Achtung-Panzer! Heinz Guderian,1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Born to Buy Juliet B. Schor,2014-08-19 Ads aimed at kids are virtually everywhere -- in classrooms and textbooks, on the Internet, even at slumber parties and the playground. Product placement and other innovations have introduced more subtle advertising to movies and television. Companies are enlisting children as guerrilla marketers, targeting their friends and families. Even trusted social institutions such as the Girl Scouts are teaming up with marketers. Drawing on her own survey research and unprecedented access to the advertising industry, New York Times bestselling author and leading cultural and economic authority Juliet Schor examines how a marketing effort of vast size, scope, and effectiveness has created commercialized children. Schor, author of *The Overworked American* and *The Overspent American*, looks at the broad implications of this strategy. Sophisticated advertising strategies convince kids that products are necessary to their social survival. Ads affect not just what they want to buy, but who they think they are and how they feel about themselves. Based on long-term analysis, Schor reverses the conventional notion of causality: it's not just that problem kids become overly involved in the values of consumerism; it's that kids who are overly involved in the values of consumerism become problem kids. In this revelatory and crucial book, Schor also provides guidelines for parents and teachers. What is at stake is the emotional and social well-being of our children. Like Barbara Ehrenreich's *Nickel and Dimed*, Mary Pipher's *Reviving Ophelia*, and Malcolm Gladwell's *The Tipping Point*, *Born to Buy* is a major contribution to our understanding of a contemporary trend and its effects on the culture.
