organized, thriving, Scripturally informed and Holy Spirit-inspired roots of indigenous Christianity in Africa from 33 A.D. through 537 A.D. The intent is to supplement existing Church history resources.

The Tripartite Realist War: Analysing Russia's Invasion of Ukraine Danny Singh,2023-07-02 The book offers a detailed analysis on Russia's invasion of Ukraine. A book needs to be written on this to make sense, from a theoretical perspective, why this invasion has occurred and what the main actors are pursuing. The originality rests on testing main international relations theories: realism, liberalism and constructivism to the war that emerges with the practices and approaches during the Cold War to date from the North Atlantic Treaty Organisation (NATO), the Soviet Union (and now Russia) and Ukraine. The monograph commences with a historical overview of NATO and how it has engaged in expansionism policy to further contain Russia in contemporary international affairs with the accession of additional former Soviet states. This helps to explain the current Russian invasion of Ukraine that would attract great readership. The main argument presented rests on the pursuance of realist interests by NATO, Ukraine and Russia for containment, national security interests and as a response to the security dilemma respectively. This has served as the main catalyst of this conflict that has made diplomacy, international law and collective security measures problematic to implement.

What's the Matter with Kansas? Thomas Frank,2007-04-01 One of our most insightful social observers* cracks the great political mystery of our time: how conservatism, once a marker of class privilege, became the creed of millions of ordinary Americans With his acclaimed wit and acuity, Thomas Frank turns his eye on what he calls the thirty-year backlash—the populist revolt against a supposedly liberal establishment. The high point of that backlash is the Republican Party's success in building the most unnatural of alliances: between blue-collar Midwesterners and Wall Street business interests, workers and bosses, populists and right-wingers. In asking what 's the matter with Kansas?—how a place famous for its radicalism became one of the most conservative states in the union—Frank, a native Kansan and onetime Republican, seeks to answer some broader American riddles: Why do so many of us vote against our economic interests? Where's the outrage at corporate manipulators? And whatever happened to middle-American progressivism? The questions are urgent as well as provocative. Frank answers them by examining pop conservatism—the bestsellers, the radio talk shows, the vicious political combat—and showing how our long culture wars have left us with an electorate far more concerned with their leaders' values and down-home qualities than with their stands on hard questions of policy. A brilliant analysis—and funny to boot—What's the Matter with Kansas? presents a critical assessment of who we are, while telling a remarkable story of how a group of frat boys, lawyers, and CEOs came to convince a nation that they spoke on behalf of the People. *Los Angeles

With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Political Invaders 16 books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Political Invaders 16 books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Political Invaders 16 versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Political Invaders 16 books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast

library of resources on any subject imaginable. Whether youre a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Political Invaders 16 books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Political Invaders 16 books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Political Invaders 16 books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips.
