**Twelve Years a Slave** Solomon Northup,2024-01-04

Filmatised in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Northup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

**Brands and Branding** Rita Clifton,2009-04-01 With contributions from leading brand experts around the world, this valuable resource delineates the case for brands (financial value, social value, etc.) and looks at what makes certain brands great. It covers best practices in branding and also looks at the future of brands in the age of globalization. Although the balance sheet may not even put a value on it, a company's brand or its portfolio of

brands is its most valuable asset. For well-known companies it has been calculated that the brand can account for as much as 80 percent of their market value. This book argues that because of this and because of the power of not-for-profit brands like the Red Cross or Oxfam, all organisations should make the brand their central organising principle, guiding every decision and every action. As well as making the case for brands and examining the argument of the anti-globalisation movement that brands are bullies which do harm, this second edition of *Brands and Branding* provides an expert review of best practice in branding, covering everything from brand positioning to brand protection, visual and verbal identity and brand communications. Lastly, the third part of the book looks at trends in branding, branding in Asia, especially in China and India, brands in a digital world and the future for brands. Written by 19 experts in the field, *Brands and Branding* sets out to provide a better understanding of the role and importance of brands, as well as a wealth of insights into how one builds and sustains a successful brand.

**The Porsche 911** Michael Burgan, 1999 Describes the history, development, and design of the various models of Porsche 911s that have been made since its introduction in 1964.

Brands and Branding Stephen Brown, 2016-08-17

Lecturers/Instructors - Request a free digital inspection copy here  
A fun and humorous introductory book, written in Stephen Brown's entertaining and highly distinctive style, that introduces curious readers to the key components of brands and helps them to begin to make sense of them - what they are, what they do, why and how - using plenty of examples and references drawn from a wide range of brands such as Amazon, Apple, Google, Gucci, Nike, Nintendo, Starbucks, Swatch and The Worst Hotel in the World. With 3,000 branding books published each year, why would you (or your students) want to read *Brands & Branding*? Here are seven reasons why: It's introductory, aimed at undergraduate students or postgrads without a bachelor degree in business and

assumes nothing more than readers' awareness of high profile brands such as Coca-Cola, Microsoft and Chanel It's indicative, focusing on the basics and thus being a more reliable revision aid than Lucozade It's immersive, taking readers on a journey and, working on the assumption that they have smartphones or tablet computers to hand, the print text links to images, articles and academic publications to give emphasis and context where appropriate. It's inclusive, considering articles and reports but also blogs, novels, newspapers, reviews, social media and other sources It's irreverent – branding is not always a deadly serious business! It's intimate, Stephen speaks to you directly and together you will pick your way through the sometimes weird and unfailingly wonderful world of brands and branding using examples rather than abstract ideas to illustrate points. It's inspirational, celebrating the curious and successful stories of brands from Cillit Bang to Cacharel Suitable for first and second year marketing or advertising students, and for those new to or interested in branding and who are keen to know more.

**Losing Reality** Robert Jay Lifton, 2019-10-15 A definitive account of the psychology of zealotry, from a National Book Award winner and a leading authority on the nature of cults, political absolutism, and mind control In this unique and timely volume Robert Jay Lifton, the National Book Award-winning psychiatrist, historian, and public intellectual proposes a radical idea: that the psychological relationship between extremist political movements and fanatical religious cults may be much closer than anyone thought. Exploring the most extreme manifestations of human zealotry, Lifton highlights an array of leaders—from Mao to Hitler to the Japanese apocalyptic cult leader Shōkō Asahara to Donald Trump—who have sought the control of human minds and the ownership of reality. Lifton has spent decades exploring psychological extremism. His pioneering concept of the Eight Deadly Sins of ideological totalism—originally devised to identify brainwashing (or thought reform) in political movements—has

been widely quoted in writings about cults, and embraced by members and former members of religious cults seeking to understand their experiences. In *Losing Reality* Lifton makes clear that the apocalyptic impulse—that of destroying the world in order to remake it in purified form—is not limited to religious groups but is prominent in extremist political movements such as Nazism and Chinese Communism, and also in groups surrounding Donald Trump. Lifton applies his concept of malignant normality to Trump's efforts to render his destructive falsehoods a routine part of American life. But Lifton sees the human species as capable of regaining reality by means of our protean psychological capacities and our ethical and political commitments as witnessing professionals. Lifton weaves together some of his finest work with extensive new commentary to provide vital understanding of our struggle with mental predators. *Losing Reality* is a book not only of stunning scholarship, but also of huge relevance for these troubled times.

