Digest of Education Statistics ,1994 Contains information on a variety of subjects within the field of education statistics, including the number of schools and colleges, enrollments, teachers, graduates, educational attainment, finances, Federal funds for education, libraries, international education, and research and development.

Digest of Education Statistics Thomas D. Snyder,1997-02 This edition is the 30th in a series of publications initiated in 1962. Its primary purpose is to provide a compilation of statistical information

covering the broad field of American education from kindergarten through graduate school. The Digest includes a selection of data from many sources, and draws especially on the results of surveys and activities of the National Center for Education Statistics (NCES). The publication contains information on a variety of subjects, including: (1) numbers of schools and colleges; (2) numbers of teachers; (3) enrollments; (4) graduates; (5) educational attainment; (6) finances; (7) Federal funds for education; (8) employment and income of graduates; (9) libraries; and (10) international comparisons of education. Supplemental information is provided on population trends, attitudes toward education, educational characteristics of the labor force, government finances, and economic trends. Some information is also given on preschool and adult education. Data are presented in 411 tables, with an additional 20 tables in an appendix. (SLD)