Terror, Love and Brainwashing Alexandra Stein, 2016-11-03

Written by a cult survivor and renowned expert on cults and totalitarianism, *Terror, Love and Brainwashing* draws on the author's 25 years of study and research to explain how almost anyone, given the right set of circumstances, can be radically manipulated to engage in otherwise incomprehensible and often dangerous acts. Illustrated with compelling stories from a range of cults and totalitarian systems, from religious to political to commercial, the book defines and analyses the common and identifiable traits that underlie almost all these groups. It focuses on how charismatic, authoritarian leaders control their followers' attachment relationships via manipulative social structures and ideologies so that, emotionally and cognitively isolated, they become unable to act in their own survival interests. Using the evolutionary theory of attachment to demonstrate the psychological impact of these environments, and incorporating the latest neuroscientific findings, Stein illustrates how the combined

dynamic of terror and 'love' works to break down people's ability to think and behave rationally. From small local cults to global players like ISIS and North Korea, the impact of these movements is widespread and growing. This important book offers clarity and a unique perspective on the dynamics of these systems of control, and concludes with guidance to foster greater awareness and prevention. It will be essential reading for mental health professionals in the field, as well as policy makers, legal professionals, cult survivors, and their families, as well as anyone with an interest in these disturbing groups. Students of social and developmental psychology will also find it fascinating.

*America's National Game* Albert Goodwill Spalding, 1911 This book is Albert Spalding's work of historic facts concerning the beginning, evolution, development and popularity of base ball, with personal reminiscences of its vicissitudes, its victories and its votaries. It is one of the defining books in the early formative years of modern baseball.

**Objectives, Obstacles, and Tactics in Practice** Hillary Haft Bucs, Valerie Clayman Pye, 2019-11-27 *Objectives, Obstacles, and Tactics in Practice* is the first book that compiles practical approaches of the best practices from a range of practitioners on the subject of working with Stanislavski's objectives, obstacles, and tactics. The book offers instructors and directors a variety of tools from leading acting teachers, who bring their own individual perspectives to the challenge of working with Stanislavski's principles for today's actors, in one volume. Each essay addresses its own theoretical and practical approach and offers concrete instructions for implementing new explorations both in the classroom and in the rehearsal studio. An excellent resource for acting and directing instructors at the university level, directing and theatre pedagogy students, high school/secondary theatre teachers, and community theatre leaders, *Objectives, Obstacles, and Tactics in Practice* serves as a resource for lesson planning and exploration, and provides an encyclopedia of the best

practices in the field today.

**Traumatic Narcissism** Daniel Shaw, 2013-09-23 In this volume, *Traumatic Narcissism: Relational Systems of Subjugation*, Daniel Shaw presents a way of understanding the traumatic impact of narcissism as it is engendered developmentally, and as it is enacted relationally. Focusing on the dynamics of narcissism in interpersonal relations, Shaw describes the relational system of what he terms the 'traumatizing narcissist' as a system of subjugation – the objectification of one person in a relationship as the means of enforcing the dominance of the subjectivity of the other. Daniel Shaw illustrates the workings of this relational system of subjugation in a variety of contexts: theorizing traumatic narcissism as an intergenerationally transmitted relational/developmental trauma; and exploring the clinician's experience working with the adult children of traumatizing narcissists. He explores the relationship of cult leaders and their followers, and examines how traumatic narcissism has lingered vestigially in some aspects of the psychoanalytic profession. Bringing together theories of trauma and attachment, intersubjectivity and complementarity, and the rich clinical sensibility of the Relational Psychoanalysis tradition, Shaw demonstrates how narcissism can best be understood not merely as character, but as the result of the specific trauma of subjugation, in which one person is required to become the object for a significant other who demands hegemonic subjectivity. *Traumatic Narcissism* presents therapeutic clinical opportunities not only for psychoanalysts of different schools, but for all mental

health professionals working with a wide variety of modalities. Although primarily intended for the professional psychoanalyst and psychotherapist, this is also a book that therapy patients and lay readers will find highly readable and illuminating.

**Overcoming School Refusal** Joanne Garfi, 2018-01-31 School refusal affects up to 5% of children and is a complex and stressful issue for the child, their family and school.
